

Object:

Analysing comments on COVID-19 Vaccines plan in Canada.

Description:

We will analyse the text starting with turn these comments into a meaningful format, then cleaning data by:

- Remove capital letters and replace them by lower case letters.
- Remove punctuation.
- Remove stop words and numbers. ### AS a final steps we will use two of the topic modeling techniques, then converting comments into supervised data that we can explore data using AMOD and counter.

Tools:

- Numpy
- Pandas
- Sklearn
- NLTK
- RE
- Spacy
- Gensim

['The vaccine plan according to liberals is in that little red book that back in 1993 J Chrétien keep campaigning about, to this date so many liberals h many plans and promises in it, but no one seems to be able to find it, and now Trudeau leads the pack in there',  
'Starting a pandemic with masks can only be worn by professionals, to being among the last in the world to getting a vaccine, this is one big govt fail manufacturing our own vaccines within Canada, and N95 masks as well, enough so we can send them to every senior. incompetent.',  
'Don\x92t forget the Libs tossing out our PPE and then giving what was left to China. Fail',  
'they threw out emergency stock of N95s last year, without replacing them, ... genius move.',  
'Conservatives want to take a vaccine that hasn't been approved? No wonder they were so eager to inject bleach',  
'making stuff up',  
'drivel but thanks anyway\xa0',  
'Trump is more like JT the any Canadian conservative',  
'Its all good. The vaccines are coming. Anyone who wants them will get them. Until then, we'll take the suggested precautions and even for awhile after  
'You're scheduled to receive your shots in September 2021. Until then, just relax.',  
'It will be an ongoing process, with hopefully the last few people (20-somethings) in fall 2021.',  
'This is being 1st in line? Sept 21st?',  
'Kool Aid too?',  
'Exactly. Politics I guess...you know',  
'If you Conservatives want a vaccine now and won't wait for one that is approved by Health Canada then I can supply you with one approved by Dr. Pepper  
lm you down? BTW, last week you were all saying the virus is fake, that you wouldn't wear a mask nor accept a vaccine that almost certainly contains a t  
,  
'The NDP tend to believe in science. It's Conservatyives who think science reached it's peak in the study of astrology.',  
'weak response. Still sticking to the idea that if you are of a particular political affiliation you carry those believes to things like science. So, n  
scientists out there?',  
'Trudeau and Dr Tam have been a step behind since day 1',  
'that's being generous',  
'WAY behind',  
'Western separatists should be the last in line.',  
'The only purpose of this announcement was to give us a large photo of Trudeau at the top of the main news page, again. Trudeau says.',

"Why doesn't O'Toole present HIS plan, any plan, on anything. Easy to point the finger and criticise from the sidelines",  
'he is not in power. How many times will you ask this?','  
'And he never will be',  
'Sure, talk in absolutes, it is the liberal way.',  
'Sick and tired of the Tories with their blah blah blah. Use people who can think for ourselves know that it will be rolled out in January and over time people will get it. The people in September will be all the nay sayers who will eventually see there is no issues and roll up their sleeves as they do get sick.',  
'Antivaxxers are a curious group, made up of 80% from the far-right and 20% from the far-far-left. The former group are the usual science deniers, and another type of science denier who think everything can be cured with essential oils and meditation.',  
'The Feds will drop the vaccines off on provincial doorsteps, then wash their hands of it. If distribution goes bad from there, they'll just point finger at health care.',  
'Anti-maskers are a virus complete unto themselves.',  
'I don't trust our PM anymore. So much spinning of half truths I don't know what to believe. Trudeau says',  
'When Justin says he's procured something he means he has added the item to his Christmas wish list for Santa to deliver.',  
'Trudeau changes his mind more often than he changes his socks and we all know about his socks.',  
'What WAS that driver O'Toole evacuated yesterday about Canada putting all its vaccine eggs in China's basket. Doesn't that man read anything at all? They suffer from a lack of leadership .',  
'How much did that fiasco cost us in the form of a donation to China?',  
'You should read. That was the only chance of Canadian produced vaccine, now Canada is entirely dependent on foreign producers',  
'Imagine how much quicker we would have had the vaccine for Canadians... if: this government was competent, had taken advice and had an open door with them hadn't been so focused on padding the pockets of friends and family, hadn't been preoccupied with hiding from scandal after scandal, were more focused on actual plans and budgets instead of generating spin, narrative and attacking the opposition, hadn't prorogued in the middle of a pandemic (with zero agenda refocus), Just imagine! But rest assured, as he claims... Justin is working for Canadians. Incompetent, Trudeau says',  
'You're aware there's no proof they'll actually work, right?',  
'UK, Europe and most likely the USA will begin vaccinating soon. But here because of an incompetent govt we have to watch more people get sick and die. URT, LET A JUDGE DECIDE HOW RIDICULOUS THAT ASSERTION IS.',  
'This is the time for all parties to cooperate - if there is such a time. But the Conservatives are being obstructionist and criticizing handouts to necessary programs, or actually, only complaining that the Liberals have to chock it up on the debit side instead of conjuring it up out of thin air, liars apparently would.',  
'Canadians will now pay with their lives due to the silly virtue signaling and not picking a cabinet based on qualifications. Trudeau says, incompetent  
'Anti-vaxxers, anti-maskers, anti-distancing-ers etc. all fall into the same group of people who think every human being is an island unto themselves, they does not exist. This ignores the very essence of what makes us human. Actually, humans are not the only example of a social animal - far from it. It's a mask when indoors - anywhere except your own household. Don't attend or host parties or attend gatherings. I would say small funerals are the only thing that should be exempted, because they play an important role in closure. Get vaccinated when your time comes.',  
'Did we learn anything from this Trudeau press availability show? Are Canadians now feeling reassured? Trudeau says',  
'So why does the PM not tell us how long the approvals take? Did they even think to ask?? Never mind that's a rhetorical question..',  
'So many additional Canadian deaths will result from Trudeau's vaccine delay. Where will it stop, we are at 12,500 today. Will Canada see 25,000 deaths in 50,000?',  
'So blindly following sheep, when you're told you need multiple injections per year, will you have any objections?',  
'Mr PM , question, Do you dye your own hair ? And if not who does ?Sorry that's three questions !',  
'The vaccines are not safe". Safety trials were wrapped up months ago without any untoward incidents. Nearly all incidents occur in the first couple of the new mRNA technology eliminates the issues seen with old generation vaccines based on attenuated live viruses. "The vaccines are not effective". Independent monitoring boards are reviewing the results and found that at least three vaccines are effective - Moderna's, Pfizer's and AstraZeneca. The first two got done around 60-70%. "The length of immunity is short!". Actually, nobody knows the length of immunity. It may be short it may be long. Either way, it's the vaccine debate. It only changes the frequency of vaccination - which we will address in the upcoming years.',  
'polls showing that a sizeable number of Canadians will refuse a vaccine altogether, or will wait some time before lining up for a shot, Con's sphinx's take over this news.RELAX, LOOSEN UP, STAY AWHILE.",  
'Earlier today a Conservative on this message thread was lambasting Trudeau for not promising the vaccine would be effective on COVID-20 and COVID-21. I like Trudeau is omnipotent.',  
'Libs are most distressed that the "Go Fund Me" page for the clown in TO who opened in defiance of the lock down has been removed. The left sees him as a revolution.',  
'Good luck to all non-thinking guinea pigs.',  
'No, just incompetent. Trudeau says',  
'The liberals are just throwing money at a problem without any experience to actually do something. Trudeau says',  
'He's my least favourite person but he's doing the best he can right now. It would be nice if people would just give him and all politicians a break even. They never signed up for this disaster too.",  
'prorogued parliament is the best they can do',  
'I look forward to travel again. Tacos in Mexico, walnut tortes in Austria, tapas in Spain, food markets in Taiwan. I look forward to seeing family again even to awkward work lunches. We don't realize how much we miss things until they are gone. Bring on the vaccines. Doesn't matter if we have to get it once a year every year - it's less bothersome than a visit to the dentist.',  
'Conservative opposition is now pushing for a parliamentary probe into the CanSino deal. I'll bet it got something to do with Meng's house arrest. But it's as so they stir up that pot.',  
'I definitely trust the Trudeau Libs far more than I trust the O'Toole Cons who would do or say anything to benefit themselves even if it harms Canada considering top Con MPs like Rempel and Poulivie playing with conspiracy theories, pumping out misinformation, and doing their best to politicize the past like when Rempel dismissed the evidence of a pandemic committee just because it's head, a scientist, had donated to the Libs in the past. Their job is to account not to dismiss evidence just because the messenger hasn't supported the Cons. That sort of politicization of the pandemic response kills us by Covid is so out of control in the US. I was pleasantly surprised by the opposition parties early in the pandemic but am appalled by much of what I'm seeing from the Cons but I've also been disappointed by the NDP who haven't seemed to understand the difference between federal and provincial responsibility. Trudeau Lib govt's pandemic response obviously hasn't been perfect, it's been the most unique situation all of Canada has been in since WW2 so I'm willing to give it a slack, I don't expect to support everything any govt does. But I have no doubt the Trudeau Libs pandemic response has the best interests of all Canadians. We've seen in Ontario and Alberta how con premiers have used it as cover to benefit their donors in some of the most blatant cases of cronyism I've ever seen. They've been paying attention to politics. Also it's no accident that the provinces worst hit by Covid are run by conservative govts. It makes me very grateful Libs in office in Ottawa",  
'Sorry Canada, put all our eggs in the Chinese vaccine basket that fell thru...oops I messed up again. Trudeau says',  
'Cottage is holding on tight to the message this evening.',  
'Is perdue pharma going to be found 5 billion in BC like it has been in the UK and USA? Or are we going to find out that they slithered into Canada for "free" of drugs?',  
'O'Toole also slammed the government for partnering with a CanSino, a Chinese-run pharmaceutical firm, early in the pandemic to jointly develop a vaccine. He knows everything. But doesn't mention the billions in Canadian exports that ship to China.",  
'The people frothing at the mouth to be the first to be injected without questioning products are wholly welcomed to be first and last in line for one.'  
'O'Toole again pushed the government to offer a firmer date for access to a vaccine. Trudeau said again they'd be available shortly after Health Canada's decision. NOTHING APPROVED, NO ONE CAN SHIP.....O'Toole as daffy as last guy.',  
'Which vaccine will Justin be taking? Which calibre? That would cure some of our financial malaise.',  
'I do not see any Cons supporters on this site any more, they were saying all kind of nasty things about Trump. Even CBC everyday news about US elections in 8 weeks. Any news about Justin, Tam and Patty on CBC how they handling the Chinese virus so far for the last 11 months absolutely nothing.',  
'Justin why not pony up some money to provinces so that they can deliver some health care for Canadians through the pandemic. Of course you won't. you would just make premiers look good on "your dime" that's why you occupy an office you don't deserve. Just get out you weasel. Trudeau says',  
'Self proclaimed and reported efficacy beware with that there's a motive here and it rhymes with cash.',  
'while he's announcing \$100b additional spending, there is not an additional cent for provinces to spend on delivering health care through the pandemic. Spending is just virtue signaling on our dime. he's not interested in doing the right thing, or spending money where it is really necessary. the guy is just a snake oil sales man.',  
'As quickly as possible. with the king of fails in the cottage, Trudeau says',  
'Is paying lib trolls part of JT economic recovery plan?',  
'Trudeau's approval rating are higher than Jason Kenney's in the Conservative Fatherland (aka Alberta)',  
'The anti-vaxxer movement sure is picking up steam here. Good. We're overdue for some natural selection.',  
'The LPC is looking to charge the Deputy Minister of Finance who resigned today and gave 2 weeks notice with treason or crimes against the state or something on the capital suggest he no longer wanted to be associated with the LPC and their actions. They did ask him to remove the words "transparent" and "transparent" are not in the LPC dictionary',  
'Then the as quickly as possible didn't help you? Trudeau says',  
'Unless it's Trudeau's resignation I don't think so.',  
'So blindly following sheep, when you're told you need multiple injections per year, will you have any objections',  
'There are some exceptional examples in here of the LPC exploiting the youth of Canada to get their message out there. By George and the little one',  
'This is the time for all parties to cooperate - if there is such a time. But the Conservatives are being obstructionist and criticizing handouts to necessary programs, or actually, only complaining that the Liberals have to chock it up on the debit side instead of conjuring it up out of thin air, liars apparently would.',  
'who will be the first to take a quickly made vaccine ?',  
'OK, Trudeau has changed his story 3 times in the last three days about when we can expect vaccines in Canada. Better? Trudeau says',  
'The Feds will drop the vaccines off on provincial doorsteps, then wash their hands of it. If distribution goes bad from there, they'll just point finger at health care.',  
'All this free marketing for big pharma!!!',  
'Anti-maskers are a virus complete unto themselves.',  
'Trudeau already has a recovery plan, the liberals on here are in no hurry to get a vaccine that according to them isn't approved by health Canada, they're very hard to actually know what is what with them, but they are sure good at telling conservatives something that they don't seem to see eye to eye with, including their leader',  
'UK, Europe and most likely the USA will begin vaccinating soon. But here because of an incompetent govt we have to watch more people get sick and die.

"Couldn't hurt to be a bit farther back in line. Let's wait a bit and see what happens.",  
 "Vaccines will roll out 'as quickly as possible. That should be given. Anything else, Trudeau says",  
 "Sick and tired of the Tories with their blah blah blah. Use people who can think for ourselves know that it will be rolled out in January and over time people will get it. The people in September will be all the nay sayers who will eventually see there is no issues and roll up their sleeves as they do get sick.",  
 "Why doesn't O'Toole present HIS plan, any plan, on anything. Easy to point the finger and criticise from the sidelines",  
 "Healthcare workers...including psws. Nursing homes, schools, Drs office if you are particularly at risk. To say it is easy",  
 "Vaccines work primarily by depressing the R0 value to less than 1, and the pandemic flames out because the virus runs out of "fuel". It is akin to dumping a forest fire. The fire flames out even if there is still dry tinder here and there - the key is to interrupt it and disrupt in several spots, not literally square inch of wood. People who refuse to get the vaccine are not endangering only themselves but the rest of society as well. It's no different from i-mask behaviour.",  
 "At the end of this poker game China won, we all lost, because our most intelligent genius Jt. Tam and Patty",  
 "Even though I am in a high risk group I will not be disappointed because I do not expect the jab until September or October. As for the healthy 20 year old bit of luck maybe 2022 or 2023.",  
 "You won't get autism with this vaccine... rather IT WILL TURN YOU INTO A LIBERAL",  
 "If we shut all the flights and the borders for first there, then we all watching hockey now",  
 "Too bad the MSM prints snippets of O'Toole's yapping. I guess they have to do it for the sake of the elusive 'balance', but it's really, really annoying",  
 "Transparent govt? lol, oh so far from the truth. Trudeau says",  
 "Transparency? I guess Libs never got the memo from the transparency obsessed Harper.",  
 "The key is 'safe' and that means leaving the scientific decisions to the experts, not partisan operatives trying to score cheap points.",  
 "Of course they will be \x91safe\x92 but will they be ready for distribution. That's the issue on the table atm.",  
 "The world is way past science when it comes to the imbroglio of the vaccine. Commerce, lobbying, politics, anti flavour of the month, standard methodology observation, experimentation and/or calculations so none of the above.",  
 "The vaccine plan according to liberals is in that little red book that back in 1993 J Chretien kept campaigning about, to this date so many liberals have many plans and promises in it, but no one seems to be able to find it, and now Trudeau leads the pack in there",  
 "they also closed down the pandemic warning system in 2019",  
 "16 tons of masks given to china. Justin love china.",  
 "Conservatives want to take a vaccine that hasn't been approved? No wonder they were so eager to inject bleach",  
 "I remember Justin message in April "GO HOME STAY HOME". I saw on CBC 10 times. In the mean time 6.9 million foreigners came to this country message but have party and spread the virus.",  
 "I really wish people would not comment on vaccines unless they hold an academic background related to vaccinology, epidemiology or medicine. or at the least sic biology. Let the scientists do their jobs. You do yours, whether that is barista, car mechanic or insurance salesman.",  
 "you see how people think they can be experts when the part time drama teacher pretends to be PM",  
 "Canadians will get their vaccinations "as quickly as possible" according to Trudeau. Well, that pretty much nails it. Trudeau says",  
 "Hopefully this madness will be stopped somehow.",  
 "It's good to see we're waiting for health Canada's approval. I have no trust for any American organization.",  
 "I will get the vaccine - mRNA vaccines are safer than the old generation of vaccines. Furthermore, they have not been rushed, only the bureaucratic ass shed". They went through phase 1, 2 and 3 trials as any other vaccine. The vaccine was developed in February; it took until November to get results. Done shed to me.",  
 "I'm not sure what the issue is. The vaccines have to be approved, then manufactured and then distributed to countries. Does ANY country have a plan?",  
 "hard for provinces to make plans when they have no idea when they will receive it...shall we keep the freezers chilled til September?",  
 "The US plan is to start vaccinating their citizens next week and to be 100% complete by June.Canada has no vaccine and no supplier.",  
 "So you're saying you can't make plans until you have all the information? then their plan is fantasy.",  
 "obviously, Nov 22, 2020 \x97 US, Germany and UK could start Covid vaccinations as early as the 11th or the 12th of December",  
 "Only one word come out of their mouth JT, Tam and Patty from Jan till March. "THE RISK TO CANADIANS VERY LOW". The Chinese virus spread like wild fire risk was very very high. Trudeau says",  
 "Hard to blame them, they didn't suspect that the uneducated in Canada would make things this bad.",  
 "Trudeau is to blame for not closing our airports and borders for months and months as virus poured into our communities. Trudeau is to blame. Trudeau said the virus didn't pour into the country like that. Ten or less vases came in and it spread from there.",  
 "for a limited time and in this case - an answer I don't want from Justin Trudeau. Trudeau says",  
 "A doctor stated that it should take 10 years to formulate a safe vaccine, this rush job sounds suspect?",  
 "Is Trudeau going soon? I thought that the libs were putting Chrystia in charge. Is that going to happen as quickly as well? Trudeau says",  
 "No one trusts you anymore Trudeau says",  
 "The Libs are going to drop the hammer on working Canadians by having the CRA hassle them for a few hundred dollars on some forgotten T5. Meanwhile the takers are swimming in money.",  
 "Not sure what the rush is. Not one province has submitted their distribution plan yet.",  
 "It's absurd how a virus turns into the usual political argument.",  
 "I will get you that information on WE and how much my family received, as quickly as possible. Everything with this clown is as quickly as possible. We have borders, as quickly as possible. We will balance the Budget, as quickly as possible. In other words ...he has absolutely no clue about anything he says",  
 "And yet we are handling the pandemic better than most countries and Trudeau's support has increased.Maybe the cons can try some more faux rage and commitees again.",  
 "no we aren't. We have 12000 dead. Who are you comparing us to? the rest of the world, we are handling better than most. We are #23 on the list of most covid out of 196 countries. So no we are not doing very well at all. We are doing very poorly.",  
 "But the Libs have managed to spend a lot of money... maybe they should have given every citizen a \$100 bill to use as a mask instead.",  
 "Zero liability for the manufacturer and no national law injury compensation in Canada. Anybody concerned at all about those things?",  
 "We can thank our lucky star we didn't elect as PM a guy who would have followed Trump's lack of leadership on COVID.",  
 "So Canadians are sliding backwards in the vaccination line. This will be a quiet Christmas. Wonder if Trudeau will have a tree in the cottage? He can over for egg nog. Trudeau says",  
 "So, O'Toole now declares another SCANDAL... and hardly anyone is listening",  
 "To the Libs, procurement means they have added it to their wish list for Santa.",  
 "Procurement for any political party is a slow, painful process it seems. Approving vaccines , etc. is probably in the same bracket.",  
 "Trudeau and the Lib squad are big on rhetoric and very short on specifics. Trudeau says",  
 "Did CF discuss this last night. Reading the comments in here you can see why the LPC sees it as an issue.",  
 "as quickly as possible. About as committal as the Prime Minister can get. Typical",  
 "Another clever Liberal slight of hand supported by their media. The \$400 work from home tax deduction - likely a non refundable tax credit - meaning you instead of the thousands of dollars you used to be able to deduct. With the word "work" in the sentence, the Liberals wanted to shut down the tax deduction.  
 "This is the open and transparency you get. I say to Canadians: hang on. We can get through this winter together and relief is on the way as quickly as  
 "Yes it is called opaque",  
 "Me: Hey son, when are you going to shovel the snow? Son: I'll get it done as quickly as possible",  
 "Conservatives are on fire again. Canada must be winning.",  
 "Pfizer announces they have a vaccine... We are told 3 million Canadians will be vaccinated by end of March (6 million vaccines, 2 shots). Moderna announced a vaccine... Still only 3 million Canadians will be vaccinated by end of March. AstraZeneca announces they have a vaccine... Still only 3 million Canadians vaccinated by end of March. Talk of Johnson & Johnson nearly ready to announce they have a vaccine... Still only 3 million Canadians will be vaccinated h. Yet we have deals with these companies? Shouldn't Canada be receiving some number much greater than 6 million vaccines by end of March? Each new vaccine available from a company that Canada has a deal with should increase the number of vaccines coming to Canada in the 1st quarter of 2021, to some number much n 6 million. Shouldn't it? (J&J is a single-dose vaccine) ",  
 "Procurement means nothing says O'Toole...luckily we don't have conservative government..",  
 "Procurement for the Liberals means major delays due to their incompetence for Canadians.",  
 "It's amazing how many people are convinced this vaccine will be important to them and there is back and forth blaming of Liberals vs Conservatives who knows anything about a medical disease. Here is a dose of reality: If you are under 60 and healthy, you are going to get through the Covid era with vaccine.",  
 "My grandson says he can run a 5 min. mile. My wife says she can run it in 30 mins. but cannot guarantee a finish. Both claim they will do it as quickly. The point being as quickly as possible has little meaning as it depends on your perspective.",  
 "I wouldn't be expecting Canada to be fully vaccinated until next fall possibly even sometime in 2022. This isn't gonna get all done in a few months tho ot to mention we still don't even know how long the vaccinations will even work for yet, could be only a few months",  
 "I'm not an anti vaxer, but I will not take a vaccine that has been rushed. These vaccines are experimental messenger RNA (mRNA) and are being rushed out as the ONLY solution. My body my choice.",  
 "We get that the military will help in the deployment of a vaccine. We get that the gov't says millions of doses are secured (38 million people.) We you to keep repeating this PM Trudeau. We get it. We need information on how the approval process is going and when you expect this to happen. As quickly is pretty open ended and not very promising.",  
 "This will keep the left up at night. Detail from last nights spiel by CF. Building off a commitment of \$350 million made in Budget 2016, the Government gave an additional \$606 million over five years to support the CRA's efforts to crack down on tax evasion and combat aggressive tax avoidance.",  
 "In Liberal/CBC Canada, it is not what you do, but what you say. No performance required. as quickly as possible",  
 "Lots of complaining from the Party that is going to lose tons of seats next election.",  
 "Don't question what they'll inject in your body, anyone. Just smile and roll up your sleeve.",  
 "Why in earth did the liberals not ask all the vaccine manufacturers to keep us informed and part of the tests since day 1. People are Dying",  
 "Topo Gigo gone for the night?",  
 "The US will definitely keep the border closed with the Post National State until the end of 2021 now.",  
 "No government can please everyone, at least here we don't need to wait for richer nations donated vaccines.",  
 "As quickly as possible now or what could have been under a more competent government? Incompetent",  
 "Liberal times are hard times.",  
 "In general I think Canadians are getting tired of uncertain answers. Like how soon is as quickly as possible. Obviously JT has no idea when and doesn't provide an answer only to be potentially wrong later.",  
 "Gigamonster is a bit of a digital troll. He likes to post things that are not his own. He likes to post things that are not his own. He likes to post things that are not his own."

'Say first, figure out how to do it later. sort of mentality when it comes to most things. It\x92s just become more obvious during the pandemic.',  
'Deflection as a Liberal exceeds at.',  
'That deal was abandoned after the regime in Beijing blocked shipments of vaccine samples meant to be used in clinical trials in Canada. Well that's a ryone but the Libs. LOL',  
'Then why the HELL did the current government enter into a vaccine development deal with China? Answer the question as to WHY the current government di  
'Trudeau's no shining light , that's a given.',  
'So liberal loyalists put their faith in the declaration of a Moderna executive who has not received regulatory approval , has not vaccinated one Canad  
t committed to a delivery schedule with timelines and quantities if approved. Liberal loyalists are a gullible bunch.',  
'In other news, Justin won the race, but he is still standing in the starter blocks.',  
'Drama queens.',  
'Since Justin was sleeping at the switch. Maybe Canada can join the USA, to get the vaccine?',  
'In time we will all be forced to get vaccinated like the rest of the world. The world will make it a mandatory requirement for places of business to r  
it be bars and pubs to grocery stores.UK has already put the suggestion out there to the people.',  
'I'm not an anti vaxer, but I will not take a vaccine that has been rushed. These vaccines are experimental messenger RNA (mRNA) and are being rushed o  
as the ONLY solution. My body my choice. And I don't care what cyber war fare is going to be launched to try and silence any criticism of how these vacc  
created.',  
'The Spanish Fly, distant relative of DT or Bathy?',  
'Did Trudeau stack Health Canada with unqualified friends and family as well?',  
'Trudeau and Tam are responsible for the death of many Canadians as a result of their ineptitude. The lack of a plan RE: the vaccine is further evidenc  
ptitude.',  
'The altered Universe of the leftist media. Trump - Vaccines being flown in right now. Trump - Vaccines being flown in right now. Media - Trump bad, Tr  
nse, repeat.',  
'I want Canada to approve the vaccines for the Corona V. before I use it to protect myself and those around me. I understand RNA. What a great time to  
'What an obvious thing to say. "No, after getting the vaccine, we think we will take our sweet time rolling it out....", says no one.',  
'Exactly, Canada is in the same boat as the rest of the world, except we are we have reason to believe we are among the first who will receive it.',  
'Wonder if the left has figured this out yet?? Nope, they think 2025 is a time in the 24 hour clock. The first is the size of the increase in the feder  
tatement tabled by Finance Minister Chrystia Freeland projects the annual federal debt will almost double from \$721 billion last year to \$1.4 trillion i  
eans the debt increases \$650 billion, the result of piling it on for four more years after this year\x92s \$381-billion extravaganza.',  
'Still preaching from the steps of the cottage I see.',  
'If there is more than a 3% chance of complications from the vaccine, you'd be better off getting the virus",  
'Plane loads of vaccine heading to the US. Canada dining on Lib/CBC subterfuge.',  
'Vaccine distribution. as quickly as possible. this is a delicate dance. in other words...don\x92t hold me responsible. May be the press doesn\x92t kno  
uestions',  
'I am so glad I was taught to think critically and question things, especially insane things like this vax. Good luck to the rest of you.',  
'Libs again struggling to be relevant, factual and respect the T&C. Well actually its just the same thing from them every day.',  
'Just saw on PBS in the US that they have firmed up their distribution plan by month starting in Dec for Health care workers and ending in May for the  
tion in descending age groups. How difficult can it be for our government to be working on this task while concurrently ensuring the vaccines are safe?  
anti-vaxers will not be logical or rational in any event. Nothing JT can say will change their minds so basically a waste of time and resources to ally  
since nothing will.',  
'Our government is working on the task. Didn't you read the article? When we get the vaccine, everything else will be ready for it. Moderna says we wil  
e first countries in the world to get the vaccine. What more do you want?',  
'moderna actually said we are NoT the last. Nice libby spin tho.',  
'Moderna did NOT say that. They said we're 'near' the head of the line. Being 'near' is not being at the head of the line.',  
'False promises. Mismanagement. Financial scandals. Divisive policies. I welcome the upcoming spring election.....as do the experts. NDP & Green Par  
'again for the con potatoes here tonight',  
'Um, you do realize that 'near' the head of the line is NOT 'head of the line'?',  
'do the damn research...let me get you started...It's called GOOGLE. Nope. Please stop saying you researched it. You didn't research anything and I dou  
perienced how. Did you compile a literature review and write abstracts on each article? Did you collect a random sample of sources and perform independ  
y statistics on the reported results? You found something in your algorithm manipulated feed, something that complied with your personal bias, applied y  
filters and declare it\x92s proof. ",  
'No need to get angry there. Take the vaccine and move along. Really, its your body your choice. Leave the semantics and just be calm. I'm sorry...do f  
? Angry? Not a chance. To suggest that Google is doing research is hilarious.",  
'Moderna, open thread with the CBC on here. 7700 posts, few from the alt left. Either there were not told or are not allowed there',  
'For the distribution of the vaccine sure reassuring to learn our military is better qualified than burger bros.',  
'i prefer FedEx thanks.',  
'Who else but the military would you prefer to carry out this complex mission.',  
'FedEx, UPS, Amazon. Etc. Military adds one year minimum to rollout.',  
'The Procurement Minister is doing a great job.',  
'Said no sane person, ever.',  
'You mean Porkcurement?',  
'Based on what? How many Canadians have been vaccinated?',  
'According to the people who would know she has. It's public knowledge.",  
'Because she's procured NOTHING? That's public knowledge.",  
'Messenger RNA technology is NEW for humans. It is simply unbelievable that the majority simply can't wait for this injection and don't mind one bit th  
' in a few months. How brain dead people have become!",  
'you need muting. It is OPTiONAL. Dont take it. Please.',  
'not a bit. Thats how testing is done. Voluntary too',  
'I am so glad I was taught to think critically and question things, especially insane things like this vax.',  
'It'\s actually not new for humans - it has been used with success in other applications (mainly oncology treatments). I appreciate your reservations,  
cases like these, we sometimes have to have some "faith" in the limited trial results we have. While it'\s possible we could all mutate into zombies in  
's also highly highly unlikely. The alternative (just waiting to get COVID or hope it mutates itself out of existence) is not very appealing either',  
'So you did no research? How else do you explain your conclusion.',  
'Most people have no or mild symptoms! It is not as scary as we're supposed t believe.",  
'Oh, I agree that your risk of dying from COVID is low (like less than 1% depending on your condition). But the risk of dying from this vaccine appears  
uch smaller than that (i.e. no one has died from the 10's of thousands who have taken it), and it's 95% effective in preventing COVID infections. Long-t  
ons are possible with the vaccine, but I'd suggest they're far more probable with COVID. So the math tells me, get the shot.",  
'"95% effective in preventing COVID infections" - wrong. The vax is only going to reduce symptoms, not prevent the virus.',  
'Oh my God...I think you just open the box...A lot of mindless zombies on this site are about to descend...',  
'\xa0I don\'t think you know what "infections" are. When the virus enters the body and starts to multiply rapidly because it has either overwhelmed the  
ses, that is an infection. With the vaccine, the virus starts to multiply but is quickly stopped by the already-primed body\'s defenses. The period of u  
plication is so short that we can\'t even recognize that it happened - hence we say it has "prevented infection".',  
'Just boggles the mind, how many here have no clue...You know, I have no objection with you getting "the shot"...just don't impose your irrationality  
'WHAT!?! did you just say?...why do I feel like I need a shower?',  
'Are you talking to me? If so, maybe you can tell me why you think I have "no clue" or where you think I\'m "imposing irrationality on others" Or why y  
ou need a shower (unless that\'s personal).',  
'just my speculation but I think certain versions of this vaccine are going to make people infertile. They've been working to depopulate since the 50's  
tries have signed onto the UN population control agenda. I just can't think of a better way to depopulate that to make people infertile through a vaccin  
'It NORMALLY take 5 years to properly vet a vaccine.yet here you are advocating taking an experimental unproven medication(technically only people who  
ake a vaccine for influenza)...But hey, you are free to do so.',  
'I agree that the approval process for medications in general (not just vaccines) have been shorter, and that long-term effects can be ill-understood p  
al (e.g. Oxycodone, Proton-pump inhibitors, etc.). There's no doubt too that the rush for developing this vaccine is a cause for concern. However, given  
data in trials to date, I'm comfortable that the benefits associated with it outweigh the risks (which I think are remote). If you think the risks outwe  
ts, that's fine, but you're definitely weighting as yet unknown risks, since no serious adverse effects have been reported to date",  
'Yes, well...The science isn't set, so...I would rather have questions that can't be answered..than answers that can't be questioned.",  
'The ethical principle at play is that you've "done no harm" - i.e. the placebo people live the same way they would if they hadn't even been in the t  
outcomes are no different than if they had been in the trial or not.',  
'cons spreading the mis-info.. and Fear.. led by baby trump',  
'\xa0just can\x92t let go of Trump eh, obsessed',  
'justin leads the libs what are you talking about',  
'get over yourself sweetie. You liberals all need to be lined up',  
'Get your own inflatable Trump.',  
'baby trump',  
'I vote NDP',  
'im not cons are for leaders and finace critics',  
'Gobbledegook',  
'In case you missed it, here it is again. The drugmaker Moderna announced highly encouraging results on Monday, saying that complete data from a large  
coronavirus vaccine to be 94.1 percent effective, a finding that confirms earlier estimates. The company said that it applied on Monday to the Food and  
ation to authorize the vaccine for emergency use, and that if approved, injections for Americans could begin as early as Dec. 21. Thats the US, they do  
vals in Canada.',  
'Liberal kiddie corps trying to be relevant after being locked out of the CF thread',  
'What are you talking about? Trump deserves a lot of the credit for these vaccines, and he's touted them for a long time.",  
'As quickly as possible is not an answer.',  
'It\x92s the official Liberal answer.',  
'It just happens to be very open to interpretation.',  
'island time is liberal time',  
'The virus will balance itself'

the virus will balance itself..',  
'Oh look at that the oTOOLE says we are at the back of the line.. Yet Moderna says were at the front. Who to believe.. baby trump or Moderna?','  
'Moderna did NOT say we're at the front of the line.',  
'Oh look, another defender who was not allowed out by the LOC last ight.. Well lets do with the Leader of the Opposition. Why you cry. Well because, Mo  
pprovals thats why.',  
'Did Pablo the LPC House Leader sign your papers?','  
'yes they did.. we are at the front of the line read.. you potato',  
'Well, when someone who posts inaccurate facts resorts to name-calling, consider me convinced.',  
'Why do you find it necessary to post utter nonsense under someone else's name?','  
'Well, since you asked...IF Moderna (like all other Pharmaceutical Companies get their immunity from prosecution.',  
'Who voted for that guy?','  
'The same number that will vote to re-elect him next time. The best thing Canada has going is the assurance only 30% of Canadians are fool enough to su  
quoted idiocy of conservative ideology. Canada has always been a liberal society, remains a liberal society and will always be a liberal society.',  
'Don't blame all of us from the maritimes.',  
'Dr. Igor Shepherd is trying to warn everyone about this vax, as are many other in science and medicine.',  
'Could you not find someone a little further down on the crackpot scale? Just google his name. "He believes that this fake pandemic is the means by whi  
global government will be ushered into existence; one that cannot be voted out."',  
'You have noticed that globalists are taking over the world, right?','  
'as quickly as possible. Well that's pretty open-ended. the independent scientists reviewing the clinical trial data. Are these the same independent sc  
took FOREVER to finally approve rapid testing? And only did so when I'm sure the Liberals internal polls were telling them that Canadians were getting s  
of waiting for rapid tests to be made available?','  
'I'll never vote Liberal again!',  
'Kenney won't either, how about Harper, O'Toole or Scheer? lol'',  
'You can join the inconsequential 30% fool enough to support the archaic irrelevance of conservatism.',  
'rennet who won the popular vote bud. Remember who Canada truly wanted. Deny deny all you want but you are still outnumbered',  
'Conservatism isn't irrelevant just because you decided it is.',  
'Didn't the doorstep salesman period end years ago.... not a place known for reputable claims.',  
'Failed internationally, prove to state multiple falsehoods, proven unethical acts, has newfound guilty of abuse of power while in office, he delays or  
ic investigations that would publicly confirm his innocence, this is Canada\x92s PM. Trudeau your incompetence is beyond measurements!','  
'Poor Robby, you trust the cons and were duped!','  
'Many Many thanks Mr. Toole telling the truth last night, You are true hero.',  
'Hopefully the RCMP investigation to the WE and SNV lavalin matter will either clear the PM or sink him. Either matters to me as long as the conclusion  
acts and the truth be exposed',  
'As quickly as possible is pretty open ended.',  
'If the vaccine works then anyone who takes it shouldn't care if others don't.',  
'No. Some of us do care about the costs due to others' idiocy, such as the societal cost and the cost to the health care system plus the few for whom t  
l not work.',  
'5% ineffective. I get it I take you out not with Covid either',  
'I'm sure the opposition critics and some premiers will go straight to the head of the queue once a vaccine is available",  
'and some premiers couldn't even take care of their own province in the past 8 months. So no room to complain.",  
'And the current PM hasn't taken of the country either.',  
'Let's not forget how the country was kept open until his wife and mother got back from their paid gig with a government funded charity and brought the  
th them, and how he went from Ottawa to Quebec for Easter when we were not supposed to go to other provinces. He allowed asylum seekers to continue to c  
r and admitted more legitimate refugees by the thousands. Yep. He sure took care of us.",  
'No date, no vaccine... easy to see these cats were not leading when proroguing.',  
'You dont want it anyways. Admit it.',  
'actually I do.. but after the vulnerable and healthcare workers get it. I used to work in infectious areas so the current precautions and such are no  
. I actually wore a mask when traveling to/from Hawaii on Jan 17th due to this virus, saw this coming on Jan 2nd.',  
'Getting this vax is the last thing I would ever do. I enjoy life.',  
'Stay in your basement away from the rest of us.',  
'And we believe this guy with his endless promises',  
'What promises in dealing with COVID has he not kept? He listened to the need to expand the CEWS, they continue to listen to groups about the stimulus  
p evolving, the gov't has largely been there for folks hurting....what is your issue, specifically?','  
'And to clarify, I didn't vote for the guy, but I honestly don't get the vitriol sent his way non stop",  
'as quickly as possible is a generic catch phrase people use when they don't have an answer to the question being asked. It has no meaning.",  
'Like Trudeau's majority of Canadians. Is that a 30% liberal majority? You know 30 % of the voters or just about 20 % of our population.",  
'It must really bug you to know he'd win again if we had an election tomorrow.",  
'how do you answer and unanswerable question? When will we be getting the first vaccines from a product that has yet to be proven to work and approved  
ory agencies?','  
'I don't like our PM , but he is doing his best to get the vaccine . I believe in early February or March we will be getting lots of vaccine .It will b  
er for hospital and nursing homes .",  
'you \x93 believe\x94. Sweet.',  
'Gobble, gobble.',  
'I believe is right up there with as quickly as possible and health Canada\x92s approval.',  
'Coronavirus vaccine should go to health care workers, long term care facilities first, CDC panel recommends. Trudeau will follow.',  
'of course - why wouldn't he? I see grocery workers and other required workers are also further up the line",  
'The scariest part of all is that he never seems concerned about any crisis while our Premiers are appearing stressed to the max.',  
'Why is it scary that he is appearing calm and collected, while also reiterating the emergency it is and the gravity of the situation?','  
'pretty sure he\x92s never experienced an uncomfortable moment his entire life',  
'what's to be afraid of? You turn and face the danger and remain calm",  
'Justin and his cabinet of incompetent flunkies are going to blunder this roll out just watch.',  
'No more and possibly less than your favoured government would.',  
'\xa0level of actual education and competence is orders of magnitude higher in the LPC than the knuckldraggers in the CPC my friend - lol Kenney is a J  
ool dropout, Andy couldn't pass a broker's exam, half the CPC members never finished high school",  
'Canada has a commitment from Moderna to be included in their initial production. The US supply is being made in the US. Our order is being produced in  
The only reason this became an issue is because O'Toole and the conservatives tried to use it to gain political advantage. But there was never really a  
'ahahahah thats why the liberals have been in full damage control for days now. premiers demanding a plan and date from the feds but yes you're right,  
servatives!','  
'Wasn't that what Bryan was saying. OToole's fake news.",  
'I lost many brain cells just trying to understand your point. The liberals have no plan, no vaccine, no date to receive one, and not even what place i  
is in.',  
'Do you really know that little about how our it works? Canada has an excellent healthcare system. They do millions of vaccines every year.',  
'canada has an excellent healthcare system? are you insane?','  
'Why did CBC run a story about Russian vaccines all of a sudden?','  
'I am typing from my psych ward. My Four Seasons.',  
'There's contracts and good relations. Objective studies do not have final buzzers, they have statistics.",  
'More cons who don't know what the truth is or how to find it. Canada's Public Health Dept. has been doing millions of vaccine doses a year for decades  
r of public record.",  
'If it was a woke flag waving event, our ever so lovely PM would be at the very front of the line, posturing and preening in front of the media as alwa  
something important, as always, this utterly vacuous fool fails miserably.',  
'Not even a clue.',  
'Ontario has Hillier and Canada has Dany Fortin. Why one Canada and one for Ontario?','  
'there should be one more. Army does everything in triplicate lol.',  
'Depopulation. Plain and simple.',  
'Then it appears to be very ineffective. The death rate is low and it does not appear to negatively impact fertility.',  
'Along with the recent ruling in Portugal, there is going to be a growing amount of evidence for lawyers in Canada and elsewhere to pushback against lo  
a the Covid PCR testing systems we have in place.',  
'Trudeau says vaccines will roll out as quickly as possible after Health Canada approvals. Gawd....we do not want an undefined abstract like as quickly  
ut rather a defined timeline. 4 hrs, 48 hours, a week a month.please define as quickly as possible Mr. Trudeau.',  
'That is in the hands of Health Canada once it becomes available.',  
'sooner than slowly but not fast.',  
'Read my comment again.',  
'What part of after Health Canada approvals do you not understand?','  
'As quickly as possible, means just that. He isn't going to commit to XYZ dates, because then it would be "OMG, he is demanding Health Canada approve  
tes',  
'Prime Minister Justin Trudeau today sought to reassure the country that his government will be ready to deploy shots as quickly as possible after they  
ecessary Health Canada approvals. What that means...Once Big Pharma get their "immunity agreement", then the vaccine will be available.',  
'Look on the bright side. We are not living in the USA and they have more cases than all nations combined',  
'And that means Canada, we\x92re back?','  
'We are not New Zealand either where there are virtually none.',  
'Canada believes she\x92s non-exceptional just so she could be exceptional.',  
'I prefer to be compared to the cream of the crop rather than the bottom of the barrel.',  
'People here a miserable and cynical bunch. Sure its all Trudeau's fault, as per usual. Cry me a river. We are getting a vaccine a lot sooner then anyo  
We should be thankful for that instead of politicizing a pandemic.",  
'yea libs don\x92t politicize anything lol.',  
'LPC defender suggesting he does not generate false narratives... Made the coffee come out mv nose..'.  
'

'as quickly as possible confirms he has no idea.',  
'If he said December 21st and it turns out to be December 22nd I'm sure you would have a massive stroke over that.',  
'Just in time for we don't need it. Trudeau and the gang are following the globalist script.',  
'The misinformation from O'Toole the fool is stunning. And the neckbeards believe everything he says.',  
'good at name calling.',  
'Learning from JT cult members',  
'Of course they believe anything he says. They patently don't do any research on anything they believe. The closest they get to research is reading per  
om other similar weirdos.',  
'I read and learn from similar Trudeaus',  
'What are you trying to say exactly? Think about it, push the buttons. Take your time so it's legible.',  
'Weirdos ... Trudeaus ... get it?',  
'And the Trudeau minions eat up all his fairy tales.',  
'But it's okay when right wingers name call Trudeau and his supporters. Okay then.',  
'you your is grammatically incorrect',  
'what did otoole say - specifically?',  
'they are the masters of empty insults.',  
'They are simply empty',  
'hard to disagree. They lower the level of discourse for sure.',  
'The cons are definitely low brow and gullible.',  
'I can think faster than you can walk.',  
'Why not just say who knows when?',  
'This will be rolled out when WE and Maggie are lined up to benefit from it.',  
'Expect labour day next year. That's what Trudeau calls as quickly as possible.',  
'This is not your traditional vaccine, it does not contain the virus (dead or alive). It's using a gene based platform that has never been used before  
d vaccine for humans. Rolling out a new type of vaccine on such a large scale with no long term studies seems irrational and should definitely not be ma  
way."',  
'DNA and RNA-based vaccines: principles, progress and prospects - Author manuscript; available in PMC 2007 Sep 19.',  
'there's already lots of talk about it being mandatory for work and school. Will nurses be required to take it? They won't make it mandatory until they  
people will volunteer for their experiment. Make no mistake, that's exactly what it is, an experiment.',  
'Don't get the vaccine if you choose wilful ignorance. There may be consequences (possible barring from public places). That's up to you.',  
'barring people from public spaces means it's mandatory.',  
'Hey, you're perfectly free to take it...no one is denying you right to do so...Yet...you seem to think your fear factor trumps my common sense.",  
'That is exactly what they are hoping for...They know to "mandate" it...is to insight opposition and push-back.',  
'TOTAL failure PM.',  
'Pure coincidence no doubt. Likely nothing to do with CF and her spiel yesterday. Paul Rochon, the deputy minister of Finance Canada, is leaving after s  
arge of the key federal department. Dec 14th, last day.',  
'following Morneau. Escaping before she goes under.',  
'perhaps a person of integrity. Few of those in this govt.',  
'Canada distributes millions of vaccine every year. We have an excellent healthcare system. Despite con efforts to try to tear it down.',  
'lol. Thanks to the provinces we do. The wreckers are Trudeau's troops.',  
'While the vaccines may be effective in the short term, I have high doubts as to their durability. How often will we be asked to get boosters? Annually  
y?',  
'Agree, without the self-congratulatory rhetoric, this could have been handled in a paragraph. A star is born...ha, ha',  
'Are those numbers the vaccine that they've ordered or ordered and procured? The pm was saying the other day that we're at the end of the line, but Mod  
t so, what's the real story? Bigger question, who's paying for this and how much will it cost anyone?',  
'taxpayers overall pay. borrowed money, Free to individuals. They will not give the honest story. Liberals after all ',  
'as quickly as possible, Trudeau seems to say a whole lot of nothing.',  
'Vote Conservative Next Time. they speak and the speak transparently',  
'it would make more sense to do so',  
'the Libs do it mostly',  
'Trudeau is shifting out Billions to friends and some voting groups; it takes time. If we are vaccinated NOW there is no need for the billions',  
'I have a brain that doesn't generate false narratives',  
'Trudeau could use one of those as well',  
'You ever post any for yours? Any view on this from the G&M. Paul Rochon, the deputy minister of Finance Canada, is leaving after six years in charge o  
ral department. Last day Dec 14... Any idea why?',  
'Oh yeah. Tell us about your military service? Elevator ride in Calgary and no one wearing masks, Remember those.',  
'As long as the vaccine doesn't come from China or Russia I'll consider it",  
'I don't know about you guys but my worst fear is the Canadian government brainwashing and poisoning us by giving us rushed COVID-19 vaccines.",  
'the brainwashing is in the narratives spewed by this vapid Government... in lieu of actual pandemic or vaccine solutions, tangible budget, any account  
gible recovery plan',  
'\xa0It's called a general lack of trust of everyone!",  
'Covid has a 99.8 % survival rate without a vaccine, the promised untested vaccine has been promised to deliver 90% effectiveness in a virus that 99.8%  
vive? Welcome to the Twilight zone.',  
'I'll wait a couple of years at a minimum before taking it',  
'feds are not that clever lol',  
'Why take it at all?',  
'A 99.5% survival rate means a 0.5% mortality rate. Hmmm... Something seems to be wrong with your figures. Across Canada we have had a 3.6% mortality r  
d hit. My figures come from CTV. Where are you getting your information?',  
'I'll support your choice, if you agree that should you get the disease after refusing vaccination you'll pay for your own Covid care.",  
'I asked a question. I did not voice a choice.',  
'as quickly as possible, Like most things with the government you have take what they say with a grain of salt and use your best judgement. Remember...  
is not your friend.',  
'1% (370k) of Canadians have contracted Covid-19 .. SO FAR! Of that number, 3.25% (12k) have died .. SO FAR! Canada has done a VERY GOOD JOB at control  
emic compared most industrialized nations in the. Seems to me that some very good decisions are being made. Also seems to me that a small minority of Ca  
t very appreciative of that fact.',  
'Given the number of people who are wishing for an early release of the COVID vaccine and are set on getting their dose ASAP, I wonder how many of them  
MOs in food? After all, one is genetically modifying what we eat, with a large amount of conclusive studies showing no negative impact. The other is a n  
or for a vaccine, never before used in humans, that has NOT yet completed Phase III clinical safety trials and WON'T until late 2023, that directly gene  
ts your cells to create a protein spike for antibody production.And if ONE anti-GMO person comes out in favour of an as yet experimental mRNA vaccine, t  
knowledge and intelligence, as well as their ignorance-based hypocrisy will be laid bare for all to witness. ",  
'Do you honestly think that an already over-reaching gov't won't take some sort of action to FORCE people? Like withholding your drivers' license or pa  
ax rebate? Your ability to work or go to a store? Those measures would last about a week and a half before the citizens took over. And then watch whatev  
hospital ERs!",  
'Tony I meant the govt generally. Interesting question about work? I don't think as a general rule you can be forced but would have to consult a law  
t strongly.',  
'joe i guess justin could try but that would be chaos. Possible i suppose. Lots would say no out of principle\xa0',  
'as quickly as possible. Can we have a date Trudeau? You did promise from your podium December this year. Did you forget what you said?',  
'Guess you didn't bother reading the story, vaccines rolled out as quickly as possible and the vaccines will be procured in the first three months of t  
d vaccinations will start in March and we have the freezers and syringes already in place",  
'He will just throw money around and hope people will forget.',  
'As quickly as possible when they are still negotiating delivery. What is the date? Provide the date.',  
'The UCP in Alberta cut healthcare jobs by the thousands in the face of extraordinary rising Covid 19 Cases. Imagine the cuts these inn breads would at  
a pandemic.',  
'more BS, money is given to the health services they spend it. If they want to pay all the top dogs over \$600k and not lower services, that's up to the  
'Greasing the Party wheels, buying votes it all takes time.No rush on the vaccine.',  
'Same old ,same old from O'Toole and his reformer/cons. Strange he never says a word about that Conservative province out west . Why doesn't O'Toole as  
has a plan",  
'Unfortunately Mr Nice Hair is PM',  
'What does Angry Erin not understand about rolled out as quickly as possible and the vaccines will be procured in the first three months of the New Yea  
ions will start in March and we have the freezers and syringes already in place? I think he has a hearing impairment of some kind.',  
'When will the liberal god come up with a plan',  
'Kenny would Crush JT in any battle',  
'And Trudeau dragging his heels on a plan and just throwing money around has resolved this problem how?',  
'As quickly as possible. Thanks',  
'Labour day 2021. Good for you?',  
'Otoole administered the Russian Vaccine to his family before catching Covid. He still believes a tweak here and a tweak there will make the low cost s  
e for high risk Canadians. The possible savings are worth the risk.',  
'trudeau gave his family the liberal vaccine. They all dropped their IQ points. Not they could drop much though',  
'drivel like that is unhelpful. Keep tryinh',  
'What a bunch of whiners. They should read this, scroll to the figure at the end',  
'Very good. It is what we have been told. The whiners should complain that we are too near the front off the bus.',  
'Firstly, Canada need not take ages to approve the vaccine. If it is good for America and Europe our guys are not going to reject it. As such, without  
just go ahead and approve it. We are a nation of followers. We do not make statements by rejecting things that others accept. Secondly, what is as quick  
? Doesn't the government have a plan? Why can't the PM give some numbers and a time plan? E.g.: We will approve/disapprove within 1 week from receiving  
ill vaccinate XXX people within the first week. We will expand that to 1 Million within X weeks. That is what people with plans say. JT has got nothing

"They have a plan. All they need to do is add the dates to it. The problem is that we have no firm dates for when OUR vaccine will be manufactured. We w whether OUR vaccines will make their way to Canada, or be confiscated by the country in which they are made for their own use",

'Justin needs more time to shift the billions out',

'Health Canada has temporarily shut down due to covid concerns',

'I guess empty air planes are coming back from china again.',

"as quickly as possible. So how much of our money is Trudeau using to bribe Health Canada to drag their feet on approval to buy him time? It's a honest dishonest government.",

'This government never denied that Covid was a major concern. The government south of us proclaimed it was a hoax and did nothing.',

'The government announced the \$44 million project in May as part of a partnership between the NRC and a Chinese company to develop a made-in-Canada vac we wasted our tax dollars again.',

'In other news, the finance canada deputy minister resigns, undoubtedly because he knows what the liberals plan is going to do to canada, and wants no "as quickly as possible, Any word on how soon Canadians will get Trudeau's vaccines - after his UN buddies are finished?",

"Russian vaccine story about how good it is. CNN got criticized about not being true. CBC takes a lot of reports directly from them.',

"roll out as quickly as possible after Health Canada approvals. who says they're going to approve anything? Oops, I forgot about the gun to their heads

"We have no expertise here to develop any vaccines. How do you expect them to critically analyze any potential vaccine? Health Canada right now looks l baboons trying to work a TV remote. They'll get there - but it's all for show.",

"Canada's Deputy Minister of Finance, Paul Rochon, announced his resignation today. Questions will be asked.",

'when the liberals elect a drama teacher to be the PM.anything goes.',

'Otooles Russian Vaccine would be used on the unionized Health Care workers first..',

'A Conservative Approach.You first.',

'as quickly as possible. A straight answer would be nice.',

'instead of no clear answer.',

"The only answer they can give is that it will get here when it gets here, and we'll distribute it as quickly as possible when it does. The arrival dat y out of our control.",

'Otoole would be touting the Russian Vaccine and getting it at a 75% discount',

'That would save a lot of money if it works!!',

'Probably better than the China deal Trudeau did where they took our money and said they will deliver nothing.',

'They shipped nothing, and as a result were paid nothing.',

'you like to stir the pot and cause chaos like the other liberals',

'Mack is a paid Liberal poster. BS is his business.',

'CBC paving over another pothole in the Trudeau highway of failure.',

"I wonder what percentage of seniors will be vaccinated by the time they've vaccinated all the politicians? I'm a senior and am sure the politicos will nes before I do.",

'In my circle of investors, we just finished divesting a combined 1.25million in various Canadian stocks/investments...and shifting solely to U.S. We' lly "Canada Free". Most of us are just buying U.S. greenbacks straight up.',

'you need to prove that - or else its no different then saying you and your team ate cotton candy instead of working',

'50 Cent Trudeudollar coming. CBC will cheer and find a corner case story that makes it look like a success. While the main economy is ground to dust.'

'I was thinking of using my greenbacks as toilet paper because the drugstore ran out of it.',

"Good for you. Your circle of investors should know that the Canadian economy was better than the US before the pandemic, and is still performing bette today with more jobs recovered than the US, per capita. If you're smart you should also divest your oil stocks before the coming tsunami.",

'We ran the numbers ad nauseum. The U.S. economy is already recovering and Canada is ham-stringed by a delayed vaccine rollout. U.S. dollar will natura high demand, while the Canuck dollar will crater. If you're smart you should also divest your oil stocks before the coming tsunami."',

'I think they will do their best. I refuse to believe that the health and well-being of Canadians are not the most important things to this government. 'the most important thing to this PM is to be re-elected with a majority so he can stifle any and all investigations into his, to say it mildly, miss b

"Oh Sue, that would be lovely if that's how it worked",

"They are doing a good job compared to most other countries. The Cons on the other hand are swaying in the wind desperately hoping for some traction be election. O'Toole, Poillievre and Rempel have their winning strategy on display, that is to provide as much mis information as possible, never mind the ck with that. The only consistent thing about the Cons is that they never learn.",

"We are taking on debt so Canadians don't have to.Say what.Who other than UStax payers have to pay this back. This massive debt is on our kids and gran Talk about smoke and mirrors.",

"as quickly as possible, So Mr Trudeau said nothing and it's a new story? Come on CBC.",

"I found plenty in the article that was of interest. Mostly it wasn't about what Trudeau said. Perhaps your bias is leaking?",

'There was nothing in this story that has not been said many times before. There was no news here. Perhaps you have been living under a rock.',

'as quickly as possible. Spent the most money and we will get vaccines right after Angola.',

'I want the Saskabush vaccine just for better rythm in the next banjo bowl',

"Would you, as an educated person, be willing to experiment with a variety of vaccine that is being rushed to market, by any number of companies, knowi en takes years for a successful drug to make it approved by Health Canada and the FDA in the U.S.A.? Not me, I'll wait for the trials to be properly don

'And you will wait outside ..sorry',

'This is a totally different process, you should read up about it. Damn right, I will be one of the first eligible to receive it and am going to get it

"It was able to be done so quickly because of the massive amount of government money poured into the effort, and because scientists have been studying al coronaviruses since SARS in 2003. It doesn't mean safety has been compromised.",

'I would - and will - do so in a heart beat. I have absolutely no fears regarding risk versus benefit. I am also educated in Health Sciences; I am stun pant anti-intellectualism and evidence-averse public, that think their weeks of consuming rubbish facebook contant somehow gives them credentials to que intensively studied health crisis in human history.',

'I am the restaurant industry, the movie theatres, the mom and pop as well as box stores. The emergency room, the school and the workplace to make a fe

"The AstraZeneca is the only vaccine I would look at - it is developed by Oxford U, and uses proven tech. Won't be first in line, as I am not at risk, up after a few months. And Canada has ZERO orders.I will not take the RNA prototypes - they've been in development for 15 years read about them in The E never panned out.",

'Get the people at Tim\x92s trained. Do it at the drive thru....everyone done in a day.',

'What a worthless creature can you call him human? Rules us',

'as quickly as possible. You will not see the vaccine until all the money has been shifted. Greasing the party wheels and vote buying.',

"The military has been charged with distribution good because this gang botches most stuff and the Liberals are going to keep throwing money at the pro taps get turned off. That's where Canada stands today",

'Always a critic, and yet Canada is punching well above its weight in all aspects of pandemic response',

'The distribution will be a snap for the military... just drop off shipments to 13 provinces and territories. The provinces/territories will do the res g vaccination systems, just like before.',

"where and what? by buying every possible product? by not knowing when it will be available? and lastly by saying they can't do the job and farm it out inute?",

'Vaccine will go to liberals first .',

'Justin don\x92t be silly',

'What about the 400K newcomers coming from hot spots in 2021?',

"as quickly as possible. Canada first to ignore it African Safari, and viruses don't carry passports days, last to end it. Reset the liberals.",

'viruses do carry passports. You really need something worthwhile to whine about',

"as quickly as possible. Germany is setting up large scale vaccination centers while our federal government is still trying to figure out where to plug rs we don't have yet.",

'Pfizer vaccine can be kept for 30 days with the dry ice packs they ship the vaccine in. If it is still around after 2 weeks, somebody is doing somethi

'as quickly as possible. Do any of the people in charge have an education in anything relevant to their job?',

'Salaries should be set accordingly.',

'like a math teacher getting a masters in basket weaving.',

"Stay inside, mask-up if you go out, stay apart and crush this virus in 3 weeks, way before anyone gets a vaccine. But then you wouldn't have anything .",

'Only the rich can say that.',

'no the government payed people to stay home but covidiot's would listen',

'You need the vaccine first to roll it out. Canada has none. Just another big head fake to keep the Canadians sheep at bay.',

'it\x92ll be longer than anyone thinks',

'as quickly as possible. Canada, ask yourself this question: why is this man still the Prime Minister of our country?',

'If I cannot afford to pay for a baby why should I pay pre & post natal care, childcare, child credit, safe injection site, schooling cost, university who can\x92t afford their babies and will end up on my support anyways? don\x92t need your pension or healthcare Let me have my money i can grow it myse

'Still wondering why we don\x92t have a doctor as minister of health during a pandemic',

'He is PM because he is the best choice to protect Canadians from suffering the pain and shame of a Conservative government.',

'the welfare crowd loves him',

'He is the best Hippocrates who can sit on his estate fund mostly taxpayer money in his Florida state and lecture eloquently about socialism',

'We'll have them demanding...no...begging for a shot of our product before year-en. What did the prime minister say to the pharmaceutical executive. I th is Stranger Than Dystopic Fiction',

'When The bed is wet, You Know it was Justin Who slept in it',

'as quickly as possible. So tired of needing a fire under his s for him to come out with some half truth. I\x92ll see it when I believe it.',

'The sooner the vaccine rolls out the sooner we can have a federal election',

"Liberals are well ahead in the polls, and then there's Jagmeet for the prop up. Canada is in deep doodoo - unless you want to own nothing what about o no privacy, and be told you have to be happy.",

'One thing about a chronic lie are is they just keep lying on one after another.',

'the other thing is they have to remember everything they made up. Notice a trend in Liberal Ministers on different pages?',

'believing his own untruths become incredibly problematic!',

'Approximately how many shares of Pfizer does Trudeau have?',

'Not only he as an insider, on our dime, have advance calls on investments.',

'All the debate about the competence of the current government aside. the sooner we can get widespread vaccinations. the sooner we we can get back to s

of normalcy and I will consider that a win.',  
"They remain in office at the discretion of the voters. If the voters don't like what they saw before 2023, they are gone. Could be an election sooner  
en the minority government, but it is still us the voters. Or are you one of those Trump supporters who believe voters don't matter?",  
"Take a look at conservative party history. They can't come to a consensus within the party. How do you expect them to rule the country, when they can't  
elves?",  
"I'll bet that Trudeau wishes he was PM in his father's time where there was no internet, and nobody doing fact checking on what he says and doesn't  
inting himself further and further into the corner. The UK is expected to approve the Pfizer vaccine this week and is already taking appointments for va  
US will approve the Pfizer vaccine on December 10th, and the Moderna one on December 17th, with vaccination starting 48 hours after approval. What will  
n Canadians see the Brits and Americans getting vaccinated, and all they get from Justin is a lump of coal in their sock. We have a vast array of vaccin  
folio. This portfolio is the biggest portfolio that the world has ever seen. The number of vaccines is incredible. We have the highest per capita number  
n the history of the world. Nobody has ever seen anything like this before. Yes, Justin but when? "Ummmm, Ahhhhh, Have you seen my drink water box bottl  
uickly as possible.',  
"He doesn't now nor has he ever given a tinker's damn for the working class.",  
'If you want to see how his ideology was born, look to Pearson and to PET who was Pearson right hand, who later became PM. This was the beginning of th  
undermining of Canada.',  
'Well I think it would be fair if the roll out started on the West coast and moved eastward as supplies allow',  
'Trudeau's banana not budget released yesterday, top man in finance quits today with 2 weeks notice. Trudeau fails again. as quickly as possible',  
'Lets see, we have known about this pandemic since February. We did a deal with the PRC in May -they reneged! We then went ,cap in hand to other suppli  
en cheque book and no delivery dates. The upshot is that even with a president of the USA unwilling to even to acknowledge the Cov19 virus, all American  
jab will get it by the end of June 2021. In Canada our PM suggests that maybe by September -didn't say which year 1/2 of Canadians might be vaccinated.  
ad so badly!\xa0as quickly as possible",  
'Hadju tells us there are delivery dates in every contract. But she won\x92t tell us what they are. None of our business apparently',  
'Anand said today that there are "delivery windows". And "we have a whole portfolio of windows, more windows than anybody else in the world. Nobody has  
s many windows of delivery times before',  
'Could not possibly be firm dates, given that nobody knows for sure the exact date they would each be approved.',  
'Trudeau is buying plenty of vaccine to ship extras overseas. You will pay for it Canada. It is part of his scheming, the reason there is no anchor to  
will to spend your tax dollars and borrow your great grandchildren\x92s grandchildren into debt.',  
'Actually, I heard on NPR Radio that some countries, possibly including Canada will donate tens of millions of vaccine doses to underprivileged countri  
nd Asia',  
'Why would he do that? Does the UN gfactor into your answer or is he planning to move to Narnia or Middle Earth and wants to ingratiate himself?',  
'That's a good thing. In a global community we need to stop the spread everywhere or the virus will simply keep returning.',  
'Nobody is safe unless everybody is safe. Remember that?',  
'So in last weeks picture on "botched" he was clean shaven and all that. Today he looks like he usually looks. Cottage managing all parts of the LPC me  
media..kt has been busy.',  
'We haven't even gotten into the distribution logistics issues yet. Those will add another 3-6 month delay",  
'The provinces all have distribution systems that have worked for the flu for the last 10 years or so. Average of about 30% of Canadians got flu shots  
2009 at 41% for H1N1.',  
'because the gov't has never distributed a vaccine before. They have nationwide systems in place and the additional logistics are being addressed at mu  
The fact that you don't know anything about this is because you're not involved in it. The fact that you assume that nothing is going on is because you  
thing about this.',  
'as quickly as possible. How can anybody still think he is doing a good job?',  
'denial is the new trend',  
'i think they left . now nobody does',  
'And yet the polls show he is widening his lead over the Conservatives. In fact in Alberta Trudeau has a higher approval rating than Jason Kenney.',  
'if thats true. thats funny as hell',  
'What polls are you referring to?',  
'polls are insanely accurate, thanks for the update',  
'Complacent and indifferent Canadians think he's doing a great job.",  
'Yet another repeat from yesterday.',  
'He doesn't know. Like everything with this liberal government, they don't want Canadians to know. Transparency isn't their forte.",  
'The Trudeau Government will set this up so that if it goes smoothly they will steal all the credit and if it goes bad it\x92s all the Province\x92s fa  
ere\x92s. That\x92s all they care about.',  
'Typical of the Liberals. We have a plan but we can't tell you. Why because we have no idea of what we are doing. I was a drama teacher and a social li  
u expect we to be a leader of a country. As quickly as possible.",  
'Every day Trudeau's story changes. Will we ever get the truth from our ethically challenged Prime Minister?",  
'I love it. We'll be ready when health Canada approves it. Already setting it up to pass the buck",  
'Really? Does any Liberal still have faith in this guy? as quickly as possible',  
'I have just a wee bit of faith left in him, which is far more than I have in the other party's leadership.",  
'I can't believe just how resoundingly incompetent Justin Trudeau and the Liberals have been. They've completely mishandled the pandemic from the get g  
guess, this is all of Steven Harper's fault? Complete and utter incompetence. as quickly as possible",  
'Trudeau did not listen to the Military in Jan when they advised there was a virus in China. Why is he going to listen now',  
'I admire Mr. Toole. I am going to start raising donations for conservative party of Canada. I watch his entire speech last night it was shocking. I ha  
f customers, I can assure you I can raise millions for conservative party of Canada. I am also going to donate \$10000 asap. No news media across country  
h for the last 11 minths except Mr. Toole last night.',  
'Trudeau says. Trudeau says nothing of value is the missing words. as quickly as possible',  
'as quickly as possible. Health Canada has provided its approval, we are well-placed to begin deliveries to Canadians as quickly as possible. We will k  
elivery process as quickly as possible. That's why we have the refrigerators procured. That's why we have the needles, syringes and gauze procured," s  
delivery process? Asking for a friend. the provinces.',  
'Conservatives still adding contaminated liquid to their cornflakes for breakfast',  
'This isn't about cons or libs... it's about people wanting to get back to work, school and family. Let's try not to make it political.",  
'Libs still adding contaminated liquid to their cornflakes for breakfast....??',  
'Just graduated from the LPC defence school. Must have been at the bottom of the class.',  
'\xa0it's about making guidelines for covid more important than demanding unanswerable questions. we get the vaccine when available. covid is now",  
'the best defense is to stay home, wear masks if you must go out, and keep 6 feet apart....can you promote those guidelines..',  
'Take your vaccine and shove it shill.',  
'I'm on the left, oh wise one.',  
'Mask taking oxygen from whatever brain cells left?',  
'This website just loves putting our Prime Ministers mug front and centre daily. He is an embarrassment and nothing but a phoney actor. As quickly as p  
'Almost makes you think he has a flair for the dramatic',  
'but he was born to do this! Haha',  
'I say something like that about a Conservative and I get red-shifted.',  
'A phoney actor with a constant smirk -To him, everything is funny - even this pandemic it seems',  
'He's smirking since he's finally being recognized by the globalist cabal, that is after selling off Canadians' rights and sovereignty. Future generati  
hook for billion\$...oh no that's not right...the IMF will forgive all debt as long as we agree to all their evil commands. We'll own nothing and be happ  
",  
'JT is a perfect example of how appearance is effected by actions and behavior. This supposedly good looking individual, is currently as ugly as the ug  
ppointees, in and out',  
'Georges is a full fledged globalist puppet. Tyranny looks good on you.',  
'as quickly as possible. Letting a bunch of pointless third world countries get the vaccine ahead of us is not only a great way to lose an election, bu  
ial pariah too.',  
'Bill has been experimenting in India and Africa for years.',  
'Trudeau intends to provide vaccines to those countries on tax payer\x92s dollar.',  
'They don't want him yet Gates and "that techology doesn't exist" thing on his lap, are insisting to be "chartible" in their eugenecist utopia.',  
'I'm not naive enough to hope the side effects of the vaccine include x-ray vision or invisibility; I'd settle for a second scrotum on the end of my ch  
'What? You want to be a BallChinnian of MIB 2 fame?',  
'Mike devries asks, " which mutation does this "vaccine" covers? or does tapwater has a better effect?" only to be one-upped by Ori Omessi who fears th  
your purpose. Covid eradication, or fighting population growth", Andrew Petrii goes further by informing us that "instead of getting a covid vaccine thi  
rnmnt is trying to implement SOCIALISM that many don't want." It is unclear who is performing all of this nefarious work as Gary Turnbull has informed  
eau can't even show up to work",',  
'All nonsense.. except that last part has a grain of truth.. how long did he avoid parliament, only to prorogue it?',  
'Those are your teammmates, not mine.',  
'Every team has its embarrassments.. you know its true.',  
'I do and for legitimate conservative voices it is a tragedy that your team has the most. You folks should seriously push them out to the People's Part  
elong. You're getting tarred with the same brush.",  
'Its hard to ignore, lets call them "over the top" opinions from all sides. As to number, there may be more or less on any given day.. but I hear you,  
ake us all look bad.',  
'The Canadian government wanted to believe a vaccine from China was going to be the cure at the beginning of this pandemic. After that deal fell apart  
a deal with China, we got the Moderna deal. Canada's spot in the Moderna queue is because of the governments timing to sign the contract and nothing els  
'The Vaccine will still most likely come from China after the Moderna deal falls apart',  
'Do we have any idea how long the immunity from the vaccines could last? It's kind of disconcerting that this isn't even being discussed in the media.  
lished in the Lancet this September warned that immunity could last less than a year. So this could end up like a yearly flu shot except that everyone s  
ing it.",  
'3 Months Minimum Line up Every 3 months for a re up',  
'Yeah, that's what I fear. At the same time, if enough people get vaccinated in a short period of time, we could reach heard immunity for long enough f  
to kind of disappear as it cannot find new hosts.",  
'"

'This isn't going away with one poke in the arm',  
'of course. It will be until the virus mutates. Necessarily less then a recovery from infection',  
'that is key info from all our past experiences ... we just need the majority vaccinated and quick like',  
'How could anyone know for sure? That takes time to tell. I have seen estimates that it will likely be at least a year based on tracking of mutations a rs.',  
'A vaccine for a virus that is cannot be detected from a test not meant to test viruses, is not a vaccine worth taking. That and the fact that Gates, S e openly telling the world their nefarious plans.',  
'Will the vaccine be effective against Covid 21 and 22 ?',  
'watch the trailer for songbird and find out.',  
'Why not demand a vaccine from Trudeau that cures all diseases, even the ones we don't know about. That is essentially what you're wailing about",  
'as quickly as possible. Why bother. He cant deal with the present let alone the future..',  
'Do you expect he should deliver on a vaccine for diseases that are as of yet unknown?',  
'As the romans did 2000 years ago, keep the population happy by providing bread and circus',  
'The left/right paradigm still works well, with the aded layer of who is a conspiracy theorist and who blindly obeys the government/media. I'd rather b he former any day of the week.",  
'Did you get The Vaccine yet? No? Well, I got mine. Nyah nyah. Side effectasd? Nonb theot I'm aware ov. Blerble bleop. thhhbbbt.",  
'I think Mr. Toole told the truth last night, it was shocking.',  
'Cade, Jerome, Patricia, LPC pom pom wavers noticeably absent from the CF thread but back here now in living colour. Of course the message from the lef ed. Just like the PM and his family did not benefit from WE.',  
'Trudeau on the cost of fighting the pandemic.. ah um.. I don\x92t know.',  
'When JT can't answer the question, he always refers back to his pandemic plan, that it's the best and pats himself on the back.",  
'instead of getting a covid vaccine this federal government is trying to implement SOCIALISM that many don't want, Wrong guy for the job",  
'The money they are throwing around our money BTW should be put into turning out vaccines so people can get back to work, school and family.',  
'That's what they're doing. Did you even bother reading the headline? 20 million doses requires some cash.",  
'did you even bother reading that millions are being thrown out for child care, loans, businesses...? If this group had been organized the money would d vaccines already, not stand in line behind the US and UK. This has been mishandled from the get-go ... we have no room to criticize our neighbors to t  
'did you hear we may not get a vaccine until Q3 2021, when the USA is getting it now, reading is a skill, and this covernment is like smoke and mirrors socialism while we are locked up',  
'Why is our national broadcasting corporation blocking my references and links that show we will get the vaccine in late 2021 and possibly 2022',  
'JT also said late September.',  
'by the way: which mutation does this "vaccine" covers? or does tapwater has a better effect?',  
'depends your purpose. Covid eradication, or fighting population growth',  
'All the weakest link defenders the LPC did not want on the CF thread have been released here Tell me again the LPC does not have a media message manag team.',  
'All the cool kids are talkin bout The Vaccine, 4 out of 5 Experts recommend rolling up your sleeve for The New Vaccine. Be the first kid on your block ly. Batteries not included',  
'I see the Cons losing big seats in an election. All hat and no cattle for them',  
'You are not write again.. Were you not allowed on the CF thread from yesterday? Good move on the LPC part, you make the left look bad every time you t them.. As you did here',  
'20-40 seats. Looks like a wipe out.',  
'Given where your head appears to be you cant see anything except dark walls that smell funny.',  
'An awful lot of faith is being given to an unproven vaccine. What if giving this to our frontline workers goes wrong?',  
'Two have been proven in the US, just not authorized yet. One proven in the UK, and expected to be approved this month. What do you think all the 3 pha for?',  
'it is way too early in the process to say its safe. It normally takes 10+ years for vaccines to be deemed safe',  
'I hope you're right. Usually these vaccines go through years of trials. This one hasn't. You can't blame people for being a bit leary of it. I know I ope the vaccine is safe for those who want it/need it.",  
'So far the only elected Conservative hoping for a federal failure is Mr O'Toole.",  
'after certain health canada officials get their share of the donation and motivational subsidies',  
'You should actually look what JT says now. That is history, not news.',  
'Build back better or build back the way the Cons want? I see an election coming.',  
'That's the Problem now isn't it . The Libs left things in a way that need to be built back better. shame on them",  
'Note how all of a sudden there is a plethora of posting tossing our vacuous one-liners. Shift change',  
'Details are scanty from the Liberals, lol, as usual.',  
'The Conservative Party should add Wile E. Coyote to its logo give they are as effective as he is.',  
'And the Libs should have Alfred E Neuman as its logo....fyi, both parties have their issues, not just the Cons',  
'Natural immunity is far more effective. Before rolling out a vaccine, place a test to detect the naturally immune.',  
'You mean...do precisely what we have done every year in history prior to 2020....? That's so crazy, it might just work.",  
'I know right... I'm not sure people can handle all that liberty",  
'It has never been done in history. I have had vaccinations for small pox, polio, TB, Yellow fever, tetanus, bacterial pneumonia, shingles, and at leas of flu and have never been tested to see if I had them first.',  
'Trudeau can't even show up to work",  
'You can have mine. Double up you will be safer.',  
'The vaccine only works on humans.',  
'Here is the article where he says Sept. Now its as quickly as possible. So there really is note date is there PM?',  
'Trudeau failed Canadians yet again',  
'We need more transparency in the charitable sector \x96 but unfortunately, a certain group is pushing hard at reducing transparency and they are being ful. Bur the CRA has just removed any requirement for a Canadian charity to report on non-partisan political activities, what are now called PPDDAs.',  
'The only thing left for Conservatives in Canada is to be part of a Borat skit.',  
'The level of failure of this government, makes the majority of leftists want a conservative government - which is an unprecedented level.',  
'Justin made a brilliant cameo in the new borat movie btw',  
'These false flag vaccines will never be rolled out ...maybe only for rich fat cats like the Trumpster !',  
'Justin you spend \$44 million tax payers money with Chinese company for research. Don't you know how many peoples sleep on the sidewalk across the coun  
'It was the NRC.',  
'Give it up. The Liberals did a good job on this and Canadians are happy with them. The number of outstanding scandals being promoted by the far right tive: 0. What will they invent for tomorrow.',  
'your correct..... if you live in bizzarro world',  
'i think most the scandals come from the liberals and the far left ... Just saying',  
'\xa0you are in the minority and soon to be gone',  
'i cant pay my family directly with tax payers money but i can donate to a charity that does',  
'Patience, we will have access by late 2021',  
'Trudeau will have legalized and distributed Recreation Cannabis Faster the Feds will approve and distribute the Vaccine. Its all about Priority's",  
'Collecting the most taxes is the priority ! ...LoL',  
'Unfortunately I can\x92t post a hand created Canadian wreath! 2 drinkin boxes and 3 bananas...hand crafted gifts are the best!',  
'Contractors bidding for the job of distributing the vaccine have been told by Ottawa the work could go into the end of the second quarter in 2022, or  
'That seems reasonable. Sixteen billion doses are required word wide.',  
'So you are happy to let this play out that long here in Canada?',  
'No, but we can't change what is. That being that we cannot make it ourselves, and we are on the list with only 37 million out of 7800 million waiting  
'as quickly as possible. Staying in his lovely cottage for almost a year, posting his selfies in the front page everyday, and getting paid for pretendi M, Wow! What a happy year this is!',  
'Contractors bidding for the job of distributing the vaccine have been told by Ottawa the work could go into the end of the second quarter in 2022, or hat reassuring folks ?',  
'Yes! How long do you think it will take to manufacture and deliver 16,000,000,000 doses? If they can make 100 doses PER SECOND, it would take 1852 DAY gh. That's more than three and a half years of 24/7 production.",  
'Until Trudeau clears the way for a public inquiry into WE, you can't believe a word he says.",  
'Lock yourself indoors, do not exercise, do not eat nutritional food, do not take vitamin D, C or zinc BUT make sure you take the vaccine.',  
'Most, but not all will have access by late 2021',  
'just give me a laminated card for proof of inoculation. Please no smart phone app. Have you ever been lined up at the gate at Pearson when the hair bu their boarding pass on their smart phone, Puleeze! (Cardboard boarding passes work faster. Who knew?',  
'as quickly as possible. So Trudeau says we will be able to get shots soon after Health Canada approves a vaccine. That's great, but when will Health C the vaccine? And it's wonderful that we have freezers already, but they are empty. When can we expect to actually receive any vaccine? Because it really r whether Health Canada has approved a vaccine or not if we don't have any to distribute. Canada is the only G20 country with no budget. We have the hig er capita and as a share of GDP in the G20. We're in the bottom quarter when it comes to unemployment. We're one of the only developed countries that h cure the right to produce any approved vaccine domestically. And we have no idea when we will have any vaccine to distribute. Thanks for nothing, Trudea  
'Vote Conservative!!',  
'Can you imagine if we have Chinese vaccine in Canada',  
'I wonder Chinese buying million of dollars of properties across Canada',  
'How serious can the pandemic be. Freeland and Trudeau have been chatter up how they plan to use this situation to promote their version of utopia. The oing this since day one, doubled down on it with the GG\x92s speech and have been shouting it since.',  
'opposition critics and some premiers accuse his government of falling behind on a vaccine distribution plan. Opposition needs to step out of the way s nt can get some work done.',  
'The only thing impeding the Liberal's distribution plan is the lack of a coordinated plan.",  
'They're putting that together now. There is no vaccine yet. Take a chill pill.",  
'How is the opposition stopping the government from doing anything?',  
'Trudeau has said a different thing each day. Two days ago he said we are near the back of the line, yesterday we were close to the front. No matter wh oose he is still trying desperately to bury the WE scandal '

Use he is still trying desperately to bury the WE scandal.',  
'By taking up valuable time arguing in the house about utter nonsense.',  
'So you think Trudeau and his ministers are personally doing the work of procuring, approving and distributing the vaccine? The only job of Trudeau and is to be accountable to parliament for their policies and spending. Debate in parliament does not slow down the actual work of implementing those policy decisions, which is carried out by legions of public servants.',  
'That was really funny.',  
'as quickly as possible. They havent done anything in 5 years...whats the difference?',  
'Those who complain here are mostly the same who said this pandemic was a hoax and the virus only affects 0.00000000001% of the population. We need a v  
sense.',  
'Statistics say that unless you are already on death's door you mostly likely will have a runny nose and maybe a cough. Do you not believe the statisti  
'A good percentage of Canadians will receive a Covid vaccine--by next September and so stay cool!',  
'What about the 400K plus newcomers coming to Canada next year?...will they recieve the vaccine first?',  
'No world leaders want to deal with Chinese regime then why Justin sign deal with China. Thanks God it did not go through',  
'Now what does Angry Erin not understand about rolled out as quickly as possible and the vaccines will be procured in the first three months of the New  
inations will start in March and we have the freezers and syringes already in place?',  
'I think angry Erin has "selective" hearing. Happens when you are always looking for the negative.',  
'the same as the rest of Canadians. How many time did we ask to get this response? now the question is it fact or just feel good words?',  
'Erin has no idea when Health Canada will approve vaccines.',  
'Still barking up the tree Cade? Where we you on the CF thread? Muted by the LPC perhaps?',  
'I burst out laughing at the mere sight of Trump or Biden. I reflexively gag when I see JT or Kenney. Same basic reflex...just a different level of int  
'Oh so you're one of those types eh? Judge not, if you can do better get in there and do it, if not then just holdoff the un warranted critique.',  
'It's great to see that people on this forum think Trudeau is a pseudo dynastic politician riding his daddies coattails and intellect and the only thing  
him is his blood and his socks, otherwise he is a vacuous leader who isn't worthy to considered prime minister. as quickly as possible',  
'A week ago many here were criticizing snowbirds heading south. Those same snowbirds will have access to the vaccine in a few weeks, for \$49.',  
'Among the 15,000 people who received the placebo \x97 a shot of saline that does nothing \x97 185 developed the novel coronavirus.\x92 .01 of the tota  
'How long do you think it will take for 30,000 (the whole test group) people to get the virus naturally? 196 over 2 months is about what you can expect  
US with the virus essentially out of control. It is considered to be enough to be mathamatically significant. And remember, one person in the control gr  
r. The reason why 'challenge' tests are considered unethical.',  
'Good point. How serious can it be. We know who is most effected, by and large 99% of the population won\x92t be severely impacted with the virus but r  
down.',  
'Will Trudeau and family the first ones to get the shot? I hope they set the example.',  
'They will, but because they want to set the examble',  
'Sophie takes injections already!',  
'By that dude inn Quebec? Did she ever return to skippy?',  
'Here is the National Institute of Healths (US) news release on the trial. Why does this article give different numbers? Are the placebo group numbers  
u? An independent data and safety monitoring board (DSMB) overseeing the Phase 3 trial of the investigational COVID-19 vaccine known as mRNA-1273 review  
and shared its interim analysis with the trial oversight group on Nov. 15, 2020. This interim review of the data suggests that the vaccine is safe and e  
eventing symptomatic COVID-19 in adults. The interim analysis comprised 95 cases of symptomatic COVID-19 among volunteers. The DSMB reported that the ca  
fe and well-tolerated and noted a vaccine efficacy rate of 94.5%. The findings are statistically significant, meaning they are likely not due to chance.  
es occurred in the placebo group and 5 occurred in the vaccinated group. There were 11 cases of severe COVID-19 out of the 95 total, all of which occur  
ebo group.',  
'I realize that. I'm wondering why the numbers differ in this news article from the official release?',  
'That was an older report before they had enough infections to apply for approval. On 30 November Moderna gave an updated report with enough infections  
t. As more data comes in, it will also be reported, probably for 2 years.',  
'The situation would be more clear, I would feel more reassured, if reporters would never ask Trudeau a question. As quickly as possible',  
'But he is so handsome! Handsome! And his socks! They are colorful! That is JOURNALISM!',  
'8% of Canadians will get the first shot in Feb-March, second dose in MAY. Other 92% will get first shot in Sept at earliest, possibly November. Second  
into 2022 at which time Covid will have gone away on its own',  
'Here you go Nick, since you need to be taken by the hand and shown the way:',  
'I have looked and found nothing what you claim on any of the usual trusted news sites.',  
'With Patty's graphic arts background ,the packaging of these vaccines will be awesome!',  
'O\''Toole said "Canada should never have trusted the Chinese in the first place" - about time one of our politicians is starting to speak the truth in  
e Chinese.',  
'Its starting to look like we should have partnered with the Russians.. who knew?',  
'Maybe Trump was right ?',  
'He helped negotiate a trade deal with China. Should China lose money, according to Article 11 within the deal China can sue Canada for lost revenues.  
ot have that option. On a good note, the deal expires in 2045. Surely you must be joking?',  
'as quickly as possible. We might just as well place a wig of dark wavy hair on a head of lettuce and place it in front of the teleprompter.',  
'But his blood makes him special....his blood!',  
'Prince Charles is royalty; don't much care for him either.',  
'The woke left would sub kale for lettuce.',  
'That would be an improvement.',  
'Lately the colour swatch has changed to an auburn tone so a bit of variety will keep it from being boring - not really -platitudes delivered by a vent  
of lettuce will still be boring.',  
'Too many people are playing partisan games with the very serious question of why Canada cannot produce COVID vaccines. PM Trudeau himself blames Harpe  
was during Harper's tenure as PM that private sector pharmaceutical manufacturers left Canada. However, there is no evidence that any policy of the Harp  
was responsible for that. It was the Mulroney government that privatized Connaught Laboratories, Canada's government-run pharmaceutical lab, in 1986. Th  
rais themselves are not blameless. Trudeau spent \$44 million to co-develop a vaccine with China, but then China refused to allow shipment of the vaccine  
trials. Trudeau announced another \$120 million in August, saying it would enable the domestic production of vaccines starting in November. That failed t  
n reasons. The Trudeau government also failed to secure domestic production rights in any of its vaccine procurement contracts. NDP leader Singh just he  
ference blaming both Conservatives and Liberals for Canada's lack of vaccine production capacity, but the NDP escapes blame only because they have never  
nment. Singh called for a Crown corporation like Connaught Labs to be re-established, but he also cited Australia as an example of a country similar to  
producing its own COVID vaccines domestically, while failing to mention that vaccine production in Australia, as well as the US, UK, India, Belgium, and  
0 countries, is being done entirely by the private sector. So the real question that has to be answered is why pharmaceutical companies don't find Canad  
e place to set up shop. Let's stop the partisan nonsense and get to the bottom of it.\xa0",  
'Failure of government. People are the losers.',  
'Thanks Trudeau.',  
'Sarcasm?',  
'He doesn't know but keeps leading Canadians down the road. As quickly as possible",  
'With the economy going down and debt piling up by the billion every months thank to free money giveaways, it is not acceptable that he is not coming o  
t date for vaccination. As quickly as possible',  
'the economy would of collapsed already if it wasnt for the free money.. if you look at history - all civilizations collapse after debasing their curre  
'JT the vaccine will distribute itself',  
'as quickly as possible is still not a date other countries are ready in 1-2 weeks t start what are we doing here? We are running programs that drive d  
h. Get it done.',  
'Someones gotta rep. the little dog in this fight. Thanks to Corona, Flu, Pneumonia, and "Vape Lung" are all but non existent in 2020. Top that off wit  
ns long overdue modernization, and health care reviving funding nearly on par with the pre Harper era.Maybe we shouldn't be so fast to label corona as  
what other problems it can solve, if given the chance. our debt with china... pretty safe to say we, as well as the rest of the world, are square now',  
'False. Harper increased health transfers to the provinces by 6% each and every year he was PM, starting with his first budget in 2006.',  
'The only 33% reduction in federal health transfers to the provinces happened under the Chretien-Martin Liberals in the 90s. Harper restored funding an  
far beyond previous levels.',  
'RE Drinking water targets. Liberals won't meet their promises"? Like anybody is surprised about that or any other Trudeau promise! As quickly as poss  
'It Trudeau was an officer on the battle field his own troops would frag him. As quickly as possible',  
'You won't ever find a Trudeau on any battlefield.',  
'only in the movies.',  
'he would be leading from the rear.',  
'It was the first time I allowed myself to cry," oh! that brings a tear. thank you to all the researchers working behind the scenes to create something  
ve been waiting for....THANK YOU!'",  
'With recent polls showing that a sizeable number of Canadians will refuse a vaccine altogether, or will wait some time before lining up for a shot, so  
and running now so those of us who are willing to get vaccinated have our name on the list',  
'The reality is if even 50% of the population is vaccinated the desired outcome will occur.',  
'As quickly as possible clean drinking water on reserves? I don't believe him and nor should anyone else.',  
'all levels of government need to start clearly identifying who gets the vaccine and having people enrol if they wish to get it , do this before so the  
r and there are not confusing statement made and empty or crowded vaccination centres',  
'We don't want to be first with any new vaccine. Let someone else discover any hidden adverse effects before we get the vaccine.',  
'that is what the researchers (and government regulations) are doing now.',  
'The past has shown the the Trudeau family will soon see another windfall while we wait and wait and wait. as quickly as possible',  
'JT & Santa go hand in hand a mere wish list. We sat on the fence when it came to initial outbreak & PPE. Now history repeats itself with the vaccine b  
I didn't vote Con so save your efforts.',  
'Come back when you have something intelligent to say',  
'Justin, the UK just approved the Pfizer vaccine. Why has Health Canada not approved the same vaccine in Canada? What is the hold up? Waiting for deliv  
ply so you won't be embarrassed? as quickly as possible",  
'Because the UK was willing to forego the usual approval process. No other country is doing that besides maybe Russia. If Trudeau overrode the approval  
omething went wrong would you say that it was ok? I am thinking not.',  
'They are working on approval. The last thing we want is to rush the approval process, only to discover later on that there are hidden adverse effects.  
'he answered that question a few times over. herbert. canada has it's own standards."

'Vaccines are going to be rolled out in quite a few countries next week. The excuses are wearing thin. as quickly as possible',  
'Do your own research.',  
'yeah, that's what I thought. If you can't name them yet you make claims saying several countries next week and can't back it up..it makes you full of  
'Now go do your own homework. Hint, Google will reveal all.',  
'the US is meeting to talk about the UK's approval of the vaccine next week. It is not starting vaccinating people. Mexico is in the same boat. Just ab  
try is hoping to have people vaccinated by next September-ish.',  
'I said next week',  
'43 minutes ago \x97 The UK is the first country to approve the Pfizer vaccine. Come on JT, what's the hold up in Canada? as quickly as possible',  
'The PM has nothing to do with approving vaccines. Nor should he. Health Canada will grant approvals or not when they are satisfied.',  
'i know, it's just fun winding up the left. LOL',  
'Funny how making the right look dumb is the way to rile the left',  
'Come now. Don't be naive. JT has attempted to influence supposedly independent bodies before. What makes you think he wouldn't do it again to avoid po  
assment.',  
'just as i suspected...you need a new hobby',  
'Yeah he has nothing to do with the AG either but that didn't stop him for trying to get a deal for SNC. Sorry, i don't trust him at all.',  
'Now the Mexicans are ready to roll on Pfizer, commence vaccinations of all health care workers Dec 11, then high risk and seniors. Gen pop to begin in  
and millennials go last',  
'millennials are fine as they self isolate in their parents lower level gaming all day and collecting Lib cash handouts.',  
'Lockdowns + Universal income = Majority. Majority - Universal Income = Our Future. J.t. is a Con, in Libs clothing. Hes lost all respect, and is going  
ly on the promise tax dollars, to garner any votes. From now on, in voting Green, or bust!''  
'Pigs have a better chance at flying.',  
'What level of capacity strain was out public health system under this time 2019/2018 with admissions for regular Influenza A/B? Keep in mind, our publ  
tem has been under capacity stress for a decade giving the rapidly aging population in Canada and care this requires',  
'interesting to see 2019/2018 pneumonia complicated deaths from influenza A/B set against COVID complicated deaths. Plus how many cases, if we ever kep  
ople to be admitted to the health care system with influenza A/B severity during this time frame in the past two years.',  
'Trudeau says vaccines will roll out as quickly as possible after Health Canada approvals. Well, I would certainly hope so',  
'Canada will be still waiting for the vaccine long after Health Canada approves. Thanks JT! LOL',  
'Britain and US have both already approved the Pfizer vaccine for distribution. Once again we're behind the 8 ball - typical for this government. They'  
ast at shoveling out the money, but for finding solutions, not so much. as quickly as possible',  
'Have they? Britain has granted emergency approval just today and I'm not sure that covers general distribution. I haven't heard anything about a US ap  
'US has not approved, yet, Mexico has this am though',  
'43 minutes ago \x97 The UK is the first country to approve the Pfizer vaccine',  
'Health Canadas approval process was set up to be independent of political influence. In the US and UK politics can truly fast track drugs. Slow action  
drugs in Canada is they way the system is, trying to blame it on the current Government is wrong. The whole system would have to be changed for this to  
'd rather a heath Canada system that looks out for Canadians be in control, not a Politician that gets "Donations" from big Pharma.',  
'Big Pharma wins regardless of the timing.',  
'The US has scheduled to distribute 20 million doses by the end of December.',  
'Let's use what they are using in China. Apparently it's working very well.',  
'He is no rush, plan is to delay to inflict max damage to Ford to diminish Con brand in vote rich Ontario. Summer election, JT will time release just b  
r now, he is sitting on sidelines, letting the Premiers take all the flack. as quickly as possible',  
'And letting Canadians die.',  
'Devils Advocate... Corona is a good thing! No flu, pneumonia, or "vape lung" this year. Our education system is finally getting a long overdue moderni  
nding is going back to heath care at levels the meet per Harper.If we could just convince those at risk to protect themselves, as opposed to expecting o  
ct them, corona would be more silver lining than cloud!''  
'You might want to check some actual facts before you spout off about Harper. Harper guaranteed annual Health Care transfer increases of annual inflati  
year during his term.Stop believing the Liberal gossip.',  
'as quickly as possible. Bottom line, our Liberals put pandering to China ,that great Democracy and defender of human rights and the rule of law, ahead  
eing of Canadians. And apparently Liberals knew they would never come through as they didn't even bother creating a distribution plan. So incompetence g  
competence delivering it = more Canadian deaths.',  
'\xa0All I read was conservatives slander and whining. We have a compassionate and empathic PM and you don't like that',  
'\xa0All I hear is a Liberal in total agreement by failing t rebut. After 5 years you can't name a single success and still you pretend.',  
'as quickly as possible. We'll all believe this when the refrigeration units are all here and when the vaccines are on Canadian soil, not before.',  
'Let us maintain clear perspective ! This Covid 19 vaccine issue like many other issues (that effect Canadians re their Health, prosperity, social and  
e at large)are not partisan LIB or CON or NDP Sectors. We all as Canadians deserve intelligent, competent, accountable leadership that exudes integrity.  
'Maybe next time.',  
'I agree with you. But unfortunately, I don't think we're getting that.',  
'The only question is "why did our govt sign on for a Chinese vaccine considering their treatment of Canada and the world instead of more reliable trus  
n providers.',  
'I'm not sure its the only question, but perhaps it looked like a promising solution at the time",  
'At the time it was the furthest along in development.',  
'So the Got jailed our citizens, has committed unspeakable human rights violations , spying, theft and tyranny said they had a good vaccine. Seriously?  
'So far advanced it's still non existent. Hedging our bets like other countries by signing up to multiple sources would be simple common sense",  
'Canada through the NRC has worked with CanSio BIO on other vaccine development so they were viewed as a good science partner the political system well  
sed things up. That is the risk in doing business in countries like China.',  
'as quickly as possible. The results speak for themselves. Vaccinations are starting next week. We backed the wrong vaccine programs. Stunning that we  
h a Chinese government vaccine and not what is being developed in the here in the west. Even more stunning is our government chose now to renovate the f  
accine producers in Canada thus shutting down their production capabilities. Of course Trudeau blames the Ghost of Stephen Harper for his own incompeten  
'Wonderful that's just great so why not sign on to other companies just in case.You know like the entire western hemisphere did.",  
'They are funding development in Canada like here in Edmonton Alberta were one is expected to hit clinical trials early 2021. The feds clearly stated e  
desire to have a made in Canada solution so that Canada would control a vaccine and not be dependent on other countries and licensing agreements.',  
'If you think breaking a contract is costly try breaking a licensing agreement.',  
'as quickly as possible. UK is getting theirs this week. You can't possibly believe that nonsense after 5 years of dishonesty rejection of the rule of  
ng failure. incompetence",  
'The UK is allowing for Emergency use only. That is quite different than universal use.',  
'Yes, the results speak for themselves. Vaccinations will start next week in a jurisdiction where approval was granted today. Health Canada could grant  
ny time and then our vaccinations will start as well. While we initially went with what was at the time seen as the most promising potential vaccine tha  
cancelled in May and we went with several other options from other companies. Also I'm not clear on how many vaccine production labs we had or how much  
vernment had over them. Were they not private companies able to make their own decisions?\xa0",  
'as quickly as possible, incompetence. And Canada is behind 2.5 billion people every G-7 country in existence and has no distribution plan. As always a  
ated failure.',  
'Please, we have no vaccine to approve and if we did we'd have to wait for our turn. I guess maybe we could spend the time creating a distribution meth  
etien ran on and ended patent protection ending Canadian research",  
'Just a reminder of a fact that quite a few people here seem to be forgetting is Justin Trudeau\'s public statement that he holds "a certain respect" f  
t\'s administration, That says a lot!''  
'Our leadership STRANGELY put all it's eggs in one Chinese basket. So, the govt. who created the global mess ,is holding Canadians illegally and reject  
and for an investigation is the Govt the Liberals decide to climb into bed with. All that Chinese money pumped into the PET foundation and Liberal elect  
really paid off.',  
'So we didn't put in orders with various companies from a number of countries as the article suggests? Instead we're still committed to a deal the arti  
cancelled months ago? Where are you getting your data? Perhaps you should share it with the authors of this and other articles that disagree.",  
'They only placed those orders for vaccines after China pulled out of the agreement with Canada. It really was a strange arrangement and put us behind  
rld with the vaccines that are starting to get approved.',  
'Really you aren't aware that this govt signed an exclusive deal with China that only ended in May when a Canada bound flight carrying their vaccine he  
was blocked by Chinses officials. Kindly explain why with Chinese record on human rights, spying, theft , jailing our citizens and turning a regional vi  
demic wax the choice of our Govt,. Details please! Oh we are now behind 2.5 billion people every G-7 nation in existence and still have no distribution  
'Oh I'm aware of all that, but in April and May access to a working vaccine probably seemed more important than the flaws in the source. Nor do we appe  
d everyone else according to statements from some of the companies involved. As to a distribution plan I'd be surprised if we didn't have several plans  
he various handling requirements of whichever vaccines get approved and delivered and in what order in in what amounts. There are a lot of variables and  
an A through Plan K would be confusing",  
'That's fine but that does not explain why our Govt didn't do what every other govt in the entire western hemisphere did and signed on to multiple sour  
t's bets.UK gets their vaccine this week I guess we are too eh? It wouldn't matter we still don't have a distribution method.',  
'What are you talking about? We've got 7 sources lined up. None of them are China since the Chinese contract was cancelled in May. The UK approval agen  
off today and others, including Health Canada, could follow at any time. And there's a difference between not publishing the plan and not having a plan.  
ll a lot of variables for delivery and people tend to get upset by changes to the plan even if those changes are driven by changing variables.",  
'as quickly as possible. incompetence. The Chinese deal fell through in May THEN we started signing up. Now unless COVID started in May then this Govt  
his unending failures your telling me this govt has a distribution plan but won't tell us?. Out of Humility I suppose. .5 years and not a single success  
won't face reality.",  
'as quickly as possible. The word salad king.',  
'Trudeau says and Trudeau does are quite often 2 completely different things',  
'as quickly as possible, incompetence, The UK first to roll out a vaccine from Pfizer ,Gee Canada could have been on that list. All that massive debt a  
in sight or distribution method. Brilliantly typical Liberal performance. Apparently their first 4 years of unending failure might have been a hint a to  
es.',  
'as quickly as possible. Incompetence. The king of vague ambiguous generalizations has spoken.',  
'How about a 'target' date that you're working on? That's what you do in business.',  
'Still comes down to "I don\'t know", especially when it depends on factors out of his control. Also the stakes are lower in business. Its just money.'  
'There's a big difference",

'Really "I DON'T KNOW means signing up to multiple sources to cover your bets. Jt did not .',  
"Funny that this article claims that we've signed up with 7 sources rather than just a cancelled contract with China.",  
"I wouldn't be comfortable if I thought Health Canada was working toward a target date or expediting the approval process. That sort of thing might be a new widget but health isn't business. The stakes are higher.",  
'Target dates, expediting, making business deals. not exactly what career politicians have experience in.',  
"You can't 'get' something without working on it. IF the concern is safety, then ok, raise the bar, but do some WORK for Gods sake",  
"And what work should the PM, the PMO or the government do to get approval from Health Canada? Political pressure to approve early perhaps? Skip Health and simply grant approval themselves? Declare Britain's approval as good enough? I'll wait thanks.",  
"Its approved in UK for 'emergency' use only.",  
'And the cow jumped over the moon and other Liberal cya stories.',  
'What does as quickly as possible actually mean? To me, it suggests that JT is admitting that the government no longer has any real control over the timeline to vaccines once they are approved. Quite an accomplishment for a supposedly developed country. incompetence',  
"Its really the manufacturers who control the timing of deliveries to any country isn't it?",  
'No, those in countries that have signed licensing agreements - which Canada did not do - will get access based on their domestic ability to produce them, those in countries that develop and produce their own vaccines - which Canada could once but no longer can do - will clearly get prioritized access, at least week.',  
"Where one is on the priority list still doesn't give one control of the timing of the manufacture. Order of delivery yes, timing no.",  
"But it's the govts obligation to at least get on the list. How's Jt doing?",  
"Actually mark our brain trust decided to put all its eggs in one Chinese basket and here we are.",  
"My understanding is that we've been on various lists since August.",  
'The Chinses deal fell through in May when the Chinese blocked a Canadian bound flight carrying their vaccine here for testing. Why in Gods name would sign up with China and not far more qualified a dependable Western companies.',  
"It's pretty obvious we're not on the priority list for any of these reputable major companies, when they know the first people JT went to was communicating for a vaccine. He stepped in it again, and it will likely cost Canadian lives.",  
"We'll likely 'follow' the hierarchy the US is using; front line health workers, other care givers, care-homes, workers in essential businesses (like food people, then oldest down to youngest. This doesn't happen overnight.",  
'Maybe they can beg for some doses to get our front line healthcare workers vaccinated this month.',  
'as quickly as possible. Incompetence. May I remind you that Trudeau does NOT know when or how much we are going to get?.....As for a purchasing agent miserably.....this is just one example.',  
'hopefully we are not using the one that england just approved, better to wait a bit and get one you do only once a year and can keep it in a fridge',  
'usually when you rush you make mistakes',  
'Does anyone? Mr Johnson seems to be in much the same situation and his approval agency cleared the vaccine there today.',  
'I suppose prudence is the only defence Trudeau has after he was so late in securing this vaccine.',  
'Was he late? At the time several months ago it appeared we were fairly early in the ordering process.',  
"xaoI said we will likely follow the 'hierarchy' of who gets the vaccine. I didn't say when we would start.",  
'He order in August which was months after other countries.',  
'Canada is such a joke. If you need proof, watch what happens over the next 5 years. Huge tax increases, multi generation home ownership horizons, no more work you work for the government Big round of applause for "saving us" leftists!',  
'The Cons are not going anywhere politically until they change a few things, and people forget about their past bad behavior. Here is a hint, stop calling communists and leftists, or alt left.',  
"Just wait for the 'closing tax loopholes' BS to pay for the 'we've got your back' hundreds or billions in new spending programs. Trudeau taking social kening levels.",  
"They did get the most votes in the last election so they're not that far away. Especially considering the dud of a leader they had.",  
"I'd suggest people stop BEING alt-left, leftists and communists.",  
'And what about the Liberals past and present behavior? The list is too long to comment here. I would have to get a book publisher.',  
'What does as quickly as possible mean? Trudeau is a serial liar. We know that. Incompetence',  
'It means that vaccinations will start as soon as he has a way to personally profit from it. Incompetence',  
'We get them when we get them. Unless you are a front line worker, senior, or vulnerable what makes you think you were first in line?',  
'when you are unqualified, not to mention incompetence, as quickly as possible may be a long long time',  
'They will roll out just like the clean drinking water promise. The Trudeau Liberals have zero credibility and more proof today.',  
'when indiginous quick squandering and embezzling the billions they get from tax payers they will have enough\$\$\$ to have clean drinking water',  
'if trudeau says it, it must be true. As quickly as possible, incompetence',  
'incompetence, Any comment beginning with "Trudeau says" should be relegated to the scrap pile of empty Liberal promises. Ask ALL the indigenous reserv clean water they have been "promised" for over 25 years.',  
'Remember way back before March....The world was warned of the Covid Outbreak in China and Canada was the last to get their citizens out of Ground Zero they were a month behind the world getting our Citizens out....Then he brags about getting tens of thousands back home through bottle neck airports in Canada screening or warning of the declared Pandemic in Canada with 3 Provinces closed.',  
'as quickly as possible, incompetence. and a months long wait to get rapid testing and now months long wait to get vaccinated.',  
'Total failure of this Govt to protect Canadians!!',  
'I'm not sure total failure is entirely correct. One doesn't look far afield to find significantly worse efforts.',  
'Why is wanting a vaccine as quickly as possible for the worst pandemic in over 100yrs even considered partisan? Who could argue against that? Only a pseudo-ideologue would argue against getting our life back to normal as quickly as possible',  
'Only 1.5M worldwide dead, yeah not too bad. Geez',  
"If it's bad enough to shut down our economy and rack up unprecedented debt, it's the worst in 100 years.",  
'It must be understood that when people raise concerns regarding safety of an expeditiously developed vaccine by novel methodology, it is not whining but a reflection of concern. If people raise concerns regarding unavailability of vaccine in CANADA for its citizens to be vaccinated unlike citizens of other developed countries like US UK Germany who are starting to get vaccinated ahead of Canadians..... it is not whining but valid display of concerns in this regard. This is a rough road and exposed deep failures of how our governments, Federal/Provincial/ local level, to deliver Health care services. Canadians were already unacceptable wait times of months or years for seeing a physician or a specialist or having serious surgery done or being treated for cancer - and now the vaccine related debacle.Current debacle to be devoid of capabilities to manufacture Covid 19 vaccine and then further failures to procure the vaccine developed elsewhere is momentous failure on part of all levels of Governments - Federal, Provincial, Municipal- to look after health and welfare of all Canadians - I know when Canadians set their minds to any task they are capable of accomplishing it. I implore to politicians/appointed/annointed/hired dignitaries to let Canadians down and to please act intelligently and efficiently and compassionately to ensure health and welfare need of Canadians is looked after and can do better ! I know we can.',  
'as quickly as possible. Incompetence. So for the next year the world will have to enact a Canadian travel ban. Good job Liberals',  
"Justin can't even get clean drinking water to First Nations after promising to do so for 5 years, but yeah, he's got a woke vision for re-imagining Canada. Good grief, what a donkey",  
"as quickly as possible. So how many more approvals does there need to be until it is approved 5, 10, 20 I just don't believe we won't get the vaccine next year or until 2022. In the mean time our Neighbors across the Border will be starting to vaccinate their population next Thursday. In a few weeks the doing their citizens in a few weeks.",  
'as quickly as possible, incompetence. Trudeau spends \$billions and does not negotiate dates or quantity of vaccines?.....What would you expect from a government?',  
'Correct. Part-time Drama teacher. Better',  
'Two degrees from Canadian universities and former high school French and mathematics teacher is accurate.',  
'FIRED drama teacher is 100% accurate. Fired for cough undisclosed reasons',  
'We will be getting our first vaccine shipment in April. 2 million doses. Enough for 1 million people.That's the reality.The US will be at herd immunity April if we're lucky",  
"Trudeau will have a way to make some money from this by then I'm sure.",  
'You will get the vaccine only after I am finish dishing out billions. Greasing party wheels and buying the next election',  
'Funny how all the liberal supporters are saying there is no rush for the vaccine now. see how well propaganda works?',  
'as quickly as possible. Incompetence. Just asking, why are other countries perfectly capable of approving the vaccines in a more timely manner than Canada?',  
"People whine and beach saying the vaccines were made too quickly and wouldn't be safe. (I'm not taking that - whimper-whimper). Then, when we're on the verge of something that only needs final safety approvals the same people are whining and beaching that its taking too long. You can't please these people. Trying too much.",  
'A failure should be recognized',  
'I don't believe a word this guy says....he has proven it time and time and time.....again! Incompetence, as quickly as possible",  
'Hey JT, WE don't have a vaccine.",  
'as quickly as possible. Incompetence. JT has promised by using taxpayers money he will get the vaccine to 3rd world countries. What a great guy.',  
'Yes, Captain Obvious. Have you got a deal worked out for the carbon tax on the delivery',  
"The government announced the purchase of hundreds of millions of doses with great fanfare. They neglected, however, to indicate any semblance of a delivery plan. We know it 20 million doses will be delivered sometime in the first quarter of 2021. Absolutely no word on any other deliveries. I guess that's why JT is so secretive in releasing any contact details. as quickly as possible, incompetence",  
'The US and the UK are starting vaccinations this week. I hope it will dawn on Canadians that the border closures are because of us not them',  
'as quickly as possible. The silver spoon boy dealing with Covid has been spend money as fast as he can. and not working as he no leader. now with the pandemic or unknowing. well i would say that the Members of the House be the last and their families to get a shot when it arrives. as we all know they shall bring it. they will say they need to live to spend more of our money.',  
'so far the only thing which is rolling as quickly as possible is the debt created by liberals',  
'As quickly as possible.Basically JT is saying we have no idea',  
'How incompetence would it be to demand a delivery date with no real idea when or if one or another vaccine might be approved? Remember that access to the vaccine was negotiated months ago.',  
'UK vaccination starts tomorrow, we can't be very far behind, what a relief.',  
"This little tidbit of information should appease the Con's concerns of not getting a vaccine because of its speedy availability.",  
'As quickly as possible he can get his buddies involved.',  
"UK just announced they have approved Pfizer's vaccine and will start immunizing its citizens within days. We don't even have a date as to when we might have three million. Epic FAIL.. Incompetence. As quickly as possible",

"Oh, for goodness sakes.....we will get the vaccine when it is ready and hopefully will be effective.....I agree with one person that I heard on other day re the US starting their vaccines later this month.....she said that she would 'prefer' to wait out to see how the vaccine is working on indiv US.....makes sense to me!",

'The middleclass and small business will be extinct by then',

'CBC story UK next week. British media have reported that hospitals in England have been told to get ready to start doing vaccinations for medical work s next week. Canada not so much, Canadian healthcare workers being let do by Trudeau. as quickly as possible',

"China and Russia have been giving vaccines for months. The Brits are getting ready. Gord ? He's just CONFUSED. He thinks this is a race.",

'Ernie has been fibbing about other countries getting the vaccine fast: Zahawi declined to give any specific date for a vaccine rollout as none have ye d for public use.'",

'CBC story UK next week. British media have reported that hospitals in England have been told to get ready to start doing vaccinations for medical work s next week.',

'These vaccines have not been approved. They may get some kind of emergency allowance to be used on health care workers etc., but they have not been ap on the general public. Till then we just have to wait.',

"Let's look at some of Trudeau's claims. August 30, 2020. PMO press release. preliminary production of 250,000 doses of vaccine per month starting in N ne of the things to remember is Canada no longer has any domestic production capacity for vaccines, - JT November 24th.",

"Lack of an exact date does not mean they don't have a plan.",

'Are you saying O'Tool is telling stories the same as Trudeau? No one can spin a yarn like the podium puppet.',

'Trudeau says vaccines will roll out as quickly as possible What does that basic statement even mean for when we will actually get it?',

'that means if you want to get it your place in the line depends on "donations" to his slush fund',

"as quickly as possible. Clearly Trudeau and his gov't have blown this and more than necessary people will die. Not that they didn't do their best, jus re incompetence having no background of experience to manage our government and negotiate on the world stage.",

'Hire people that can do and have the experience to run this country, not political folks with no real experience in managing anything of substance. Ho ital, a manufacturing plant, a banker, but not lawyers and certainly NOT Journalist, DramaTeachers/media types, or a Graphic Artist.',

'So your a Trudeau trooper and you do not want to be vaccinated. Are you wearing a mask?',

"Morneau was an odd fit for them. Wonder if that's why he's gone. Seems anyone with brains has left. Jody... jane",

'Unfortunately, the opportunity for improvement has passed. Our fate was sealed when the government did nothing until August, instead of relying upon t cine. Funny how we were going to be able to produce vaccines domestically when that was announced, however, we now supposedly have no capabilities for d tion. Guess it was a good thing that deal failed as we wouldn't have been able to produce it domestically if you believe what we are currently being tol

"If I was a liberal attached to the Trudeau government I would be really nervous. He's warming up the buses and figuring out who to sacrifice to save h

"It took more than a generation to pay for Trudeau père\'s largess: under Jean Chrétien, Paul Martin and Stephen Harper, federal spending averaged 13 P." Those being born today will still be paying for a government their grand parents voted to support.',

'This is a world event. the whole world is in economic distress',

'Good thing those born now have no clue what their life will be like. A true Trudeau recruit.',

'If the premiers vaccinate in the right order starting with health care workers we should get this under control to the point were we can get back to s . Our life as we once knew it is over. Going forward will be different. I,m hoping better.',

"Based on the statements of industry officials my best guess is that Canada will start to receive shipments by March. But how long will it take Health ove it? And how will it be divided among the provinces (by population, share of vulnerable demographics, rate of infection, etc.)? And what segments of will get it first? If Trudeau doesn't start clearly laying out how this is going to work, he is going to leave some provinces and demographic groups ver and the rest ungrateful.\xa0",

'Thanks for that. It is far more than Trudeau is willing to say. There has also been musing about prioritizing First Nations, public school teachers an other groups.',

'Politicians from opposite political parties are squabbling over getting this rushed vaccine to Canadians. I think they will be surprised, when they fi ow many Canadians will not be willing to submit to a vaccine for a virus that has a 99.8% survival rate.',

"The vaccines are safe? After you, Prime Minister Justin Trudeau, your family, your cabinet ministers and their families. I say we try the vaccines out cians and see if they turn green, gasp for breath or suffer any adverse effects. If they don't, then we can give the vaccine to the rest of the populati

"Way better than cons, all attack and no policy. O'toole wants an exact date on a vaccine that hasn't been approved yet",

"No he's not. That's Trump.",

'\xa0And you make excuses for the lackey who has others tie his shoes. Are you better?',

"If you haven't noticed they are both narcissists. It's all about them.",

'\xa0When I see JT's competition I am glad she is PM. Seriously look at his competition.",

"when you attempt to make him look smart I realise it's useless to discuss who's better. O'Tool is untried. Who knows what he can do. We,ve seen Trudeau 2015. It speaks volumes.",

"Way better than cons, all attack and no policy. Learn something Opposition parties do not make policies.",

"I am all for replacing JT if you can bring a solid opponent. As for o'toole if he had some policy he might get some credibility. When you only attack ing as a solution, you cant lead",

'Opposition parties propose policies and plans. Cons cant do that',

'\xa0Trump, Trudeau, basically the same type of person.',

'as quickly as possible. Incompetence. If we see vaccinations starting in early January, your off the hook Trudeau. If you do not get it started till S etter have your bags packed and looking for a place to rent.',

'Just watch an episode of the British TV series "Yes Prime Minister" ... a highly accurate depiction of how our country is run.',

"I'm not putting all my eggs in the vaccine basket. Until it's actually being jabbed into millions of Canadian arms I'll outwit, outplay and outlast Co egy and tactics are pretty simple, social distancing, hand washing and mask wearing.",

'In this COVID-19 pandemic, keeping Canadians safe means getting a vaccine as quickly as possible, but it also means making sure that the vaccine is sa ns," Trudeau said \' " Yep, that\'s why Mr. Trudeau, Ms. Hajdu and the Cabinet should be the first recipients of the vaccine; then we will all follow sui

'The vaccine comes when it comes. The political game that\'s evolved is ridiculous but was inevitable. It\'s like crying out "when is next year going to rtisan politics is a sad spectacle to witness and the general populace are tired of it, most people want to yell out "Get Real!". Can\'t politicians loo r and see how ridiculous they come across?',

"10,000 Chinese soldiers parish for every Canadian covid death; let's go.",

"O'Toole is borrowing from the Trump playbook except that he's falling flat on his face. But the neck beards still believe anything he says.",

'Hmmm. How would anyone compare Trump to any Canadian representative? Two totally different systems and in spite of Trump, theirs is way better simply people for the people that is what Trump actually likes about our system is the "monarchy"(he could just stay in the background). It would give him what l power. Trump is gone and our monarchy keeps on going. This from a Canadian Conservative and yes I way prefer O\'Toole over Trudeau any day. Cheers',

"I wish you all good health, but that doesn't come from a pill or a syringe",

'Trudeau says\x94.... I stopped listening to this poser about the same time I stopped listening to Trump. Incompetence, as quickly as possible',

'Anand: Vaccine delivery dates are being negotiated now. I can only hope that she informed the military and provinces. Not likely given this cabal.',

'as quickly as possible, incompetence. Trudeau opens his mouth over half of Canada tunes him out. Pretending he should remain PM is all you are doing,

'The half that are laughing are busy growing their neck beards.',

'... ..

storing boards are reviewing the results and found that at least three vaccines are effective - Moderna's, Pfizer's and AstraZeneca. The first two 90% a ne around 60-70%. "The length of immunity is short!". Actually, nobody knows the length of immunity. It may be short it may be long. Either way, it does vaccine debate. It only changes the frequency of vaccination - which we will address in the upcoming years.,

polls showing that a sizeable number of Canadians will refuse a vaccine altogether, or will wait some time before lining up for a shot,Con's sphinx's a over this news.RELAX, LOOSEN UP, STAY AWHILE.,

Earlier today a Conservative on this message thread was lambasting Trudeau for not promising the vaccine would be effective on COVID-20 and COVID-21.I s Trudeau is omnipotent.,

Lib are most distressed that the "Go Fund Me"page for the clown in TO who opened in defiance of the lock down has been removed. The left sees him as a evolution.,

Good luck to all non-thinking guinea pigs.,

No, just incompetent. Trudeau says,

The liberals are just throwing money at a problem without any experience to actually do something. Trudeau says,

He's my least favourite person but he's doing the best he can right now. It would be nice if people would just give him and all politicians a break eve n. They never signed up for this disaster too.,

prorogued parliament is the best they can do,

I look forward to travel again. Tacos in Mexico, walnut tortes in Austria, tapas in Spain, food markets in Taiwan. I look forward to seeing family agai ard even to awkward work lunches. We don't realize how much we miss things until they are gone. Bring on the vaccines. Doesn't matter if we have to get ce a year every year - it's less bothersome than a visit to the dentist.,

Conservative opposition is now pushing for a parliamentary probe into the CanSino deal. I'll bet it got something to do with Meng's house arrest. But C r so they stir up that pot.,

I definitely trust the Trudeau Libs far more than I trust the O'Toole Cons who would do or say anything to benefit themselves even if it harms Canadian considering top Con MPs like Rempel and Poulivre playing with conspiracy theories, pumping out misinformation, and doing their best to politicize the pa e like when Rempel dismissed the evidence of a pandemic committee just because it's head, a scientist, had donated to the Libs in the past. Their job is ovt to account not to dismiss evidence just because the messenger hasn't supported the Cons. That sort of politicization of the pandemic response kills hy Covid is so out of control in the US.I was pleasantly surprised by the opposition parties early in the pandemic but am appalled by much of what I'm s lly from the Cons but I've also been disappointed by the NDP who haven't seemed to understand the difference between federal and provincial responsibili eau Lib govt's pandemic response obviously hasn't been perfect, it's been the most unique situation all of Canada has been in since WW2 so I'm willing t e slack, I don't expect to support everything any govt does. But I have no doubt the Trudeau Libs pandemic response has the best interests of all Canadi We've seen in Ontario and Alberta how con premiers have used it as cover to benefit their donors in some of the most blatant cases of cronyism I've ever y years paying attention to politics. Also it's no accident that the provinces worst hit by Covid are run by conservative govts. It makes me very gratef Libs in office in Ottawa,

Sorry Canada, put all our eggs in the Chinese vaccine basket that fell thru...oops I messed up again. Trudeau says,

Cottage is holding on tight to the message this evening.,

Is perdue pharma going to b find 5 billion in BC lik it has been in th UK and USA? Or are we going to find out that thy slithered into Canada for "free of drugs?,"

O'Toole also slammed the government for partnering with a CanSino, a Chinese-run pharmaceutical firm, early in the pandemic to jointly develop a vaccin le knows everything. But doesn't mentions the billions in Canadian exports that ships to Jhina.,

The people frothing at the mouth to be the first to be injected without questioning products are wholly welcomed to be first and last in line for one.,

O'Toole again pushed the government to offer a firmer date for access to a vaccine. Trudeau said again they'd be available shortly after Health Canada THING APPROVED, NO ONE CAN SHIP.....O'Toole as daffy as last guy.,

Which vaccine will Justin be taking? Which calibre? That would cure some of our financial malaise.,

I do not see any Cons supporters on this site any more, they were saying all kind of nasty things about Trump. Even CBC everyday news about US election 8 weeks. Any news about Justin, Tam and Patty on CBC how they handling the Chinese virus so far for the last 11 months absolutely nothing.,

justin why not pony up some money to provinces so that they can deliver some health care for Canadians through the pandemic.of course you won't. you ar would just make premiers look good on "your dime". that's why you occupy an office you don't deserve. Just get out you weasel. Trudeau says,

Self proclaimed and reported efficacy beware with that theres a motive here and it rhymes with cash.,

while he's announcing \$100b additional spending, there is not an additional cent for provinces to spend on delivering health care through the pandemic. pending is just virtue signaling on our dime. he's not interested in doing the right thing, or spending money where it is really necessary. the guy is t of snake oil sales man.,

As quickly as possible. with the king of fails in the cottage, Trudeaus says,

Is paying lib trosls part of JT economic recovery plan?,

Trudeau's approval rating are higher than Jason kenney's in the Conservative Fatherland (aka Alberta),

The anti-vaxxer movement sure is picking up steam here. Good. We're overdue for some natural selection.,

The LPC is looking to charge the Deputy Minister of Finance who resigned today and gave 2 weeks notice with treason or crimes against the state or some tory on the capital suggest he no longer wanted to be associated with the LPC and their actions.They did ask him to remove the words "transparent"and "e y are not in the LPC dictionary,

Then the as quickly as possible didn't help you? Trudeau says,

Unless it's Trudeau's resignation I don't think so.,

So blindly following sheep, when you're told you need multiple injections per year, will you have any objections,

There are some exceptional examples in here of the LPC exploiting the youth of Canada to get their message out there. By Georg and the little one,

This is the time for all parties to cooperate - if there is such a time. But the Conservatives are being obstructionist and criticizing handouts to nee necessary programs, or actually, only complaining that the Liberals have to chock it up on the debit side instead of conjuring it up out of thin air, li atives apparently would.,

who will be the first to take a quickly made vaccine ?,

OK, Trudeau has changed his story 3 times in the last three days about when we can expect vaccines in Canada. Better? Trudeau says,

The Feds will drop the vaccines off on provincial doorsteps, then wash there hands of it. If distribution goes bad from there, they'll just point finge health care.,

All this free marketing for big pharma!!,

Anti-maskers are a virus complete unto themselves.,

Trudeau already has a recovery plan, the liberals on here are in no hurry to get a vaccine that according to them isnt approved by health Canada, or is y hard to actually know what is what with them, but they are sure good at telling conservatives something that they dont seem to see eye too eye with ea uding their leader,

UK, Europe and most likely the USA will begin vaccinating soon. But here because of an incompetent govt we have to watch more people get sick and die. It couldnt hurt to be a bit farther back in line. Lets wait a bit and see what happens.,

vaccines will roll out 'as quickly as possible. That should be given.Anything else, Trudo to add? Trudeau says,

Sick and tired of the tories with their blah blah blah. Use people who can think for ourselves know that it will be rolled out in January and over time people will get it. The people in September will be all the nay sayers who will eventually see there is no issues and roll up their sleeves as they dont ick.,

Why doesn't O'Toole present HIS plan, any plan, on anything. Easy to point the finger and criticise from the sidelines,

Healthcare workers...including psws. Nursing homes, schools, Drs office if you are particularly at risk. To say it is easy,

Vaccines work primarily by depressing the R0 value to less than 1, and the pandemic flames out because the virus runs out of "fuel". It is akin to dump forest fire. The fire flames out even if there is still dry tinder here and there - the key is to interrupt it and disrupt in several spots, not literal square inch of wood. People who refuse to get the vaccine are not endangering only themselves but the rest of society as well. It's no different from th ask behaviour.,

At the end of this poker game China won, we all lost, because our mist intelligent genius Jt. Tam and Patty,

Even though I am in a high risk group I will not be disappointed because I do not expect the jab until September or October. As for the healthy 20 year it of luck maybe 2022 or 2023.,

You won't get autism with this vaccine... rather IT WILL TURN YOU INTO A LIBERL,

If we shut all the flights and the borders for first there, then we all watching hockey now,

Too bad the MSM prints snippets of O'Toole's yapping. I guess they have to do it for the sake of the elusive 'balance', but it's really, really annoyin Transparent govt? lol, oh so far from the truth. Trudeau says,

Transparency? I guess Libs never got the memo from the transparency obsessed Harper.,

The key is 'safe' and that means leaving the scientific decisions to the experts, not partisan operatives trying to score cheap points.,

Of course they will be safe but will they be ready for distribution. Thats the issue on the table atm.,

The world is way past science when it comes to the imbroiglio of the vacine. Commerce, lobbying, politics, anti flavour of the month, standard methodolo observation, experimentation and/or calculations so none of the above.,

The vaccine plan according to liberals is in that little red book that back in 1993 J Chrétien keep campaigning about, to this date so many liberals ha many plans and promises in it, but no one seems to be able to find it, and now Trudeau leads the pack in there,

they also closed down the pandemic warning system in 2019,

16 tons of masks given to china. Justin love china.,

Conservatives want to take a vaccine that hasn't been approved? No wonder they were so eager to inject bleach,

I remember Justin message in April "GO HOME STAY HOME". I saw on CBC 10 times. In the mean time 6.9 million foreigner's came to this country message fo have party and spread the virus.,

I really wish people would not comment on vaccines unless they hold an academic background related to vaccinology, epidemiology or medicine. or at the ic biology. Let the scientists do their jobs. You do yours, whether that is barista, car mechanic or insurance salesman.,

you see how people think they can be experts when the part time drama teacher pretends to be PM,

Canadians will get their vaccinations "as quickly as possible" according to Trudeau. Well, that pretty much nails it. Trudeau says,

Hopefully this madness will be stopped somehow.,

Its good to see were waiting for health Canada's approval. I have no trust for any American organization.,

I will get the vaccine - mRNA vaccines are safer than the old generation of vaccines. Furthermore, they have not been rushed, only the bureaucratic asp hed". They went through phase 1, 2 and 3 trials as any other vaccine. The vaccine was developed in February; it took until November to get results. Does ed to me.,

I'm not sure what the issue is. The vaccines have to be approved, then manufactured and then distributed to countries. Does ANY country have a plan?,

hard for provinces to make plans when they have no idea when they will receive it...shall we keep the freezers chilled til September?,

The US plan is to start vaccinating their citizens next week and to be 100% complete by June.Canada has no vaccine and no supplier.,

So your saying you cant make plans until you have all the information? then their plan is fantasy

so you're saying you can't make plans until you have all the information? then their plan is fantasy., obviously, Nov 22, 2020 US, Germany and UK could start Covid vaccinations as early as the 11th or the 12th of December,, Only one word come out of their mouth JT, Tam and Patty from Jan till March. "THE RISK TO CANADIANS VERY LOW". The Chinese virus spread like wild fire risk was very very high. Trudeau says, Hard to blame them, they didn't suspect that the uneducated in Canada would make things this bad., Trudeau is to blame for not closing our airports and borders for months and months as virus poured into our communities. Trudeau is to blame. Trudeau is the virus didn't pour into the country like that. Ten or less vaccines came it and it spread from there., for a limited time and in this case - an answer I don't want from Justin Trudeau. Trudeau says, A doctor stated that it should take 10 years to formulate a safe vaccine, this rush job sounds suspect?, Is Trudeau going soon? I thought that the Libs were putting Chrystia in charge. Is that going to happen as quickly as possible as well? Trudeau says, No one trusts you anymore Trudeau says, The Libs are going to drop the hammer on working Canadians by having the CRA hassle them for a few hundred dollars on some forgotten T5. Meanwhile the akers are swimming in money., Not sure what the rush is. Not one province has submitted their distribution plan yet., It's absurd how a virus turns into the usual political argument., I will get you that information on WE and how much my family received, as quickly as possible. Everything with this clown is as quickly as possible. we e borders, as quickly as possible. we will balance the Budget, as quickly as possible. In other words ....he has absolutely no clue about anything he sp au says, And yet we are handling the pandemic better than most countries and Trudeau's support has increased.Maybe the cons can try some more faux rage and call ttees again., no we aren't. We have 12000 dead. Who are you comparing us to? the rest of the world, we are handling better than most. We are #23 on the list of most d ovid out of 196 countries. So no we are not doing very well at all. We are doing very poorly., But the Libs have managed to spend a lot of money... maybe they should have given very citizen a \$100 bill to use as a mask instead., Zero liability for the manufacturer and no national vax injury compensation in Canada. Anybody concerned at all about those things?, We can thank our lucky star we didn't elect as PM a guy who would have followed Trump's lack of leadership on COVID., So Canadians are sliding backwards in the vaccination line. This will be a quiet Christmas. Wonder if Trudeau will have a tree in the cottage? He can i ver for eggnog. Trudeau says, So, O'Toole now declares another SCANDAL... and hardly anyone is listening, To the Libs, procurement means they have added it to their wish list for Santa., Procurement for any political party is a slow, painful process it seems. Approving vaccines, etc. is probably in the same bracket., Trudeau and the Lib squad are big on rhetoric and very short on specifics. Trudeau says, Did CF discuss this last night. Reading the comments in here you can see why the LPC sees it as an issue., as quickly as possible. About as committal as the Prime Minister can get. Typical, Another clever Liberal slight of hand supported by their media. The \$400 work from home tax deduction - likely a non refundable tax credit - meaning yo tead of the thousands of dollars you used to be able to deduct. With the word "work" in the sentence, the Liberals wanted to shut down the tax deduction This is the open and transparency you get. I say to Canadians: hang on. We can get through this winter together and relief is on the way as quickly as Yes it is called opaque, Me: Hey son, when are you going to shovel the snow? Son: I'll get it done as quickly as possible, Conservatives are on fire again. Canada must be winning., Pfizer announces they have a vaccine... We are told 3 million Canadians will be vaccinated by end of March (6 million vaccines, 2 shots). Moderna annou a vaccine... Still only 3 million Canadians will be vaccinated by end of March. AstraZeneca announces they have a vaccine... Still only 3 million Canadi cinated by end of March. Talk of Johnson & Johnson nearly ready to announce they have a vaccine... Still only 3 million Canadians will be vaccinated by Yet we have deals with these companies? Shouldn't Canada be receiving some number much greater than 6 million vaccines by end of March? Each new vaccine able from a company that Canada has a deal with should increase the number of vaccines coming to Canada in the 1st quarter of 2021, to some number much million. Shouldn't it? (J&J is a single-dose vaccine), Procurement means nothing says O'toole... lucky we don't have conservative government., Procurement for the Liberals means major delays due to their incompetence for Canadians., Its amazing how many people are convinced this vaccine will be important to them and there is back and forth blaming of Liberals vs Conservatives as if nows anything about a medical disease. Here is a dose of reality: If you are under 60 and healthy, you are going to get through the Covid era with or wi e., My grandson says he can run a 5 min. mile. My wife says she can run it in 30 mins. but cannot guarantee a finish. Both claim they will do it as quickly The point being as quickly as possible has little meaning as it depends on your perspective., I wouldn't be expecting Canada to be fully vaccinated until next fall possibly even sometime in 2022. This isn't gonna get all done in a few months that t to mention we still don't even know how long the vaccinations will even work for yet, could be only a few months, I'm not an anti vaxer, but I will not take a vaccine that has been rushed. These vaccines are experimental messenger RNA (mRNA) and are being rushed ou s the ONLY solution. My body my choice., We get that the military will help in the deployment of a vaccine. We get that the govt says millions of doses are secured (38 million people.) We dont eep repeating this PM Trudeau. We get it. We need information on how the approval process is going and when you expect this to happen. As quickly as pos y open ended and not very promising., This will keep the left up at night. Detail from last night's spiel by CF. Building off a commitment of \$350 million made in Budget 2016, the Government an additional \$606 million over five years to support the CRAs efforts to crack down on tax evasion and combat aggressive tax avoidance., In Liberal/CBC Canada, it is not what you do, but what you say. No performance required. as quickly as possible, Lots of complaining from the Party that is going to lose tons of seats next election., Don't question what they'll inject in your body, anyone. Just smile and roll up your sleeve., Why in earth did the liberals not ask all the vaccine manufacturers to keep us informed and part of the tests since day 1. People are Dying, Topo Gigo gone for the night?, The US will definitely keep the border closed with the Post National State until the end of 2021 now., No government can please everyone, at least here we don't need to wait for richer nations donated vaccines., As quickly as possible now or what could have been under a more competent government? Incompetent, Liberal times are hard times., In general I think Canadians are getting tired of uncertain answers. Like how soon is as quickly as possible. Obviously JT has no idea when and doesn't e an answer only to be potentially wrong later., Say first, figure out how to do it later. sort of mentality when it comes to most things. Its just become more obvious during the pandemic., Deflection as a Liberal exceeds at., That deal was abandoned after the regime in Beijing blocked shipments of vaccine samples meant to be used in clinical trials in Canada. Well that's a s yone but the Libs. LOL, Then why the HELL did the current government enter into a vaccine development deal with China? Answer the question as to WHY the current government did Trudeau's no shining light, that's a given., So liberal loyalists put their faith in the declaration of a Moderna executive who has not received regulatory approval, has not vaccinated one Canadi committed to a delivery schedule with timelines and quantities if approved. Liberal loyalists are a gullible bunch., In other news, Justin won the race, but he is still standing in the starter blocks., Drama queens., Since Justin was sleeping at the switch. Maybe Canada can join the USA, to get the vaccine?, In time we will all be forced to get vaccinated like the rest of the world. The world will make it a mandatory requirement for places of business to re t be bars and pubs to grocery stores.UK has already put the suggestion out there to the people., I'm not an anti vaxer, but I will not take a vaccine that has been rushed. These vaccines are experimental messenger RNA (mRNA) and are being rushed ou s the ONLY solution. My body my choice. And I don't care what cyber war fare is going to be launched to try and silence any criticism of how these vacci created., The Spanish Fly, distant relative of DT or Bathy?, Did Trudeau stack Health Canada with unqualified friends and family as well?, Trudeau and Tam are responsible for the death of many Canadians as a result of their ineptitude. The lack of a plan RE: the vaccine is further evidence titude., The altered Universe of the leftist media. Trump - Vaccines being flown in right now. Trump - Vaccines being flown in right now. Media - Trump bad, Tru se, repeat., I want Canada to approve the vaccines for the Corona V. before I use it to protect myself and those around me. I understand RNA. What a great time to b What an obvious thing to say. "No, after getting the vaccine, we think we will take our sweet time rolling it out....", says no one., Exactly, Canada is in the same boat as the rest of the world, except we are we have reason to believe we are among the first who will receive it., Wonder if the left has figured this out yet?? Nope, they think 2025 is a time in the 24 hour clock. The first is the size of the increase in the federa atement tabled by Finance Minister Chrystia Freeland projects the annual federal debt will almost double from \$721 billion last year to \$1.4 trillion in ans the debt increases \$650 billion, the result of piling it on for four more years after this year's \$381-billion extravaganza., Still preaching from the steps of the cottage I see., If there is more than a 3% chance of complications from the vaccine, you'd be better off getting the virus, Plane loads of vaccine heading to the US. Canada dining on Lib/CBC subterfuge., Vaccine distribution. as quickly as possible. this is a delicate dance. in other words...don't hold me responsible. May be the press doesn't know how to I am so glad I was taught to think critically and question things, especially insane things like this vax. Good luck to the rest of you., Libs again struggling to be relevant, factual and respect the T&C. Well actually its just the same thing from them every day., Just saw on PBS in the US that they have firmed up their distribution plan by month starting in Dec for Health care workers and ending in May for the g ion in descending age groups. How difficult can it be for our government to be working on this task while concurrently ensuring the vaccines are safe? P anti-vaxers will not be logical or rational in any event. Nothing JT can say will change their minds so basically a waste of time and resources to allay since nothing will., Our government is working on the task. Didn't you read the article? When we get the vaccine, everything else will be ready for it. Moderna says we will first countries in the world to get the vaccine. What more do you want?, moderna actually said we are NOT the last. Nice libby spin tho., Moderna did NOT say that. They said we're 'near' the head of the line. Being 'near' is not being at the head of the line., False promises. Mismanagement. Financial scandals. Divisive policies. I welcome the upcoming spring election.....as do the experts. NDP & Green Part ago for the con potatoes here tonight.

Um, you do realize that 'near' the head of the line is NOT 'head of the line'?,  
do the damn research...let me get you started...It's called GOOGLE. Nope. Please stop saying you researched it. You didn't research anything and I doubt how. Did you compile a literature review and write abstracts on each article? Did you collect a random sample of sources and perform independent statistics on the reported results? You found something in your algorithm manipulated feed, something that complied with your personal bias, applied your errors and declare its proof. ,  
No need to get angry there. Take the vaccine and move along. Really, its your body your choice. Leave the semantics and just be calm. I'm sorry...do you angry? Not a chance. To suggest that Google is doing research is hilarious.,  
Moderna, open thread with the CBC on here. 7700 posts, few from the alt left. Either there were not told or are not allowed there,  
For the distribution of the vaccine sure reassuring to learn our military is better qualified than burger bros.,  
i prefer FedEx thanks.,  
Who else but the military would you prefer to carry out this complex mission.,  
FedEx, UPS, Amazon. Etc. Military adds one year minimum to rollout.,  
The Procurement Minister is doing a great job.,  
Said no sane person, ever.,  
You mean Porkcurement?,  
Based on what? How many Canadians have been vaccinated?,  
According to the people who would know she has. It's public knowledge.,  
Because she's procured NOTHING? That's public knowledge.,  
Messenger RNA technology is NEW for humans. It is simply unbelievable that the majority simply can't wait for this injection and don't mind one bit that in a few months. How brain dead people have become!,  
you need muting. It is OPTIoNAL. Dont take it. Please.,  
not a bit. Thats how testing is done. Voluntary too,  
I am so glad I was taught to think critically and question things, especially insane things like this vax.,  
It's actually not new for humans - it has been used with success in other applications (mainly oncology treatments). I appreciate your reservations, but cases like these, we sometimes have to have some "faith" in the limited trial results we have. While it's possible we could all mutate into zombies in two also highly unlikely. The alternative (just waiting to get COVID or hope it mutates itself out of existence) is not very appealing either,  
So you did no research? How else do you explain your conclusion.,  
Most people have no or mild symptoms! It is not as scary as we're supposed to believe.,  
Oh, I agree that your risk of dying from COVID is low (like less than 1% depending on your condition). But the risk of dying from this vaccine appears much smaller than that (i.e. no one has died from the 10's of thousands who have taken it), and it's 95% effective in preventing COVID infections. Long-term tests are possible with the vaccine, but I'd suggest they're far more probable with COVID. So the math tells me, get the shot.,  
"95% effective in preventing COVID infections" - wrong. The vax is only going to reduce symptoms, not prevent the virus.,  
Oh my God...I think you just open the box...A lot of mindless zombies on this site are about to descend...,  
I don't think you know what "infections" are. When the virus enters the body and starts to multiply rapidly because it has either overwhelmed the body that is an infection. With the vaccine, the virus starts to multiply but is quickly stopped by the already-primed body's defenses. The period of unchecked on is so short that we can't even recognize that it happened - hence we say it has "prevented infection",  
Just boggles the mind, how many here have no clue...You know, I have no objection with you getting "the shot"...just don't impose your irrationality on WHAT!? did you just say?...why do I feel like I need a shower?,  
Are you talking to me? If so, maybe you can tell me why you think I have "no clue" or where you think I'm "imposing irrationality on others" Or why you need a shower (unless that's personal),  
just my speculation but I think certain versions of this vaccine are going to make people infertile. They've been working to depopulate since the 50's and they have signed onto the UN population control agenda. I just can't think of a better way to depopulate than to make people infertile through a vaccine. It NORMALLY take 5 years to properly vet a vaccine.yet here you are advocating taking an experimental unproven medication(technically only people who get a vaccine for influenza)...But hey, you are free to do so.,  
I agree that the approval process for medications in general (not just vaccines) have been shorter, and that long-term effects can be ill-understood problem (e.g. Oxycodone, Proton-pump inhibitors, etc.). There's no doubt too that the rush for developing this vaccine is a cause for concern. However, given the data in trials to date, I'm comfortable that the benefits associated with it outweigh the risks (which I think are remote). If you think the risks outweigh, that's fine, but you're definitely weighting as yet unknown risks, since no serious adverse effects have been reported to date,  
Yes, well...The science isn't set, so...I would rather have questions that can't be answered..than answers that can't be questioned.,  
The ethical principle at play is that you've "done no harm" - i.e. the placebo people live the same way they would if they hadn't even been in the trial comes are no different than if they had been in the trial or not.,  
cons spreading the mis-info.. and Fear.. led by baby trump,  
just cant let go of Trump eh, obsessed,  
justin leads the libs what are you talking about,  
get over yourself sweetie. You liberals all need to be lined up,  
Get your own inflatable Trump.,  
baby trump,  
I vote NDP,  
im not cons are for leaders and finance critics,  
Gobbledegook,  
In case you missed it, here it is again. The drugmaker Moderna announced highly encouraging results on Monday, saying that complete data from a large scale coronavirus vaccine to be 94.1 percent effective, a finding that confirms earlier estimates. The company said that it applied on Monday to the Food and Drug Administration to authorize the vaccine for emergency use, and that if approved, injections for Americans could begin as early as Dec. 21. Thats the US, they do trials in Canada.,  
Liberal kiddie corps trying to be relevant after being locked out of the CF thread,  
What are you talking about? Trump deserves a lot of the credit for these vaccines, and he's touted them for a long time.,  
As quickly as possible is not an answer.,  
Its the official Liberal answer.,  
It just happens to be very open to interpretation.,  
island time is liberal time,  
The virus will balance itself.,  
Oh look at that the oTOOLe says we are at the back of the line.. Yet Moderna says were at the front. Who to believe.. baby trump or Moderna?,  
Moderna did NOT say we're at the front of the line.,  
Oh look, another defender who was not allowed out by the LOC last night.. Well lets do with the Leader of the Opposition. Why you cry. Well because, Moderna provokes thats why.,  
Did Pablo the LPC House Leader sign your papers?,  
yes they did.. we are at the front of the line read.. you potato,  
Well, when someone who posts inaccurate facts resorts to name-calling, consider me convinced.,  
Why do you find it necessary to post utter nonsense under someone else's name?,  
Well, since you asked...IF Moderna (like all other Pharmaceutical Companies get their immunity from prosecution.,  
Who voted for that guy?,  
The same number that will vote to re-elect him next time. The best thing Canada has going is the assurance only 30% of Canadians are fool enough to support the idiotic ideology of conservative ideology. Canada has always been a liberal society, remains a liberal society and will always be a liberal society.,  
Don't blame all of us from the maritimes.,  
Dr. Igor Shepherd is trying to warn everyone about this vax, as are many other in science and medicine.,  
Could you not find someone a little further down on the crackpot scale? Just google his name. "He believes that this fake pandemic is the means by which global government will be ushered into existence; one that cannot be voted out.",  
You have noticed that globalists are taking over the world, right?,  
as quickly as possible. Well that's pretty open-ended. The independent scientists reviewing the clinical trial data. Are these the same independent scientists ok FOREVER to finally approve rapid testing? And only did so when I'm sure the Liberals internal polls were telling them that Canadians were getting sick waiting for rapid tests to be made available?,  
I'll never vote Liberal again!,  
Kenney won't either, how about Harper, O'Toole or Scheer? lol,  
You can join the inconsequential 30% fool enough to support the archaic irrelevance of conservatism.,  
rennet who won the popular vote bud. Remember who Canada truly wanted. Deny deny deny all you want but you are still outnumbered,  
Conservatism isn't irrelevant just because you decided it is.,  
Didn't the doorstep salesman period end years ago.... not a place known for reputable claims.,  
failed internationally, prove to state multiple falsehoods, proven unethical acts, has newfound guilty of abuse of power while in office, he delays or conducts investigations that would publicly confirm his innocence, this is Canada's PM. Trudeau's incompetence is beyond measurements!,  
Poor Robby, you trust the cons and were duped!,  
Many Many thanks Mr. Toole telling the truth last night, You are true hero.,  
Hopefully the RCMP investigation to the WE and SNV lavalin matter will either clear the PM or sink him. Either matters to me as long as the conclusion is clear and the truth be exposed,  
As quickly as possible is pretty open ended.,  
If the vaccine works then anyone who takes it shouldn't care if others don't.,  
No. Some of us do care about the costs due to others' idiocy, such as the societal cost and the cost to the health care system plus the few for whom they do not work.,  
5% ineffective. I get it I take you out not with Covid either,  
I'm sure the opposition critics and some premiers will go straight to the head of the queue once a vaccine is available,  
and some premiers couldn't even take care of their own province in the past 8 months. So no room to complain.,  
And the current PM hasn't taken of the country either.,  
Let's not forget how the country was kept open until his wife and mother got back from their paid gig with a government funded charity and brought them and how he went from Ottawa to Quebec for Easter when we were not supposed to go to other provinces. He allowed asylum seekers to continue to enter and admitted more legitimate refugees by the thousands. Yep. He sure took care of us.,  
No date, no vaccine... easy to see these cats were not leading when proroguing.,

You dont want it anyways. Admit it., actually I do.. but after the vulnerable and healthcare workers get it. I used to work in infectious areas so the current precautions and such are no p  
I actually wore a mask when traveling to/from Hawaii on Jan 17th due to this virus, saw this coming on Jan 2nd.,  
Getting this vax is the last thing I would ever do. I enjoy life.,  
Stay in your basement away from the rest of us.,  
And we believe this guy with his endless promises,  
What promises in dealing with COVID has he not kept? He listened to the need to expand the CEWS, they continue to listen to groups about the stimulus p  
evolving, the gov't has largely been there for folks hurting....what is your issue, specifically?,  
And to clarify, I didn't vote for the guy, but I honestly don't get the vitriol sent his way non stop,  
as quickly as possible is a generic catch phrase people use when they don't have an answer to the question being asked. It has no meaning.,  
Like Trudeau's majority of Canadians. Is that a 30% liberal majority? You know 30 % of the voters or just about 20 % of our population.,  
It must really bug you to know he'd win again if we had an election tomorrow.,  
how do you answer and unanswerable question? When will we be getting the first vaccines from a product that has yet to be proven to work and approved b  
ry agencies?,  
I don't like our PM , but he is doing his best to get the vaccine . I believe in early February or March we will be getting lots of vaccine .It will be  
r for hospital and nursing homes .,  
you believe. Sweet.,  
Gobble, gobble.,  
I believe is right up there with as quickly as possible and health Canadas approval.,  
Coronavirus vaccine should go to health care workers, long term care facilities first, CDC panel recommends. Trudeau will follow.,  
of course - why wouldn't he? I see grocery workers and other required workers are also further up the line,  
The scariest part of all is that he never seems concerned about any crisis while our Premiers are appearing stressed to the max.,  
Why is it scary that he is appearing calm and collected, while also reiterating the emergency it is and the gravity of the situation?,  
pretty sure hes never experienced an uncomfortable moment his entire life,  
what's to be afraid of? You turn and face the danger and remain calm,  
Justin and his cabinet of incompetent flunkies are going to blunder this roll out just watch.,  
No more and possibly less than your favoured government would.,  
level of actual education and competence is orders of magnitude higher in the LPC than the knuckldraggers in the CPC my friend - lol Kenney is a Jesui  
dropout, Andy couldn't pass a broker's exam, half the CPC members never finished high school,  
Canada has a commitment from Moderna to be included in their initial production. The US supply is being made in the US. Our order is being produced in  
he only reason this became an issue is because O'Toole and the conservatives tried to use it to gain political advantage. But there was never really a p  
ahahahah thats why the liberals have been in full damage control for days now. premiers demanding a plan and date from the feds but yes you're right, t  
ervatives! ,  
Wasn't that what Bryan was saying. O'Toole's fake news.,  
I lost many brain cells just trying to understand your point. The liberals have no plan, no vaccine, no date to receive one, and not even what place in  
s in.,  
Do you really know that little about how our it works? Canada has an excellent healthcare system. They do millions of vaccines every year.,  
canada has an excellent healthcare system? are you insane?,  
Why did CBC run a story about Russian vaccines all of a sudden?,  
I am typing from my psych ward. My Four Seasons.,  
There's contracts and good relations. Objective studies do not have final buzzers, they have statistics.,  
More cons who don't know what the truth is or how to find it. Canada's Public Health Dept. has been doing millions of vaccine doses a year for decades.  
of public record.,  
If it was a woke flag waving event, our ever so lovely PM would be at the very front of the line, posturing and preening in front of the media as alway  
something important, as always, this utterly vacuous fool fails miserably.,  
Not even a clue.,  
Ontario has Hillier and Canada has Dany Fortin. Why one Canada and one for Ontario?,  
there should be one more. Army does everything in triplicate lol.,  
Depopulation. Plain and simple.,  
Then it appears to be very ineffective. The death rate is low and it does not appear to negatively impact fertility.,  
Along with the recent ruling in Portugal, there is going to be a growing amount of evidence for lawyers in Canada and elsewhere to pushback against loc  
the Covid PCR testing systems we have in place.,  
Trudeau says vaccines will roll out as quickly as possible after Health Canada approvals. Gawd....we do not want an undefined abstract like as quickly  
t rather a defined timeline. 4 hrs, 48 hours, a week a month.please define as quickly as possible Mr. Trudeau.,  
That is in the hands of Health Canada once it becomes available.,  
sooner than slowly but not fast.,  
Read my comment again.,  
What part of after Health Canada approvals do you not understand?,  
As quickly as possible, means just that. He isn't going to commit to XYZ dates, because then it would be "OMG, he is demanding Health Canada approve th  
s,  
Prime Minister Justin Trudeau today sought to reassure the country that his government will be ready to deploy shots as quickly as possible after they  
cessary Health Canada approvals. What that means...Once Big Pharma get their "immunity agreement", then the vaccine will be available.,  
Look on the bright side. We are not living in the USA and they have more cases than all nations combined.,  
And that means Canada, were back?,  
We are not New Zealand either where there are virtually none.,  
Canada believes shes non-exceptional just so she could be exceptional.,  
I prefer to be compared to the cream of the crop rather than the bottom of the barrel.,  
People here a miserable and cynical bunch. Sure its all Trudeau's fault, as per usual. Cry me a river. We are getting a vaccine a lot sooner then anyon  
We should be thankful for that instead of politicizing a pandemic.,  
yea libs dont politicize anything lol.,  
LPC defender suggesting he does not generate false narratives... Made the coffee come out my nose.,  
as quickly as possible confirms he has no idea.,  
If he said December 21st and it tuns out to be December 22nd Im sure you would have a massive stroke over that.,  
Just in time for we don't need it. Trudeau and the gang are following the globalist script.,  
The misinformation from O'Toole the fool is stunning. And the neckbeards believe everything he says.,  
good at name calling.,  
Learning form JT cult members,  
Of course they believe anything he says. They patently don't do any research on anything they believe. The closest they get to research is reading pers  
m other similar weirdos.,  
I read and learn from similar Trudeaus,  
What are you trying to say exactly? Think about it, push the buttons. Take you're time so its legible.,  
Weirdos ... Trudeaus ... get it?,  
And the Trudeau minions eat up all his fairy tales.,  
But it's okay when right wingers name call Trudeau and his supporters. Okay then.,  
you your is grammatically incorrect,  
what did otoole say - specifically ?,  
they are the masters of empty insults.,  
They are simply empty,  
hard to disagree. They lower the level of discourse for sure.,  
The cons are definitely low brow and gullible.,  
I can think faster than you can walk.,  
Why not just say who knows when?,  
This will be rolled out when WE and Maggie are lined up to benefit from it.,  
Expect labourday next year. Thats what Trudeau calls as quickly as possible.,  
This is not your traditional vaccine, it does not contain the virus (dead or alive). It's using a gene based platform that has never been used before i  
vaccine for humans. Rolling out a new type of vaccine on such a large scale with no long term studies seems irrational and should definitely not be mand  
ay.,  
DNA and RNA-based vaccines: principles, progress and prospects - Author manuscript; available in PMC 2007 Sep 19.,  
there's already lots of talk about it being mandatory for work and school. Will nurses be required to take it? They won't make it mandatory until they  
eople will volunteer for their experiment. Make no mistake, that's exactly what it is, an experiment.,  
Dont get the vaccine if you choose wilful ignorance. There may be consequences (possible barring from public places). Thats up to you.,  
barring people from public spaces means it's mandatory.,  
Hey, you're perfectly free to take it...no one is denying you right to do so...Yet...you seem to think your fear factor trumps my common sense.,  
That is exactly what they are hoping for...They know to "mandate" it...is to insight opposition and push-back.,  
TOTAL failure PM.,  
Pure coincidence no doubt. Likely nothig to do with CF and her spiel yesterday. Paul Rochon, the deputy minister of Finance Canada, is leaving after si  
rge of the key federal department. Dec 14th, last day.,  
following Morneau. Escaping before she goes under.,  
perhaps a person of integrity. Few of those in this govt.,  
Canada distributes millions of vaccine every year. We have an excellent healthcare system. Despite con efforts to try to tear it down.,  
lol. Thanks to the provinces we do. The wreckers are Trudeau's troops.,  
While the vaccines may be effective in the short term, I have high doubts as to their durability. How often will we be asked to get boosters? Annually  
?,  
Agree, without the self-congratulatory rhetoric, this could have been handled in a paragraph. A star is born...ha, ha,  
Are those numbers the vaccine that they've ordered or ordered and procured? The pm was saying the other day that we're at the end of the line, but Mode

so, what's the real story? Bigger question, who's paying for this and how much will it cost anyone?, taxpayers overall pay. borrowed money, Free to individuals. They will not give the honest story. Liberals after all , as quickly as possible, Trudeau seems to say a whole lot of nothing., Vote Conservative Next Time. they speak and the speak transparently, it would make more sense to do so, the Libs do it moistly, Trudeau is shifting out Billions to friends and some voting groups; it takes time. If we are vaccinated NOW there is no need for the billions, I have a brain that doesn't generate false narratives, Trudeau could use one of those as well, You ever post any for yours? Any view on this from the G&M. Paul Rochon, the deputy minister of Finance Canada, is leaving after six years in charge of al department. Last day Dec 14... Any idea why?, Oh yeah. Tell us about your military service? Elevator ride in Calgary and no one wearing masks, Remember those., As long as the vaccine doesn't come from China or Russia I'll consider it, I don't know about you guys but my worst fear is the Canadian government brainwashing and poisoning us by giving us rushed COVID-19 vaccines., the brainwashing is in the narratives spewed by this vapid Government... in lieu of actual pandemic or vaccine solutions, tangible budget, any accountable recovery plan, It's called a general lack of trust of everyone!, Covid has a 99.8 % survival rate without a vaccine, the promised untested vaccine has been promised to deliver 90% effectiveness in a virus that 99.8% ive? Welcome to the Twilight zone., I'll wait a couple of years at a minimum before taking it, feds are not that clever lol, Why take it at all?, A 99.5% survival rate means a 0.5% mortality rate. Hmmm... Something seems to be wrong with your figures. Across Canada we have had a 3.6% mortality rate hit. My figures come from CTV. Where are you getting your information?, I'll support your choice, if you agree that should you get the disease after refusing vaccination you'll pay for your own Covid care., I asked a question. I did not voice a choice., as quickly as possible, Like most things with the government you have take what they say with a grain of salt and use your best judgement. Remember... it is not your friend., 1% (370k) of Canadians have contracted Covid-19 .. SO FAR! Of that number, 3.25% (12k) have died .. SO FAR! Canada has done a VERY GOOD JOB at controlling compared most industrialized nations in the. Seems to me that some very good decisions are being made. Also seems to me that a small minority of Canadians are very appreciative of that fact., Given the number of people who are wishing for an early release of the COVID vaccine and are set on getting their dose ASAP, I wonder how many of them are in food? After all, one is genetically modifying what we eat, with a large amount of conclusive studies showing no negative impact. The other is a no risk for a vaccine, never before used in humans, that has NOT yet completed Phase III clinical safety trials and WON'T until late 2023, that directly genetically modifies your cells to create a protein spike for antibody production. And if ONE anti-GMO person comes out in favour of an as yet experimental mRNA vaccine, they will be labeled and intelligence, as well as their ignorance-based hypocrisy will be laid bare for all to witness. , Do you honestly think that an already over-reaching gov't won't take some sort of action to FORCE people? Like withholding your drivers' license or passing a rebate? Your ability to work or go to a store? Those measures would last about a week and a half before the citizens took over. And then watch whatever happens to the hospital ERs!, I mean the gov't generally. Interesting question about work? I don't think as a general rule you can be forced but would have to consult a lawyer if you want to., joe i guess justin could try but that would be chaos. Possible i suppose. Lots would say no out of principle , as quickly as possible. Can we have a date Trudeau? You did promise from your podium December this year. Did you forget what you said?, Guess you didn't bother reading the story, vaccines rolled out as quickly as possible and the vaccines will be procured in the first three months of the year. Vaccinations will start in March and we have the freezers and syringes already in place, He will just throw money around and hope people will forget., As quickly as possible when they are still negotiating delivery. What is the date? Provide the date., The UCP in Alberta cut healthcare jobs by the thousands in the face of extraordinary rising Covid 19 Cases. Imagine the cuts these inn breads would attract during a pandemic., more BS, money is given to the health services they spend it. If they want to pay all the top dogs over \$600k and not lower services, that's up to them Greasing the Party wheels, buying votes it all takes time.No rush on the vaccine., Same old ,same old from O'Toole and his reformer/cons. Strange he never says a word about that Conservative province out west . Why doesn't O'Toole ask for a plan, Unfortunately Mr Nice Hair is PM, What does Angry Erin not understand about rolled out as quickly as possible and the vaccines will be procured in the first three months of the New Year? Vaccinations will start in March and we have the freezers and syringes already in place? I think he has a hearing impairment of some kind., When will the liberal god come up with a plan, Kenny would Crush JT in any battle, And Trudeau dragging his heels on a plan and just throwing money around has resolved this problem how?, As quickly as possible. Thanks, Labourday 2021. Good for you?, O'toole administered the Russian Vaccine to his family before catching Covid. He still believes a tweak here and a tweak there will make the low cost strategy for high risk Canadians. The possible savings are worth the risk., trudeau gave his family the liberal vaccine. They all dropped their IQ points. Not they could drop much though, drive like that is unhelpful. Keep tryin, What a bunch of whiners. They should read this, scroll to the figure at the end, Very good. It is what we have been told. The whiners should complain that we are too near the front off the bus., Firstly, Canada need not take ages to approve the vaccine. If it is good for America and Europe our guys are not going to reject it. As such, without waiting we must go ahead and approve it. We are a nation of followers. We do not make statements by rejecting things that others accept. Secondly, what is as quick as possible? Doesn't the government have a plan? Why can't the PM give some numbers and a time plan? E.g.: We will approve/disapprove within 1 week from receiving the vaccine. We will vaccinate XXX people within the first week. We will expand that to 1 Million within X weeks. That is what people with plans say. JT has got nothing planned. They have a plan. All they need to do is add the dates to it. The problem is that we have no firm dates for when OUR vaccine will be manufactured. We are not sure whether OUR vaccines will make their way to Canada, or be confiscated by the country in which they are made for their own use, Justin needs more time to shift the billions out, Health Canada has temporarily shut down due to covid concerns, I guess empty air planes are coming back from china again., as quickly as possible. So how much of our money is Trudeau using to bribe Health Canada to drag their feet on approval to buy him time? It's a honest dishonest government., This government never denied that Covid was a major concern. The government south of us proclaimed it was a hoax and did nothing., The government announced the \$44 million project in May as part of a partnership between the NRC and a Chinese company to develop a made-in-Canada vaccine. The government wasted our tax dollars again., In other news, the finance Canada deputy minister resigns, undoubtedly because he knows what the liberals plan is going to do to Canada, and wants no part of it as quickly as possible, Any word on how soon Canadians will get Trudeau's vaccines - after his UN buddies are finished?, Russian vaccine story about how good it is. CNN got criticized about not being true. CBC takes a lot of reports directly from them., roll out as quickly as possible after Health Canada approvals. who says they're going to approve anything? Oops, I forgot about the gun to their heads. We have no expertise here to develop any vaccines. How do you expect them to critically analyze any potential vaccine? Health Canada right now looks like a bunch of baboons trying to work a TV remote. They'll get there - but it's all for show., Canada's Deputy Minister of Finance, Paul Rochon, announced his resignation today. Questions will be asked., when the liberals elect a drama teacher to be the PM.anything goes., O'toole's Russian Vaccine would be used on the unionized Health Care workers first., A Conservative Approach.You first., as quickly as possible. A straight answer would be nice., instead of no clear answer., The only answer they can give is that it will get here when it gets here, and we'll distribute it as quickly as possible when it does. The arrival date is out of our control., O'toole would be touting the Russian Vaccine and getting it at a 75% discount, That would save a lot of money if it works!, Probably better than the China deal Trudeau did where they took our money and said they will deliver nothing., They shipped nothing, and as a result were paid nothing., you like to stir the pot and cause chaos like the other liberals, Mack is a paid Liberal poster. BS is his business., CBC paying over another pothole in the Trudeau highway of failure., I wonder what percentage of seniors will be vaccinated by the time they've vaccinated all the politicians? I'm a senior and am sure the politicians will be before I do., In my circle of investors, we just finished divesting a combined 1.25million in various Canadian stocks/investments...and shifting solely to U.S. We're free of "Canada Free". Most of us are just buying U.S. greenbacks straight up., you need to prove that - or else its no different then saying you and your team ate cotton candy instead of working, 50 Cent Trudeau dollar coming. CBC will cheer and find a corner case story that makes it look like a success. While the main economy is ground to dust., I was thinking of using my greenbacks as toilet paper because the drugstore ran out of it., Good for you. Your circle of investors should know that the Canadian economy was better than the US before the pandemic, and is still performing better today with more jobs recovered than the US, per capita. If you're smart you should also divest your oil stocks before the coming tsunami., We ran the numbers ad nauseum. The U.S. economy is already recovering and Canada is ham-stringed by a delayed vaccine rollout. U.S. dollar will naturally rise in demand, while the Canuck dollar will crater. If you're smart you should also divest your oil stocks before the coming tsunami., I think they will do their best. I refuse to believe that the health and well-being of Canadians are not the most important things to this government., the most important thing to this PM is to be re-elected with a majority so he can stifle any and all investigations into his, to say it mildly, miss behavior.

On Sue, that would be lovely to that's how it worked.,  
They are doing a good job compared to most other countries. The Cons on the other hand are swaying in the wind desperately hoping for some traction before election. O'Toole, Poillievre and Rempel have their winning strategy on display, that is to provide as much misinformation as possible, never mind the fact with that. The only consistent thing about the Cons is that they never learn.,  
We are taking on debt so Canadians don't have to say what. Who other than UStax payers have to pay this back. This massive debt is on our kids and grandkids. Talk about smoke and mirrors.,  
as quickly as possible, So Mr Trudeau said nothing and it's a new story? Come on CBC.,  
I found plenty in the article that was of interest. Mostly it wasn't about what Trudeau said. Perhaps your bias is leaking?,  
There was nothing in this story that has not been said many times before. There was no news here. Perhaps you have been living under a rock.,  
as quickly as possible. Spent the most money and we will get vaccines right after Angola.,  
I want the Saskatchewan vaccine just for better rhythm in the next banjo bowl,  
Would you, as an educated person, be willing to experiment with a variety of vaccine that is being rushed to market, by any number of companies, known and unknown, it takes years for a successful drug to make it approved by Health Canada and the FDA in the U.S.A.? Not me, I'll wait for the trials to be properly done and then you will wait outside..sorry,  
This is a totally different process, you should read up about it. Damn right, I will be one of the first eligible to receive it and am going to get it.  
It was able to be done so quickly because of the massive amount of government money poured into the effort, and because scientists have been studying novel coronaviruses since SARS in 2003. It doesn't mean safety has been compromised.,  
I would - and will - do so in a heartbeat. I have absolutely no fears regarding risk versus benefit. I am also educated in Health Sciences; I am stunned by the intense anti-intellectualism and evidence-averse public, that think their weeks of consuming rubbish Facebook content somehow gives them credentials to question intensively studied health crisis in human history.,  
I am the restaurant industry, the movie theatres, the mom and pop as well as box stores. The emergency room, the school and the workplace to make a few more. The AstraZeneca is the only vaccine I would look at - it is developed by Oxford U, and uses proven tech. Won't be first in line, as I am not at risk, but I'll get it after a few months. And Canada has ZERO orders. I will not take the RNA prototypes - they've been in development for 15 years read about them in The Economist never panned out.,  
Get the people at Tims trained. Do it at the drive thru....everyone done in a day.,  
What a worthless creature can you call him human? Rules us, as quickly as possible. You will not see the vaccine until all the money has been shifted. Greasing the party wheels and vote buying.,  
The military has been charged with distribution good because this gang botches most stuff and the Liberals are going to keep throwing money at the problem until taps get turned off. That's where Canada stands today.,  
Always a critic, and yet Canada is punching well above its weight in all aspects of pandemic response,  
The distribution will be a snap for the military... just drop off shipments to 13 provinces and territories. The provinces/territories will do the rest of the vaccination systems, just like before.,  
where and what? by buying every possible product? by not knowing when it will be available? and lastly by saying they can't do the job and farm it out to someone else?,  
Vaccine will go to liberals first.,  
Justin don't be silly,  
What about the 400K newcomers coming from hot spots in 2021?,  
as quickly as possible. Canada first to ignore it African Safari, and viruses don't carry passports days, last to end it. Reset the liberals.,  
viruses do carry passports. You really need something worthwhile to whine about,  
as quickly as possible. Germany is setting up large scale vaccination centers while our federal government is still trying to figure out where to plug in new ones we don't have yet.,  
Pfizer vaccine can be kept for 30 days with the dry ice packs they ship the vaccine in. If it is still around after 2 weeks, somebody is doing something as quickly as possible. Do any of the people in charge have an education in anything relevant to their job?,  
Salaries should be set accordingly.,  
like a math teacher getting a masters in basket weaving.,  
Stay inside, mask-up if you go out, stay apart and crush this virus in 3 weeks, way before anyone gets a vaccine. But then you wouldn't have anything to brag about.,  
Only the rich can say that.,  
no the government payed people to stay home but covidiot would listen,  
You need the vaccine first to roll it out. Canada has none. Just another big head fake to keep the Canadians sheep at bay.,  
it'll be longer than anyone thinks,  
as quickly as possible. Canada, ask yourself this question: why is this man still the Prime Minister of our country?,  
If I cannot afford to pay for a baby why should I pay pre & post natal care, childcare, child credit, safe injection site, schooling cost, university costs? Who can't afford their babies and will end up on my support anyways? don't need your pension or healthcare Let me have my money I can grow it myself,  
Still wondering why we don't have a doctor as minister of health during a pandemic,  
He is PM because he is the best choice to protect Canadians from suffering the pain and shame of a Conservative government.,  
the welfare crowd loves him,  
He is the best Hippocrates who can sit on his estate fund mostly taxpayer money in his Florida state and lecture eloquently about socialism,  
We'll have them demanding...no...begging for a shot of our product before year-end. What did the prime minister say to the pharmaceutical executive. I'll be a stranger than Dystopic Fiction,  
When the bed is wet, You know it was Justin who slept in it,  
as quickly as possible. So tired of needing a fire under his ass for him to come out with some half truth. I'll see it when I believe it.,  
The sooner the vaccine rolls out the sooner we can have a federal election,  
Liberals are well ahead in the polls, and then there's Jagmeet for the prop up. Canada is in deep doodoo - unless you want to own nothing what about owning privacy,  
no privacy, and be told you have to be happy.,  
One thing about a chronic lie is they just keep lying on one after another.,  
the other thing is they have to remember everything they made up. Notice a trend in Liberal Ministers on different pages?,  
believing his own untruths become incredibly problematic!,  
Approximately how many shares of Pfizer does Trudeau have?,  
Not only he as an insider, on our dime, have advance calls on investments.,  
All the debate about the competence of the current government aside. the sooner we can get widespread vaccinations. the sooner we we can get back to so far from normalcy and I will consider that a win.,  
They remain in office at the discretion of the voters. If the voters don't like what they saw before 2023, they are gone. Could be an election sooner than the minority government, but it is still us the voters. Or are you one of those Trump supporters who believe voters don't matter?,  
Take a look at conservative party history. They can't come to a consensus within the party. How do you expect them to rule the country, when they can't live?,  
I'll bet that Trudeau wishes he was PM in his father's time where there was no internet, and nobody doing fact checking on what he says and doesn't say. He's managing himself further and further into the corner. The UK is expected to approve the Pfizer vaccine this week and is already taking appointments for vaccination. I will approve the Pfizer vaccine on December 10th, and the Moderna one on December 17th, with vaccination starting 48 hours after approval. What will Canadians see the Brits and Americans getting vaccinated, and all they get from Justin is a lump of coal in their sock. We have a vast array of vaccines available. This portfolio is the biggest portfolio that the world has ever seen. The number of vaccines is incredible. We have the highest per capita number of vaccines in the history of the world. Nobody has ever seen anything like this before. Yes, Justin but when? "Ummmm, Ahhhhh, Have you seen my drink water box bottle that I bought as quickly as possible.,  
He doesn't now nor has he ever given a tinker's damn for the working class.,  
If you want to see how his ideology was born, look to Pearson and to PET who was Pearson's right hand, who later became PM. This was the beginning of the crumbling of Canada.,  
Well I think it would be fair if the roll out started on the West coast and moved eastward as supplies allow,  
Trudeau's banana non budget released yesterday, top man in finance quits today with 2 weeks notice. Trudeau fails again. as quickly as possible,  
Let's see, we have known about this pandemic since February. We did a deal with the PRC in May -they reneged! We then went ,cap in hand to other suppliers to get a cheque book and no delivery dates. The upshot is that even with a president of the USA unwilling to even to acknowledge the Covid19 virus, all Americans would have it by the end of June 2021. In Canada our PM suggests that maybe by September -didn't say which year 1/2 of Canadians might be vaccinated. We did so badly! as quickly as possible,  
Hadju tells us there are delivery dates in every contract. But she won't tell us what they are. None of our business apparently,  
Anand said today that there are "delivery windows". And "we have a whole portfolio of windows, more windows than anybody else in the world. Nobody has any windows of delivery times before,  
Could not possibly be firm dates, given that nobody knows for sure the exact date they would each be approved.,  
Trudeau is buying plenty of vaccine to ship extras overseas. You will pay for it Canada. It is part of his scheming, the reason there is no anchor to hold him will to spend your tax dollars and borrow your great grandchildren' grandchildren into debt.,  
Actually, I heard on NPR Radio that some countries, possibly including Canada will donate tens of millions of vaccine doses to underprivileged countries in Asia,  
Why would he do that? Does the UN factor into your answer or is he planning to move to Narnia or Middle Earth and wants to ingratiate himself?,  
That's a good thing. In a global community we need to stop the spread everywhere or the virus will simply keep returning.,  
Nobody is safe unless everybody is safe. Remember that?,  
So in last week's picture on "botched" he was clean shaven and all that. Today he looks like he usually looks. Cottage managing all parts of the LPC media..kt has been busy.,  
We haven't even gotten into the distribution logistics issues yet. Those will add another 3-6 month delay,  
The provinces all have distribution systems that have worked for the flu for the last 10 years or so. Average of about 30% of Canadians got flu shots with 2009 at 41% for H1N1.,  
because the gov't has never distributed a vaccine before. They have nationwide systems in place and the additional logistics are being addressed at multiple times the fact that you don't know anything about this is because you're not involved in it. The fact that you assume that nothing is going on is because you think about this.,  
as quickly as possible. How can anybody still think he is doing a good job?,  
denial is the new trend,  
I think they left. now nobody does,  
And yet the polls show he is widening his lead over the Conservatives. In fact in Alberta Trudeau has a higher approval rating than Jason Kenney.,  
if that's true, that's funny as hell

it chats live. chats funny as hell,  
What polls are you referring to?,  
polls are insanely accurate, thanks for the update,  
Complacent and indifferent Canadians think he's doing a great job.,  
Yet another repeat from yesterday.,  
He doesn't know. Like everything with this liberal government, they don't want Canadians to know. Transparency isn't their forte.,  
The Trudeau Government will set this up so that if it goes smoothly they will steal all the credit and if it goes bad its all the Provinces fault and n  
ts all they care about.,  
Typical of the Liberals. We have a plan but we can't tell you. Why because we have no idea of what we are doing. I was a drama teacher and a social lit  
expect we to be a leader of a country. As quickly as possible.,  
Every day Trudeau's story changes. Will we ever get the truth from our ethically challenged Prime Minister?.,  
I love it. We'll be ready when health Canada approves it. Already setting it up to pass the buck,  
Really? Does any Liberal still have faith in this guy? as quickly as possible,  
I have just a wee bit of faith left in him, which is far more than I have in the other party's leadership.,  
I can't believe just how resoundingly incompetent Justin Trudeau and the Liberals have been. They've completely mishandled the pandemic from the get go  
uess, this is all of Steven Harper's fault? Complete and utter incompetence. as quickly as possible,  
Trudeau did not listen to the Military in Jan when they advised there was a virus in China. Why is he going to listen now,  
I admire Mr. Toole. I am going to start raising donations for conservative party of Canada. I watch his entire speech last night it was shocking. I hav  
customers, I can assure you I can raise millions for conservative party of Canada. I am also going to donate \$10000 asap. No news media across country t  
for the last 11 minths except Mr. Toole last night.,  
Trudeau says. Trudeau says nothing of value is the missing words. as quickly as possible,  
as quickly as possible. Health Canada has provided its approval, we are well-placed to begin deliveries to Canadians as quickly as possible. We will ki  
livery process as quickly as possible. That's why we have the refrigerators procured. That's why we have the needles, syringes and gauze procured," she  
ivery process? Asking for a friend. the provinces.,  
Conservatives still adding contaminated liquid to their cornflakes for breakfast,  
This isn't about cons or libs... it's about people wanting to get back to work, school and family. Let's try not to make it political.,  
Libs still adding contaminated liquid to their cornflakes for breakfast....?.,  
Just graduated from the LPC defence school. Must have been at the bottom of the class.,  
it's about making guidelines for covid more important than demanding unanswerable questions. we get the vaccine when available. covid is now,  
the best defense is to stay home, wear masks if you must go out, and keep 6 feet apart....can you promote those guidelines.,  
Take your vaccine and shove it shill.,  
I'm on the left, oh wise one.,  
Mask taking oxygen from whatever brain cells left?,  
This website just loves putting our Prime Ministers mug front and centre daily. He is an embarrassment and nothing but a phoney actor. As quickly as po  
Almost makes you think he has a flair for the dramatic,  
but he was born to do this! Haha,  
I say something like that about a Conservative and I get red-shifted.,  
A phoney actor with a constant smirk -To him, everything is funny - even this pandemic it seems,  
He's smirking since he's finally being recognized by the globalist cabal, that is after selling off Canadians' rights and sovereignty. Future generatio  
hook for billion\$...oh no that's not right...the IMF will forgive all debt as long as we agree to all their evil commands. We'll own nothing and be happ  
,  
JT is a perfect example of how appearance is effected by actions and behavior. This supposedly good looking individual, is currently as ugly as the ugl  
pointees, in and out,  
Georges is a full fledged globalist puppet. Tyranny looks good on you.,  
as quickly as possible. Letting a bunch of pointless third world countries get the vaccine ahead of us is not only a great way to lose an election, but  
al pariah too.,  
Bill has been experimenting in India and Africa for years.,  
Trudeau intends to provide vaccines to those countries on tax payers dollar.,  
They don't want him yet Gates and "that techology doesn't exist" thing on his lap, are insisting to be "chartible" in their eugenicist utopia.,  
I'm not naive enough to hope the side effects of the vaccine include x-ray vision or invisibility; I'd settle for a second scrotum on the end of my chi  
What? You want to be a BallChinnian of MIB 2 fame?,  
Mike devries asks, " which mutation does this "vaccine" covers? or does tapwater has a better effect?" only to be one-upped by Ori Omessi who fears tha  
your purpose. Covid eradication, or fighting population growth", Andrew Petriw goes further by informing us that "instead of getting a covid vaccine thi  
rnmnt is trying to implement SOCIALISM that many don't want." It is unclear who is performing all of this nefarious work as Gary Turnbull has informed  
au can't even show up to work",  
All nonsense.. except that last part has a grain of truth.. how long did he avoid parliament, only to prorogue it?,  
Those are your teammates, not mine.,  
Every team has its embarrassments.. you know its true.,  
I do and for legitimate conservative voices it is a tragedy that your team has the most. You folks should seriously push them out to the People's Party  
long. You're getting tarred with the same brush.,  
Its hard to ignore, lets call them "over the top" opinions from all sides. As to number, there may be more or less on any given day.. but I hear you, t  
ke us all look bad.,  
The Canadian government wanted to believe a vaccine from China was going to be the cure at the beginning of this pandemic. After that deal fell apart b  
a deal with China, we got the Moderna deal. Canada's spot in the Moderna queue is because of the governments timing to sign the contract and nothing els  
The Vaccine will still most likely come from China after the Moderna deal falls apart,  
Do we have any idea how long the immunity from the vaccines could last? It's kind of disconcerting that this isn't even being discussed in the media. A  
ished in the Lancet this September warned that immunity could last less than a year. So this could end up like a yearly flu shot except that everyone sh  
ng it.,  
3 Months Minimum Line up Every 3 months for a re up,  
Yeah, that's what I fear. At the same time, if enough people get vaccinated in a short period of time, we could reach heard immunity for long enough fo  
o kind of disappear as it cannot find new hosts.,  
This isn't going away with one poke in the arm,  
of course. It will be until the virus mutates. Necessarily less then a recovery from infection,  
that is key info from all our past experiences ... we just need the majority vaccinated and quick like,  
How could anyone know for sure? That takes time to tell. I have seen estimates that it will likely be at least a year based on tracking of mutations an  
s.,  
A vaccine for a virus that is cannot be detected from a test not meant to test viruses, is not a vaccine worth taking. That and the fact that Gates, Sc  
openly telling the world their nefarious plans.,  
Will the vaccine be effective against Covid 21 and 22 ?,  
watch the trailer for songbird and find out.,  
Why not demand a vaccine from Trudeau that cures all diseases, even the ones we don't know about. That is essentially what you're wailing about,  
as quickly as possible. Why bother. He cant deal with the present let alone the future.,  
Do you expect he should deliver on a vaccine for diseases that are as of yet unknown?,  
As the romans did 2000 years ago, keep the population happy by providing bread and circus,  
The left/right paradigm still works well, with the aded layer of who is a conspiracy theorist and who blindly obeys the government/media. I'd rather be  
e former any day of the week.,  
Did you get The Vaccine yet? No? Well, I got mine. Nyah nyah. Side effectasd? Nonb theot I'm aware ov. Blerble bleop. thhhbbbt.,  
I think Mr. Toole told the truth last night, it was shocking.,  
Cade, Jerome, Patricia, LPC pom pom wavers noticeably absent from the CF thread but back here now in living colour. Of course the message from the left  
d. Just like the PM and his family did not benefit from WE.,  
Trudeau on the cost of fighting the pandemic.. ah um.. I dont know.,  
When JT can't answer the question, he always refers back to his pandemic plan, that it's the best and pats himself on the back.,  
instead of getting a covid vaccine this federal government is trying to implement SOCIALISM that many don't want, Wrong guy for the job,  
The money they are throwing around our money BTW should be put into turning out vaccines so people can get back to work, school and family.,  
That's what they're doing. Did you even bother reading the headline? 20 million doses requires some cash.,  
did you even bother reading that millions are being thrown out for child care, loans, businesses....? If this group had been organized the money would  
vaccines already, not stand in line behind the US and UK. This has been mishandled from the get-go ... we have no room to criticize our neighbors to the  
did you hear we may not get a vaccine until Q3 2021, when the USA is getting it now, reading is a skill, and this government is like smoke and mirrors  
ocialism while we are locked up,  
Why is our national broadcasting corporation blocking my references and links that show we will get the vaccine in late 2021 and possibly 2022,  
JT also said late September.,  
by the way: which mutation does this "vaccine" covers? or does tapwater has a better effect?,  
depends your purpose. Covid eradication, or fighting population growth,  
All the weakest link defenders the LPC did not want on the CF thread have been released here Tell me again the LPC does not have a media message manage  
eam.,  
All the cool kids are talkin bout The Vaccine, 4 out of 5 Experts recommend rolling up your sleeve for The New Vaccine. Be the first kid on your block.  
y. Batteries not included,  
I see the Cons losing big seats in an election. All hat and no cattle for them,  
You are not write again.. Were you not allowed on the CF thread from yesterday? Good move on the LPC part, you make the left look bad every time you tr  
hem.. As you did here,  
20-40 seats. Looks like a wipe out.,  
Given where your head appears to be you cant see anything except dark walls that smell funny.,  
An awful lot of faith is being given to an unproven vaccine. What if giving this to our frontline workers goes wrong?,  
Two have been proven in the US, just not authorized yet. One proven in the UK, and expected to be approved this month. What do you think all the 3 phas  
for?,  
it is way too early in the process to sav its safe. It normally takes 10+ years for vaccines to be deemed safe.

I hope you're right. Usually these vaccines go through years of trials. This one hasn't. You can't blame people for being a bit leary of it. I know I am because the vaccine is safe for those who want it/need it.,

So far the only elected Conservative hoping for a federal failure is Mr O'Toole.,

after certain health canada officials get their share of the donation and motivational subsidies,

You should actually look what JT says now. That is history, not news.,

Build back better or build back the way the Cons want? I see an election coming.,

That's the Problem now isn't it . The Libs left things in a way that need to be built back better. shame on them,

Note how all of a sudden there is a plethora of posting tossing our vacuous one-liners. Shift change,

Details are scanty from the Liberals, lol, as usual.,

The Conservative Party should add Wile E. Coyote to its logo give they are as effective as he is.,

And the Libs should have Alfred E Neuman as its logo....fyi, both parties have their issues, not just the Cons,

Natural immunity is far more effective. Before rolling out a vaccine, place a test to detect the naturally immune.,

You mean...do precisely what we have done every year in history prior to 2020....? That's so crazy, it might just work.,

I know right... I'm not sure people can handle all that liberty,

It has never been done in history. I have had vaccinations for small pox, polio, TB, Yellow fever, tetanus, bacterial pneumonia, shingles, and at least

of flu and have never been tested to see if I had them first.,

Trudeau can't even show up to work,

You can have mine. Double up you will be safer.,

The vaccine only works on humans.,

Here is the article where he says Sept. Now its as quickly as possible. So there really is note date is there PM?,

Trudeau failed Canadians yet again,

We need more transparency in the charitable sector but unfortunately, a certain group is pushing hard at reducing transparency and they are being quit

Bur the CRA has just removed any requirement for a Canadian charity to report on non-partisan political activities, what are now called PPDDAs.,

The only thing left for Conservatives in Canada is to be part of a Borat skit.,

The level of failure of this government, makes the majority of leftists want a conservative government - which is an unprecedented level.,

Justin made a brilliant cameo in the new borat movie btw,

These false flag vaccines will never be rolled out ...maybe only for rich fat cats like the Trumpster !,

Justin you spend \$44 million tax payers money with Chinese company for research. Don't you know how many peoples sleep on the sidewalk across the count

It was the NRC.,

Give it up. The Liberals did a good job on this and Canadians are happy with them. The number of outstanding scandals being promoted by the far right t

ive: 0. What will they invent for tomorrow.,

your correct..... if you live in bizzarro world,

i think most the scandals come from the liberals and the far left ... Just saying,

you are in the minority and soon to be gone,

i cant pay my family directly with tax payers money but i can donate to a charity that does,

Patience, we will have access by late 2021,

Trudeau will have legalized and distributed Recreation Cannabis Faster the Feds will approve and distribute the Vaccine. Its all about Priority's,

Collecting the most taxes is the priority ! ...LoL,

Unfortunately I cant post a hand created Canadian wreath! 2 drinkin boxes and 3 bananas...hand crafted gifts are the best!,

Contractors bidding for the job of distributing the vaccine have been told by Ottawa the work could go into the end of the second quarter in 2022, or J

That seems reasonable. Sixteen billion doses are required word wide.,

So you are happy to let this play out that long here in Canada?,

No, but we can't change what is. That being that we cannot make it ourselves, and we are on the list with only 37 million out of 7800 million waiting f

as quickly as possible. Staying in his lovely cottage for almost a year, posting his selfies in the front page everyday, and getting paid for pretendin

, Wow! What a happy year this is!,

Contractors bidding for the job of distributing the vaccine have been told by Ottawa the work could go into the end of the second quarter in 2022, or J

at reassuring folks ?,

Yes! How long do you think it will take to manufacture and deliver 16,000,000,000 doses? If they can make 100 doses PER SECOND, it would take 1852 DAYS

h. That's more than three and a half years of 24/7 production.,

Until Trudeau clears the way for a public inquiry into WE, you can't believe a word he says.,

Lock yourself indoors, do not exercise, do not eat nutritional food, do not take vitamin D, C or zinc BUT make sure you take the vaccine.,

Most, but not all will have access by late 2021,

just give me a laminated card for proof of inoculation. Please no smart phone app. Have you ever been lined up at the gate at Pearson when the hair bun

their boarding pass on their smart phone, Puleeze! (Cardboard boarding passes work faster. Who knew?,

as quickly as possible. So Trudeau says we will be able to get shots soon after Health Canada approves a vaccine. That's great, but when will Health Ca

he vaccine? And it's wonderful that we have freezers already, but they are empty. When can we expect to actually receive any vaccine? Because it really

whether Health Canada has approved a vaccine or not if we don't have any to distribute. Canada is the only G20 country with no budget. We have the highe

capita and as a share of GDP in the G20. We're in the bottom quarter when it comes to unemployment. We're one of the only developed countries that has f

e the right to produce any approved vaccine domestically. And we have no idea when we will have any vaccine to distribute. Thanks for nothing, Trudeau,

Vote Conservative!,,

Can you imagine if we have Chinese vaccine in Canada,

I wonder Chinese buying million of dollars of properties across Canada,

How serious can the pandemic be. Freeland and Trudeau have been chatter up how they plan to use this situation to promote their version of utopia. They

this since day one, doubled down on it with the GGs speech and have been shouting it since.,

opposition critics and some premiers accuse his government of falling behind on a vaccine distribution plan. Opposition needs to step out of the way so

t can get some work done.,

The only thing impeding the Liberal's distribution plan is the lack of a coordinated plan.,

They're putting that together now. There is no vaccine yet. Take a chill pill.,

How is the opposition stopping the government from doing anything?,

Trudeau has said a different thing each day. Two days ago he said we are near the back of the line, yesterday we were close to the front. No matter whi

ose he is still trying desperately to bury the WE scandal.,

By taking up valuable time arguing in the house about utter nonsense.,

So you think Trudeau and his ministers are personally doing the work of procuring, approving and distributing the vaccine? The only job of Trudeau and

is to be accountable to parliament for their policies and spending. Debate in parliament does not slow down the actual work of implementing those polici

g decisions, which is carried out by legions of public servants.,

That was really funny.,

as quicukly as possible. They havent done anything in 5 years...whats the difference?,

Those who complain here are mostly the same who said this pandemic was a hoax and the virus only affects 0.00000000001% of the population. We need a va

ense.,

Statistics say that unless you are already on death's door you mostly likely will have a runny nose and maybe a cough. Do you not believe the statistic

A good percentage of Canadians will receive a Covid vaccine--by next September and so stay cool!,

What about the 400K plus newcomers coming to Canada next year?...will they recieve the vaccine first?,

No world leaders want to deal with Chinese regime then why justin sign deal with China. Thanks God it did not go through,

Now what does Angry Erin not understand about rolled out as quickly as possible and the vaccines will be procured in the first three months of the New

nations will start in March and we have the freezers and syringes already in place?,

I think angry Erin has "selective" hearing. Happens when you are always looking for the negative.,

the same as the rest of Canadians. How many time did we ask to get this response? now the question is it fact or just feel good words?,

Erin has no idea when Health Canada will approve vaccines.,

Still barking up the tree Cade? Where we you on the CF thread? Muted by the LPC perhaps?,

I burst out laughing at the mere sight of Trump or Biden. I reflexively gag when I see JT or Kenney. Same basic reflex...just a different level of inte

Oh so you're one of those types eh? Judge not, if you can do better get in there and do it, if not then just holdoff the un warranted critique.,

It's great to see that people on this forum think Trudeau is a pseudo dynastic politician riding his daddies coattails and intellect and the only thing

him is his blood and his socks, otherwise he is a vacuous leader who isn't worthy to considered prime minister. as quickly as possible,

A week ago many here were criticizing snowbirds heading south. Those same snowbirds will have access to the vaccine in a few weeks, for \$49.,

Among the 15,000 people who received the placebo a shot of saline that does nothing 185 developed the novel coronavirus. .01 of the total.,

How long do you think it will take for 30,000 (the whole test group) people to get the virus naturally? 196 over 2 months is about what you can expect,

S with the virus essentially out of control. It is considered to be enough to be mathamatically significant. And remember, one person in the control gro

. The reason why 'challenge' tests are considered unethical.,

Good point. How serious can it be. We know who is most effected, by and large 99% of the population wont be severely impacted with the virus but rather

,

Will Trudeau and family the first ones to get the shot? I hope they set the example.,

They will, but because they want to set the examble,

Sophie takes injections already!,

By that dude inn Quebec? Did she ever return to skippy?,

Here is the National Institute of Healths (US) news release on the trial. Why does this article give different numbers? Are the placebo group numbers a

? An independent data and safety monitoring board (DSMB) overseeing the Phase 3 trial of the investigational COVID-19 vaccine known as mRNA-1273 reviewe

and shared its interim analysis with the trial oversight group on Nov. 15, 2020. This interim review of the data suggests that the vaccine is safe and e

venting symptomatic COVID-19 in adults. The interim analysis comprised 95 cases of symptomatic COVID-19 among volunteers. The DSMB reported that the ca

fe and well-tolerated and noted a vaccine efficacy rate of 94.5%. The findings are statistically significant, meaning they are likely not due to chance.

es occurred in the placebo group and 5 occurred in the vaccinated group. There were 11 cases of severe COVID-19 out of the 95 total, all of which occur

ebo group.,

I realize that. I'm wondering why the numbers differ in this news article from the official release?,

That was an older report before they had enough infections to apply for approval. On 30 November Moderna gave an updated report with enough infections

. As more data comes in, it will also be reported, probably for 2 years.,

The situation would be more clear, I would feel more reassured, if reporters would never ask Trudeau a question. As quickly as possible,

But he is so handsome! Handsome! And his socks! They are colorful! That is JOURNALISM!,  
8% of Canadians will get the first shot in Feb-March, second dose in MAY. Other 92% will get first shot in Sept at earliest, possibly November. Second  
nto 2022 at which time Covid will have gone away on its own,  
Here you go Nick, since you need to be taken by the hand and shown the way: ,  
I have looked and found nothing what you claim on any of the usual trusted news sites. ,  
With Patty's graphic arts background ,the packaging of these vaccines will be awesome! ,  
O'Toole said "Canada should never have trusted the Chinese in the first place" - about time one of our politicians is starting to speak the truth in re  
Chinese. ,  
Its starting to look like we should have partnered with the Russians.. who knew? ,  
Maybe Trump was right ? ,  
He helped negotiate a trade deal with China. Should China lose money, according to Article 11 within the deal China can sue Canada for lost revenues. C  
t have that option. On a good note, the deal expires in 2045. Surely you must be joking? ,  
as quickly as possible. We might just as well place a wig of dark wavy hair on a head of lettuce and place it in front of the teleprompter. ,  
But his blood makes him special....his blood! ,  
Prince Charles is royalty; don't much care for him either. ,  
The woke left would sub kale for lettuce. ,  
That would be an improvement. ,  
Lately the colour swatch has changed to an auburn tone so a bit of variety will keep it from being boring - not really -platitudes delivered by a ventr  
of lettuce will still be boring. ,  
Too many people are playing partisan games with the very serious question of why Canada cannot produce COVID vaccines. PM Trudeau himself blames Harper  
as during Harper's tenure as PM that private sector pharmaceutical manufacturers left Canada. However, there is no evidence that any policy of the Harpe  
as responsible for that. It was the Mulroney government that privatized Connaught Laboratories, Canada's government-run pharmaceutical lab, in 1986. The  
als themselves are not blameless. Trudeau spent \$44 million to co-develop a vaccine with China, but then China refused to allow shipment of the vaccine  
trials. Trudeau announced another \$120 million in August, saying it would enable the domestic production of vaccines starting in November. That failed t  
n reasons. The Trudeau government also failed to secure domestic production rights in any of its vaccine procurement contracts. NDP leader Singh just he  
ference blaming both Conservatives and Liberals for Canada's lack of vaccine production capacity, but the NDP escapes blame only because they have never  
nment. Singh called for a Crown corporation like Connaught Labs to be re-established, but he also cited Australia as an example of a country similar to  
producing its own COVID vaccines domestically, while failing to mention that vaccine production in Australia, as well as the US, UK, India, Belgium, and  
0 countries, is being done entirely by the private sector. So the real question that has to be answered is why pharmaceutical companies don't find Canad  
e place to set up shop. Let's stop the partisan nonsense and get to the bottom of it. ,  
Failure of government. People are the losers. ,  
Thanks Trudeau. ,  
Sarcasm? ,  
He doesn't know but keeps leading Canadians down the road. As quickly as possible,  
With the economy going down and debt piling up by the billion every months thank to free money giveaways, it is not acceptable that he is not coming ou  
date for vaccination. As quickly as possible,  
the economy would of collapsed already if it wasnt for the free money.. if you look at history - all civilizations collapse after debasing their curren  
JT the vaccine will distribute itself,  
as quickly as possible is still not a date other countries are ready in 1-2 weeks t start what are we doing here? We are running programs that drive de  
. Get it done. ,  
Someones gotta rep. the little dog in this fight. Thanks to Corona, Flu, Pneumonia, and "Vape Lung" are all but non existent in 2020. Top that off with  
s long overdue modernization, and health care reviving funding nearly on par with the pre Harper era.Maybe we shouldn't be so fast to label corona as ba  
hat other problems it can solve, if given the chance. our debt with china... pretty safe to say we, as well as the rest of the world, are square now,  
False. Harper increased health transfers to the provinces by 6% each and every year he was PM, starting with his first budget in 2006. ,  
The only 33% reduction in federal health transfers to the provinces happened under the Chretien-Martin Liberals in the 90s. Harper restored funding and  
far beyond previous levels. ,  
RE Drinking water targets. Liberals won't meet their promises"? Like anybody is surprised about that or any other Trudeau promise! As quickly as possib  
It Trudeau was an officer on the battle field his own troops would frag him. As quickly as possible,  
You won't ever find a Trudeau on any battlefield. ,  
only in the movies. ,  
he would be leading from the rear. ,  
It was the first time I allowed myself to cry," oh! that brings a tear. thank you to all the researchers working behind the scenes to create something  
e been waiting for....THANK YOU! ,  
With recent polls showing that a sizeable number of Canadians will refuse a vaccine altogether, or will wait some time before lining up for a shot, so  
and running now so those of us who are willing to get vaccinated have our name on the list,  
The reality is if even 50% of the population is vaccinated the desired outcome will occur. ,  
As quickly as possible clean drinking water on reserves? I don't believe him and nor should anyone else. ,  
all levels of government need to start clearly identifying who gets the vaccine and having people enrol if they wish to get it , do this before so the  
and there are not confusing statement made and empty or crowded vaccination centres,  
We don't want to be first with any new vaccine. Let someone else discover any hidden adverse effects before we get the vaccine. ,  
that is what the researchers (and government regulations) are doing now. ,  
The past has shown the the Trudeau family will soon see another windfall while we wait and wait and wait. as quickly as possible,  
JT & Santa go hand in hand a mere wish list. We sat on the fence when it came to initial outbreak & PPE. Now history repeats itself with the vaccine bo  
I didn't vote Con so save your efforts. ,  
Come back when you have something intelligent to say,  
Justin, the UK just approved the Pfizer vaccine. Why has Health Canada not approved the same vaccine in Canada? What is the hold up? Waiting for delive  
ly so you won't be embarrassed? as quickly as possible,  
Because the UK was willing to forego the usual approval process. No other country is doing that besides maybe Russia. If Trudeau overrode the approval  
mething went wrong would you say that it was ok? I am thinking not. ,  
They are working on approval. The last thing we want is to rush the approval process, only to discover later on that there are hidden adverse effects. ,  
he answered that question a few times over, herbert. canada has it's own standards. ,  
Vaccines are going to be rolled out in quite a few countries next week. The excuses are wearing thin. as quickly as possible,  
Do your own research. ,  
yeah, that's what I thought. If you can't name them yet you make claims saying several countries next week and can't back it up..it makes you full of i  
Now go do your own homework. Hint, Google will reveal all. ,  
the US is meeting to talk about the UK's approval of the vaccine next week. It is not starting vaccinating people. Mexico is in the same boat. Just abo  
ry is hoping to have people vaccinated by next September-ish. ,  
I said next week,  
43 minutes ago The UK is the first country to approve the Pfizer vaccine. Come on JT, what's the hold up in Canada? as quickly as possible,  
The PM has nothing to do with approving vaccines. Nor should he. Health Canada will grant approvals or not when they are satisfied. ,  
i know, it's just fun winding up the left. LOL,  
Funny how making the right look dumb is the way to rile the left,  
Come now. Don't be naive. JT has attempted to influence supposedly independent bodies before. What makes you think he wouldn't do it again to avoid pol  
ssment. ,  
just as i suspected...you need a new hobby,  
Yeah he has nothing to do with the AG either but that didn't stop him for trying to get a deal for SNC. Sorry, i don't trust him at all. ,  
Now the Mexicans are ready to roll on Pfizer, commence vaccinations of all health care workers Dec 11, then high risk and seniors. Gen pop to begin in  
and millennials go last,  
millenials are fine as they self isolate in their parents lower level gaming all day and collecting Lib cash handouts. ,  
Lockdowns + Universal income = Majority. Majority - Universal Income = Our Future. J.t. is a Con, in Libs clothing. Hes lost all respect, and is going  
y on the promise tax dollars, to garner any votes. From now on, in voting Green, or bust! ,  
Pigs have a better chance at flying. ,  
What level of capacity strain was out public health system under this time 2019/2018 with admissions for regular Influenza A/B? Keep in mind, our publi  
em has been under capacity stress for a decade giving the rapidly aging population in Canada and care this requires,  
interesting to see 2019/2018 pneumonia complicated deaths from influenza A/B set against COVID complicated deaths. Plus how many cases, if we ever kept  
ple to were admitted to the health care system with influenza A/B severity during this time frame in the past two years. ,  
Trudeau says vaccines will roll out as quickly as possible after Health Canada approvals. Well, I would certainly hope so,  
Canada will be still waiting for the vaccine long after Health Canada approves. Thanks JT! LOL,  
Britain and US have both already approved the Pfizer vaccine for distribution. Once again we're behind the 8 ball - typical for this government. They'r  
st at shoveling out the money, but for finding solutions, not so much. as quickly as possible,  
Have they? Britain has granted emergency approval just today and I'm not sure that covers general distribution. I haven't heard anything about a US app  
US has not approved, yet, Mexico has this am though,  
43 minutes ago The UK is the first country to approve the Pfizer vaccine,  
Health Canadas approval process was set up to be independent of political influence. In the US and UK politics can truly fast track drugs. Slow action  
rugs in Canada is they way the system is, trying to blame it on the current Government is wrong. The whole system would have to be changed for this to h  
rather a heath Canada system that looks out for Canadians be in control, not a Politician that gets "Donations" from big Pharma. ,  
Big Pharma wins regardless of the timing. ,  
The US has scheduled to distribute 20 million doses by the end of December. ,  
Let's use what they are using in China. Apparently it's working very well. ,  
He is no rush, plan is to delay to inflict max damage to Ford to diminish Con brand in vote rich Ontario. Summer election, JT will time release just be  
now, he is sitting on sidelines, letting the Premiers take all the flack. as quickly as possible,  
And letting Canadians die. ,  
Devils Advocate... Corona is a good thing! No flu, pneumonia, or "vape lung" this year. Our education system is finally getting a long overdue moderniz  
ding is going back to heath care at levels the meet pre Harper.If we could just convince those at risk to protect themselves, as opposed to expecting ot  
t them, corona would be more silver lining than cloud! ,

You might want to check some actual facts before you spout off about Harper. Harper guaranteed annual Health Care transfer increases of annual inflation during his term. Stop believing the Liberal gossip., as quickly as possible. Bottom line, our Liberals put pandering to China, that great Democracy and defender of human rights and the rule of law, ahead of Canadians. And apparently Liberals knew they would never come through as they didn't even bother creating a distribution plan. So incompetence gets competence delivering it = more Canadian deaths.,

All I read was conservatives slander and whining. We have a compassionate and empathic PM and you don't like that.,

All I hear is a Liberal in total agreement by failing to rebut. After 5 years you can't name a single success and still you pretend., as quickly as possible. We'll all believe this when the refrigeration units are all here and when the vaccines are on Canadian soil, not before.,

Let us maintain clear perspective ! This Covid 19 vaccine issue like many other issues (that affect Canadians re their Health, prosperity, social and more at large) are not partisan LIB or CON or NDP Sectors. We all as Canadians deserve intelligent, competent, accountable leadership that exudes integrity. G Maybe next time.,

I agree with you. But unfortunately, I don't think we're getting that.,

The only question is "why did our govt sign on for a Chinese vaccine considering their treatment of Canada and the world instead of more reliable trust providers.,

I'm not sure it's the only question, but perhaps it looked like a promising solution at the time.,

At the time it was the furthest along in development.,

So the Govt jailed our citizens, has committed unspeakable human rights violations, spying, theft and tyranny said they had a good vaccine. Seriously?,

So far advanced it's still non-existent. Hedging our bets like other countries by signing up to multiple sources would be simple common sense, Canada through the NRC has worked with CanSino BIO on other vaccine development so they were viewed as a good science partner the political system well did things up. That is the risk in doing business in countries like China.,

as quickly as possible. The results speak for themselves. Vaccinations are starting next week. We backed the wrong vaccine programs. Stunning that we w a Chinese government vaccine and not what is being developed in the here in the west. Even more stunning is our government chose now to renovate the vaccine producers in Canada thus shutting down their production capabilities. Of course Trudeau blames the Ghost of Stephen Harper for his own incompetence. Wonderful that's just great so why not sign on to other companies just in case. You know like the entire western hemisphere did.,

They are funding development in Canada like here in Edmonton Alberta where one is expected to hit clinical trials early 2021. The feds clearly stated eagerness to have a made in Canada solution so that Canada would control a vaccine and not be dependent on other countries and licensing agreements.,

If you think breaking a contract is costly try breaking a licensing agreement.,

as quickly as possible. UK is getting theirs this week. You can't possibly believe that nonsense after 5 years of dishonest rejection of the rule of law failure. incompetence.,

The UK is allowing for Emergency use only. That is quite different than universal use.,

Yes, the results speak for themselves. Vaccinations will start next week in a jurisdiction where approval was granted today. Health Canada could grant it by time and then our vaccinations will start as well. While we initially went with what was at the time seen as the most promising potential vaccine that cancelled in May and we went with several other options from other companies. Also I'm not clear on how many vaccine production labs we had or how much government had over them. Were they not private companies able to make their own decisions?,

as quickly as possible, incompetence. And Canada is behind 2.5 billion people every G-7 country in existence and has no distribution plan. As always a failed failure.,

Please, we have no vaccine to approve and if we did we'd have to wait for our turn. I guess maybe we could spend the time creating a distribution method then ran on and ended patent protection ending Canadian research,

Just a reminder of a fact that quite a few people here seem to be forgetting is Justin Trudeau's public statement that he holds "a certain respect" for his administration, That says a lot!,

Our leadership STRANGELY put all its eggs in one Chinese basket. So, the govt. who created the global mess, is holding Canadians illegally and rejects demand for an investigation is the Govt the Liberals decide to climb into bed with. All that Chinese money pumped into the PET foundation and Liberal electionally paid off.,

So we didn't put in orders with various companies from a number of countries as the article suggests? Instead we're still committed to a deal the article cancelled months ago? Where are you getting your data? Perhaps you should share it with the authors of this and other articles that disagree.,

They only placed those orders for vaccines after China pulled out of the agreement with Canada. It really was a strange arrangement and put us behind market with the vaccines that are starting to get approved.,

Really you aren't aware that this govt signed an exclusive deal with China that only ended in May when a Canada bound flight carrying their vaccine here was blocked by Chinese officials. Kindly explain why with Chinese record on human rights, spying, theft, jailing our citizens and turning a regional pandemic was the choice of our Govt., Details please! Oh we are now behind 2.5 billion people every G-7 nation in existence and still have no distribution.

Oh I'm aware of all that, but in April and May access to a working vaccine probably seemed more important than the flaws in the source. Nor do we appeal everyone else according to statements from some of the companies involved. As to a distribution plan I'd be surprised if we didn't have several plans to various handling requirements of whichever vaccines get approved and delivered and in what order in what amounts. There are a lot of variables and put A through Plan K would be confusing,

That's fine but that does not explain why our Govt didn't do what every other govt in the entire western hemisphere did and signed on to multiple sources' bets. UK gets their vaccine this week I guess we are too eh? It wouldn't matter we still don't have a distribution method.,

What are you talking about? We've got 7 sources lined up. None of them are China since the Chinese contract was cancelled in May. The UK approval agency off today and others, including Health Canada, could follow at any time. And there's a difference between not publishing the plan and not having a plan. All a lot of variables for delivery and people tend to get upset by changes to the plan even if those changes are driven by changing variables.,

as quickly as possible. incompetence. The Chinese deal fell through in May THEN we started signing up. Now unless COVID started in May then this Govt has no unending failures your telling me this govt has a distribution plan but won't tell us. Out of Humility I suppose. .5 years and not a single success won't face reality.,

as quickly as possible. The word salad king.,

Trudeau says and Trudeau does are quite often 2 completely different things,

as quickly as possible, incompetence, The UK first to roll out a vaccine from Pfizer, Gee Canada could have been on that list. All that massive debt and no sight or distribution method. Brilliantly typical Liberal performance. Apparently their first 4 years of unending failure might have been a hint to the success.,

as quickly as possible. Incompetence. The king of vague ambiguous generalizations has spoken.,

How about a 'target' date that you're working on? That's what you do in business.,

Still comes down to "I don't know", especially when it depends on factors out of his control. Also the stakes are lower in business. It's just money.,

There's a big difference,

Really "I DON'T KNOW" means signing up to multiple sources to cover your bets. It did not.,

Funny that this article claims that we've signed up with 7 sources rather than just a cancelled contract with China.,

I wouldn't be comfortable if I thought Health Canada was working toward a target date or expediting the approval process. That sort of thing might be out of a new widget but health isn't business. The stakes are higher.,

Target dates, expediting, making business deals. not exactly what career politicians have experience in.,

You can't 'get' something without working on it. If the concern is safety, then ok, raise the bar, but do some WORK for God's sake,

And what work should the PM, the PMO or the government do to get approval from Health Canada? Political pressure to approve early perhaps? Skip Health Canada and simply grant approval themselves? Declare Britain's approval as good enough? I'll wait thanks.,

It's approved in UK for 'emergency' use only.,

And the cow jumped over the moon and other Liberal fairy stories.,

What does as quickly as possible actually mean? To me, it suggests that JT is admitting that the government no longer has any real control over the timeline to vaccines once they are approved. Quite an accomplishment for a supposedly developed country. incompetence,

It's really the manufacturers who control the timing of deliveries to any country isn't it?,

No, those in countries that have signed licensing agreements - which Canada did not do - will get access based on their domestic ability to produce the vaccines in those countries that develop and produce their own vaccines - which Canada could once but no longer can do - will clearly get prioritized access, as fast as possible.,

Where one is on the priority list still doesn't give one control of the timing of the manufacture. Order of delivery yes, timing no.,

But it's the govt's obligation to at least get on the list. How's JT doing?,

Actually mark our brain trust decided to put all its eggs in one Chinese basket and here we are.,

My understanding is that we've been on various lists since August.,

The Chinese deal fell through in May when the Chinese blocked a Canadian bound flight carrying their vaccine here for testing. Why in God's name would they sign up with China and not far more qualified dependable Western companies.,

It's pretty obvious we're not on the priority list for any of these reputable major companies, when they know the first people JT went to was communist China for a vaccine. He stepped in it again, and it will likely cost Canadian lives.,

We'll likely 'follow' the hierarchy the US is using; front line health workers, other care givers, care-homes, workers in essential businesses (like food and service people, then oldest down to youngest. This doesn't happen overnight.,

Maybe they can beg for some doses to get our front line healthcare workers vaccinated this month.,

as quickly as possible. Incompetence. May I remind you that Trudeau does NOT know when or how much we are going to get?.....As for a purchasing agent miserably.....this is just one example.,

hopefully we are not using the one that England just approved, better to wait a bit and get one you do only once a year and can keep it in a fridge, usually when you rush you make mistakes,

Does anyone? Mr Johnson seems to be in much the same situation and his approval agency cleared the vaccine there today.,

I suppose prudence is the only defence Trudeau has after he was so late in securing this vaccine.,

Was he late? At the time several months ago it appeared we were fairly early in the ordering process.,

I said we will likely follow the 'hierarchy' of who gets the vaccine. I didn't say when we would start.,

He order in August which was months after other countries.,

Canada is such a joke. If you need proof, watch what happens over the next 5 years. Huge tax increases, multi generation home ownership horizons, no matter how much you work for the government Big round of applause for "saving us" leftists!,

The Cons are not going anywhere politically until they change a few things, and people forget about their past bad behavior. Here is a hint, stop calling communists and leftists, or alt left.,

Just wait for the 'closing tax loopholes' BS to pay for the 'we've got your back' hundreds or billions in new spending programs. Trudeau taking social engineering levels.,

They did get the most votes in the last election so they're not that far away. Especially considering the dud of a leader they had.,

I'd suggest people stop BEING alt-left, leftists and communists.,

And what about the Liberals past and present behavior? The list is too long to comment here. I would have to get a book publisher., What does as quickly as possible mean? Trudeau is a serial liar. We know that. Incompetence, It means that vaccinations will start as soon as he has a way to personally profit from it. Incompetence, We get them when we get them. Unless you are a front line worker, senior, or vulnerable what makes you think you were first in line?, when you are unqualified, not to mention incompetence, as quickly as possible may be a long long time, They will roll out just like the clean drinking water promise. The Trudeau Liberals have zero credibility and more proof today., when indigunous quick squandering and embezzling the billions they get from tax payers they will have enough\$\$\$ to have clean drinking water, if trudeau says it, it must be true. As quickly as possible, incompetence, incompetence, Any comment beginning with "Trudeau says" should be relegated to the scrap pile of empty Liberal promises. Ask ALL the indigenous reserve lean water they have been "promised" for over 25 years., Remember way back before March....The world was warned of the Covid Outbreak in China and Canada was the last to get their citizens out of Ground Zero. they were a month behind the world getting our Citizens out....Then he brags about getting tens of thousands back home through bottle neck airports in C screening or warning of the declared Pandemic in Canada with 3 Provinces closed., as quickly as possible, incompetence. and a months long wait to get rapid testing and now months long wait to get vaccinated., Total failure of this Govt to protect Canadians!!, I'm not sure total failure is entirely correct. One needn't look far afield to find significantly worse efforts., Why is wanting a vaccine as quickly as possible for the worst pandemic in over 100yrs even considered partisan? Who could argue against that? Only a pu eologue would argue against getting our life back to normal as quickly as possible, Only 1.5M worldwide dead, yeah not too bad. Geez, If it's bad enough to shut down our economy and rack up unprecedented debt, it's the worst in 100 years., It must be understood that when people raise concerns regarding safety of an expeditiously developed vaccine by novel methodology, it is not whining bu sion of concern. If people raise concerns regarding unavailability of vaccine in CANADA for its citizens to be vaccinated unlike citizens of other devel like US UK Germany who are starting to get vaccinated ahead of Canadians..... .. it is not whining but valid display of concerns in this regard. This pa ught forth and exposed deep failures of how our governments, Federal/Provincial/ local level, to deliver Health care services. Canadians were already su nacceptable wait times of months or years for seeing a physician or a specialist or having serous surgery done or being treated for cancer - and now thi cine related debacle.Current debacle to be devoid of capabilities to manufacture Covid 19 vaccine and then further failures to procure the vaccine devel actured elsewhere is momentous failure on part of all levels of Governments - Federal, Provincial, Municipal- to look after heath and welfare of all Can do it - I know when Canadians set their minds to any task they are capable of accomplishing it. I implore to politicians/appointed/annointed/hired dign to let Canadians down and to please act intelligently and efficiently and compassionately to ensure health and welfare need of Canadians is looked after can do better ! I know we can., as quickly as possible. Incompetence. So for the next year the world will have to enact a Canadian travel ban. Good job Liberals, Justin can't even get clean drinking drinking water to First Nations after promising to do so for 5 years, but yeah, he's got a woke vision for re-imag Good grief, what a donkey, as quickly as possible. So how many more approvals does there need to be until it is approved 5, 10, 20 I just don't believe we won't get the vaccine u year or until 2022. In the mean time our Neighbors across the Border will be starting to vaccinate their population next Thursday. In a few weeks the UK ing their citizens in a few weeks., as quickly as possible, incompetence. Trudeau spends \$billions and does not negotiate dates or quantity of vaccines?.....What would you expect from a Correct. Part-time Drama teacher. Better, Two degrees from Canadian universities and former high school French and mathematics teacher is accurate., FURED drama teacher is 100% accurate. Fired for cough undisclosed reasons, We will be getting our first vaccine shipment in April. 2 million doses. Enough for 1 million people.That's the reality.The US will be at herd immunity April if we're lucky, Trudeau will have a way to make some money from this by then I'm sure., You will get the vaccine only after I am finish dishing out billions. Greasing party wheels and buying the next election, Funny how all the liberal supporters are saying there is no rush for the vaccine now. see how well propaganda works?, as quickly as possible. Incompetence. Just asking, why are other countries perfectly capable of approving the vaccines in a more timely manner than Can People whine and beach saying the vaccines were made too quickly and wouldn't be safe. (I'm not taking that - whimper-whimper). Then, when we're on the ng something that only needs final safety approvals the same people are whinin' and beachin' that its taking too long. You can't please these people. Th ing too much., A failure should be recognized, I don't believe a word this guy says.....he has proven it time and time and time.....again! Incompetence, as quickly as possible, Hey JT, WE don't have a vaccine., as quickly as possible. Incompetence. JT has promised by using taxpayers money he will get the vaccine to 3rd world countries. What a great guy., Yes, Captian Obvious. Have you got a deal worked out for the carbon tax on the delivery, The government announced the purchase of hundreds of million doses with great fanfare. They neglected, however, to indicate any semblance of a delivery we know is 20 million doses will be delivered sometime in the first quarter of 2021. Absolutely no word on any other deliveries. I guess that's why JT a o secretive in releasing any contact details. as quickly as possible, incompetence, The US and the UK are starting vaccinations this week. I hope it will dawn on Canadians that the border closures are because of us not them, as quickly as possible. The silver spoon boy dealing with Covid has been spend money as fast as he can. and not working as he no leader. now with the v or unknowing. well i would say that the Members of the House be the last and their families to get a shot when it arrives. as we all know they shall be et it. they will say they need to live to spend more of our money., so far the only thing which is rolling as quickly as possible is the debt created by liberals, As quickly as possible.Basically JT is saying we have no idea, How incompetence would it be to demand a delivery date with no real idea when or if one or another vaccine might be approved? Remember that access to t was negotiated months ago., UK vaccination starts tomorrow, we can't be very far behind, what a relief., This little tidbit of information should appease the Con's concerns of not getting a vaccine because of It's speedy availability., As quickly as possible he can get his buddies involved., UK just announced they have approved Phizers vaccine and will start immunizing its citizens within days. We don't even have a date as to when we might three million. Epic FAIL.. Incompetence. As quickly as possible, Oh, for goodness sakes.....we will get the vaccine when it is ready and hopefully will be effective.....I agree with one person that I heard on ther day re the US starting their vaccines later this month.....she said that she would 'prefer' to wait out to see how the vaccine is working on indivi S....makes sense to me!, The middleclass and small business will be extinct by then, CBC story UK next week. British media have reported that hospitals in England have been told to get ready to start doing vaccinations for medical worke next week. Canada not so much, Canadian healthcare workers being let do by Trudeau. as quickly as possible, China and Russia have been giving vaccines for months. The Brits are getting ready. Gord ? He's just CONFused. He thinks this is a race., Ernie has been fibbing about other countries getting the vaccine fast: Zahawi declined to give any specific date for a vaccine rollout as none have yet for public use.", CBC story UK next week. British media have reported that hospitals in England have been told to get ready to start doing vaccinations for medical worke next week., These vaccines have not been approved. They may get some kind of emergency allowance to be used on health care workers etc., but they have not been app on the general public. Till then we just have to wait., Let's look at some of Trudeau's claims. August 30, 2020. PMO press release. preliminary production of 250,000 doses of vaccine per month starting in No e of the things to remember is Canada no longer has any domestic production capacity for vaccines, - JT November 24th., Lack of an exact date does not mean they don't have a plan., Are you saying O'Tool is telling stories the same as Trudeau? No one can spin a yarn like the podium puppet., Trudeau says vaccines will roll out as quickly as possible What does that basic statement even mean for when we will actually get it?, that means if you want to get it your place in the line depends on "donations" to his slush fund, as quickly as possible. Clearly Trudeau and his gov't have blown this and more than necessary people will die. Not that they didn't do their best, just e incompetence having no background of experience to manage our government and negotiate on the world stage., Hire people that can do and have the experience to run this country, not political folks with no real experience in managing anything of substance. How tal, a manufacturing plant, a banker, but not lawyers and certainly NOT Journalist, DramaTeachers/media types, or a Graphic Artist., So your a Trudeau trooper and you do not want to be vaccinated. Are you wearing a mask?, Morneau was an odd fit for them. Wonder if that's why he's gone. Seems anyone with brains has left. Jody... jane, Unfortunately, the opportunity for improvement has passed. Our fate was sealed when the government did nothing until August, instead of relying upon th ine. Funny how we were going to be able to produce vaccines domestically when that was announced, however, we now supposedly have no capabilities for th ion. Guess it was a good thing that deal failed as we wouldn't have been able to produce it domestically if you believe what we are currently being told if I was a liberal attached to the Trudeau government I would be really nervous. He's warming up the buses and figuring out who to sacrifice to save hi "It took more than a generation to pay for Trudeau père's largess: under Jean Chrétien, Paul Martin and Stephen Harper, federal spending averaged 13 pe " Those being born today will still be paying for a government their grand parents voted to support., This is a world event. the whole world is in economic distress, Good thing those born now have no clue what their life will be like. A true Trudeau recruit., If the premiers vaccinate in the right order starting with health care workers we should get this under control to the point were we can get back to so Our life as we once knew it is over. Going forward will be different. I,m hoping better., Based on the statements of industry officials my best guess is that Canada will start to receive shipments by March. But how long will it take Health C ve it? And how will it be divided among the provinces (by population, share of vulnerable demographics, rate of infection, etc.)? And what segments of t will get it first? If Trudeau doesn't start clearly laying out how this is going to work, he is going to leave some provinces and demographic groups ver and the rest ungrateful. , Thanks for that. It is far more than Trudeau is willing to say. There has also been musing about prioritizing First Nations, public school teachers and other groups., Politicians from opposite political parties are squabbling over getting this rushed vaccine to Canadians. I think they will be surprised, when they fin w many Canadians will not be willing to submit to a vaccine for a virus that has a 99.8% survival rate., The vaccines are safe? After you, Prime Minister Justin Trudeau, your family, your cabinet ministers and their families. I say we try the vaccines out ians and see if they turn green, gasp for breath or suffer any adverse effects. If they don't, then we can give the vaccine to the rest of the populatio Way better than any call attack and no policy. Otseola wants an exact date on a vaccine that hasn't been approved yet.

Way better than cons, all attack and no policy. O'Toole wants an exact date on a vaccine that hasn't been approved yet, No he's not. That's Trump.,

And you make excuses for the lackey who has others tie his shoes. Are you better?, If you haven't noticed they are both narcissists. It's all about them.,

When I see JT's competition I am glad she is PM. Seriously look at his competition., when you attempt to make him look smart I realise it's useless to discuss who's better. O'Toole is untried. Who knows what he can do. We've seen Trudeau 2015. It speaks volumes.,

Way better than cons, all attack and no policy. Learn something Opposition parties do not make policies., I am all for replacing JT if you can bring a solid opponent. As for O'Toole if he had some policy he might get some credibility. When you only attack and ng as a solution, you can't lead,

Opposition parties propose policies and plans. Cons can't do that,

Trump, Trudeau, basically the same type of person., as quickly as possible. Incompetence. If we see vaccinations starting in early January, your off the hook Trudeau. If you do not get it started till September have your bags packed and looking for a place to rent.,

Just watch an episode of the British TV series "Yes Prime Minister" ... a highly accurate depiction of how our country is run., I'm not putting all my eggs in the vaccine basket. Until it's actually being jabbed into millions of Canadian arms I'll outwit, outplay and outlast Cov

gy and tactics are pretty simple, social distancing, hand washing and mask wearing.,

In this COVID-19 pandemic, keeping Canadians safe means getting a vaccine as quickly as possible, but it also means making sure that the vaccine is safe s," Trudeau said " " Yep, that's why Mr. Trudeau, Ms. Hajdu and the Cabinet should be the first recipients of the vaccine; then we will all follow suit.,

The vaccine comes when it comes. The political game that's evolved is ridiculous but was inevitable. It's like crying out "when is next year going to a san politics is a sad spectacle to witness and the general populace are tired of it, most people want to yell out "Get Real!". Can't politicians look in d see how ridiculous they come across?,

10,000 Chinese soldiers parish for every Canadian covid death; let's go., You know how many people around the world are respectful of Trudeau and Freeland's leadership? None, None,

The psychiatric term is "projection" and you just did it over 7 billion times. It must be tiring., So says the Chinese conspirator. Stick to China.,

Can you imagine if he lived in China and wrote that about President Xi Jinping in a national newspaper., It is not unlikely that he lives in China and is acting on behalf of the Xi gov't,

Other news sources are reporting exactly that. Talking about how it will be rationed to the most vulnerable and their caretakers in long term care. But Mr Trudeau will be among the first in Canada to get it.,

I'd ask you prove that, but we know that facts are not a Liberal strength.,

Canada has a firm order for 20 million doses from Moderna. They are only shipping 2 million or 10% of the order by April 1. If that is the front of the sure hate to be at the back of the line. Fake news....where does that info come from,

Beijing blocked shipments of vaccine samples meant to be used in clinical trials in Canada. Withdraw all visas and expropriate the home of foreign Chin e Liberals keep thinking that they can trust our enemies.,

Trudeau still looking for the path to Shangri La and needs their help,

China knows a spineless jellyfish when they see one., Quick, Kill me now. With the limitless spending ahead, I'm not waiting for the vaccine to save me. Living through years of a welfare state would be too

You will be waiting a long time for Trudeau to come through with anything he promises if you haven't noticed by now. As quickly as possible, incompetenc

He has to wait for the Halal version or he loses his GTA seats., can you spare some vaccine? And he wonders why they hang up on him.,

Credit to Trudeau not easy being PM during a crisis like this, still he has a 90% approval for his handling of the Covid situation and making sure Bill s went to Canadians' pockets directly rather than money hoarders in boardrooms at Bay Street.,

What 90% of two hundred liberals? I guess that's pretty high., I guess if you poll liberals you would get a result like that..unfortun CBC fudges their poll results to keep their jobs if they keep reporting pro lib

I'm going to repeat this, One of two things. Those on here defending Trudeau are either being paid... Or they are in a cult. This government is a trav

y as possible. Incompetence, opposition critics and some premiers accuse his government of falling behind on a vaccine distribution plan. O'Toole decided for himself to pursue the

issues...delivery dates.Meanwhile the cohort of Con is withholding millions of federal money from doctors and nurses(Kenney) and topping up Con salaries

illion dollar round table covid committee, sans scientific expertise, comprising of Con bureaucrats and MPPs (Ford).Does the name Dean French come to mi

eard of this., The provincial parties have nothing to do with the federal parties. Please review grade 10 social studies.,

How much do you get paid per post to defend the libs?, Americans already have a shipment in Chicago from Belgium.FDA approved and off they go while our Govt plays Patty Cake.,

Just two days ago Trudeau said we would not get the vaccine until after most other countries, then liberals said it was Harper's fault followed by thei

Mulroney's fault. Now it seems to be Trudeau's fault after all, just don't know which one., incompetence, Just 2 days ago Trudeau admitted he had dropped the ball on the COVID vaccines, now he is singing a different tune. As quickly as possibl

The spinmeisters have gone to work with the support of seebesee., Take your time and get it right. Better to wait a little longer than take a vaccine that is fast tracked and may not be as advertised. Let the American

guinea pigs., After all were only paying customers we deserve a working product before the cash is Authorized.,

O'Toole is borrowing from the Trump playbook except that he's falling flat on his face. But the neck beards still believe anything he says., Hmmm. How would anyone compare Trump to any Canadian representative? Two totally different systems and in spite of Trump, theirs is way better simply

people for the people that is what Trump actually likes about our system is the "monarchy"(he could just stay in the background). It would give him what

power. Trump is gone and our monarchy keeps on going. This from a Canadian Conservative and yes I way prefer O'Toole over Trudeau any day. Cheers,

I wish you all good health, but that doesn't come from a pill or a syring,

Trudeau says.... I stopped listening to this poser about the same time I stopped listening to Trump. Incompetence, as quickly as possible,

Anand: Vaccine delivery dates are being negotiated now. I can only hope that she informed the military and provinces. Not likely given this cabal., as quickly as possible, incompetence. Trudeau opens his mouth over half of Canada tunes him out. Pretending he should remain PM is all you are doing, P

The half that are laughing are busy growing their neck beards., PM BF speak with fork tongue,

They have to wait the green lights from regulators and Vaccine experts in addition to receiving a notice of imminent shipments my guess., There's also this little tidbit having something to do with the manufacturer giving us a shipping date. Not sure the CPC method, schedule vaccine appoi

1st, company ships vaccine on the 8th, is all that efficient., Wheres my pony, Justin promised me a pony.,

After Health Canada approvals? Is that the same Health Canada that the Trudeau government is now responsible for?, Great I will remember that when the CRA keeps harassing me for payment...I told you I will make payment as quickly as possible.,

Wonder why Trudeau mislead parliament today when he falsely claimed that the cancellation of the CanSino deal left Canada with contracts with 7 compani

t we only had contracts with 2 companies at the time?, His message is 2021 for me and 2022 for thee. Poor planning on his teams part means regular Canadians should suffer. Incompetence, as quickly as possib

I think there should be several discrete review groups to determine the roll out. It will and should be different in each province or territory. For ex

o, Winnipeg has a large poor indigenous population and as poor people are more at risk the city should include poor and indigenous poor in the first 3

o get vaccine.In remote areas where there is no current high infection these can be better helped with an enhanced health control process to stop infect

ng hold.In areas that are infected and hard to get to, then vaccinate everyone not infected. In large cities in moderate climates like Vancouver or Victo

ss and poor should be hinged on the priority lists.I do think though we should retain 10% of vaccines to sell to the ultra rich families, business execs a

with buckets of money so they can skip the queue for 2-5,000's or more.

The justification is that we can't completely segregate the groups for example is a mild 68 year old asthmatic to be included under the 'at risk' group

nk so.We can reduce the debt by allowing rich and influential people to buy the vaccine for themselves or their friends, just put a cap on the amount w

eed,

incompetence, as quickly as possible. And when the vaccine is delayed even further, JT will say, "I'm very very very very mad",

I'm sure he'll find a way to blame Stephen Harper., The moment the vaccine is approved Trudeau will immediately be rolling out all 72 doses in Canada's first allotment!,

Not 'funny'. Oh and I hope you are way, way down on the to get it list,

You are correct Phillip the LIBERAL incompetence is not funny!, as quickly as possible, incompetence. Does anyone believe a single word Trudeau says any more? Anyone?,

right. A liberal deadline promise. About as believable as their clean drinking water promises., As quickly as possible means absolutely nothing.,

China has played a major role in ripping off Canadians when it comes to vaccine technology. China has infiltrated the system, and then refuses to ship

hinese nationals have stolen intellectual property in exchange for big payouts from the CCP. This is a form of biological warfare. And it is a big sign

s a weak leader. China has infiltrated every aspect of Canadian life. Something must be done about Chinese nationals in every important institution.,

China's leaders know that Trudeau is a weak leader and by virtue of this Canada is seen as a weak country. It's shocking that so many Lib supporters do

alize this., JT is Xi's punching bag,
